OF THE STATE OF NEW MEXICO

IN THE MATTER OF THE HEARING  
CALLED BY THE OIL CONSERVATION  
COMMISSION OF NEW MEXICO FOR  
THE PURPOSE OF CONSIDERING:

CASE No. 2416  
Order No. R-2151

APPLICATION OF SOUTHWEST PRODUCTION  
COMPANY FOR A COMPULSORY POOLING  
ORDER, SAN JUAN COUNTY, NEW MEXICO.

ORDER OF THE COMMISSION

BY THE COMMISSION:

This cause came on for hearing at 9 o'clock a.m. on November 29, 1961, at Santa Fe, New Mexico, before Daniel S. Nutter, Examiner duly appointed by the Oil Conservation Commission of New Mexico, hereinafter referred to as the "Commission," in accordance with Rule 1214 of the Commission Rules and Regulations.

NOW, on this 21st day of December, 1961, the Commission, a quorum being present, having considered the application, the evidence adduced, and the recommendations of the Examiner, Daniel S. Nutter, and being fully advised in the premises,

FINDS:

(1) That due public notice having been given as required by law, the Commission has jurisdiction of this cause and the subject matter thereof.

(2) That the applicant, Southwest Production Company, seeks an order pooling all mineral interests in the Flora Vista-Mesaverde Gas Pool in the E/2 of Section 22, Township 30 North, Range 12 West, NMPM, San Juan County, New Mexico.

(3) Applicant alleges:

(a) That Roy Rector and his wife, Ethel Rector, own the mineral interest in 0.30 acres located in the SE/4 of said Section 22.

(b) That O. G. Shelby and his wife, Leona Shelby, own the mineral interest in 0.36 acres located in the SE/4 of said Section 22.

(c) That Dwight L. Millett owns the mineral interest in 26 acres located in the NE/4 of said Section 22.

(d) That Myron H. Dale and George T. Dale own an undivided one-half mineral interest in 13 acres located in the E/2 of said Section 22.

-2-

CASE No. 2416  
Order No. R-2151

(e) That Julian Coffey owns the mineral interest in a tract of land in the E/2 of said Section 22 claimed by him to comprise 16 acres, more or less.

(f) That San Juan County owns the mineral interest in the various roads, streets and alleyways in the E/2 of said Section 22, together comprising 5 acres, more or less.

(4) That the applicant asserts ownership of, or has under communitization agreement, the remainder of the mineral interest in the E/2 of said Section 22.

(5) That the applicant presented uncontroverted evidence that it had made fair and reasonable offers to lease or communitize the acreage of each mineral interest owner listed in finding No. 3 above, but that such efforts had been unsuccessful.

(6) That in order to avoid the drilling of unnecessary wells, to protect correlative rights, and to afford to the owner of each interest in said proration unit the opportunity to recover or receive without unnecessary expense his just and fair share of the gas in the Flora Vista-Mesaverde Gas Pool, the subject application should be approved by pooling the mineral interests listed in finding No. 3 above with the mineral interests owned or communitized by the applicant.

(7) That the applicant proposes to dedicate the subject 320-acre gas proration unit to its Irene Brown Well No. 1 located 990 feet from the South line and 1450 feet from the East line of said Section 22, which well has been tested and is capable of producing from the Flora Vista-Mesaverde Gas Pool.

(8) That the applicant seeks permission to withhold the proceeds from production attributable to seven eighths of each non-consenting unleased interest until such time as each interest's share of the costs of said well have been recovered, plus 25 percent thereof as a charge for the risk involved in the drilling of the well, plus 10 percent thereof as a charge for supervision.

(9) That the applicant should be authorized to withhold the proceeds from production attributable to seven eighths of each non-consenting unleased interest until such time as each interest's share of the costs of said well have been recovered, plus 10 percent thereof as a reasonable charge for supervision; no charge for risk should be allowed inasmuch as no risk existed at the time the application in this case was filed, the unit well having been drilled and tested prior to that time.

(10) That the applicant should furnish the Commission and each known, non-consenting interest owner in the subject unit an itemized schedule of well costs within 30 days following the date of this order.
