1. That due public notice having been given as required by law, the Commission has jurisdiction of these cases, and the subject matter thereof.
2. That in making these findings and issuing this order, the Commission recognizes that there is a dispute as to whether certain leases involved in these cases remained in force and effect during all times relevant hereto, that the Commission cannot, and will not, attempt in this order to adjudicate the title to any such lease.
3. That by its Order No. R-110 the Commission established a uniform spacing plan for the Blanco Mesaverde Gas Pool, said plan providing for drilling units of not less than 320 acres of land in the shape of a rectangle, and provided further that "the pooling of properties or parts thereof shall be permitted, and if not agreed upon may be required in any case when and to the extent that the smallness or shape of a separately owned tract would, under the enforcement of the uniform spacing plan or proration units, otherwise deprive or tend to deprive the owner of such tract of the opportunity to recover his just and equitable share of the crude petroleum oil and natural gas in the pool."

4. That by its Order R-110, the Commission further provided that "no well shall be drilled completed or recompleted and no Notice of Intention to Drill or drilling permit shall be approved, unless such well be located on a designated drilling unit of not less than three hundred twenty (320) acres of land, more or less, according to legal subdivision of the United States Land Surveys, in which unit all the interests are consolidated by pooling agreement or otherwise and on which no other well is completed, or approved for completion, in the pool."

5. That the "interests" which Order R-110 requires to be "Consolidated by pooling agreement or otherwise" to form a drilling unit are the interests of the "owners" as that term is defined in Section 62-3-29 (e) New Mexico Statutes Annotated (1953) i.e., "the person who has the right to drill into and produce from any pool, and to appropriate the production either for himself or for himself and another."

6. That on April 7, 1953 the W/2 of said Section 32, Township 31 North, Range 11 West, NMPM, was situated within the Blanco Mesaverde Gas Pool as then designated by the Commission.

9. That the formation of the drilling unit consisting of the W/2 of said Section 32 complied in all respects with Order R-110.

10. That the drilling of an additional well in the W/2 of said Section 32 would be wasteful.

IT IS THEREFORE ORDERED:
