THE PURPOSE OF CONSIDERING:

CASE NO. 6157
Order No. R-5653

APPLICATION OF SUPRON ENERGY CORPORATION
FOR A NON-STANDARD PRORATION UNIT, LEA
COUNTY, NEW MEXICO.

ORDER OF THE COMMISSION

BY THE COMMISSION:

This cause came on for hearing at 9 a.m. on February 22, 1978, at Santa Fe, New Mexico, before Examiner Richard L. Stamets.

NOW, on this 28th day of February, 1978, the Commission, a quorum being present, having considered the testimony, the record, and the recommendations of the Examiner, and being fully advised in the premises,

FINDS:

(1) That due public notice having been given as required by law, the Commission has jurisdiction of this cause and the subject matter thereof.

(2) That the applicant, Supron Energy Corporation, seeks approval of a 160-acre non-standard gas proration unit comprising the SW/4 of Section 13, Township 16 South, Range 33 East, NMPM, to be dedicated to a Morrow gas well test to be drilled thereon.

(3) That the entire non-standard proration unit may reasonably be presumed productive of gas from the Morrow formation and that the entire non-standard gas proration unit can be efficiently and economically drained and developed by the aforesaid well.

(4) That approval of the subject application will afford the applicant the opportunity to produce its just and equitable share of the gas in the Sombrero-Morrow Gas Pool, will prevent the economic loss caused by the drilling of unnecessary wells, avoid the augmentation of risk arising from the drilling of an excessive number of wells, and will otherwise prevent waste and protect correlative rights.
