NOW, on this 12th day of October, 1979, the Division Director, having considered the testimony, the record, and the recommendations of the Examiner, and being fully advised in the premises,

FINDS:

(1) That due public notice having been given as required by law, the Division has jurisdiction of this cause and the subject matter thereof.

(2) That the applicant, Coquina Oil Corporation, seeks an exception to the Division's Rule 303C to permit its Vivian Well No. 1 located in Unit F of Section 30, Township 22 South, Range 38 East, in which Drinkard and Wantz-Granite Wash production is commingled in the wellbore pursuant to the provisions of Order No. DHC-255, to produce in excess of the 50-barrel limit imposed by said rule.

(4) That the mechanical condition of the well renders it impracticable at this time to install dual completion equipment and produce the two zones in the well on a separate basis.

(5) That the top unit allowable for a well in the Drinkard zone is 142 barrels per day and the top unit allowable for a well in the Granite Wash zone is 187 barrels per day.

Order No. R-6140

(6) That a special casinghead gas allowable for said well of 984 MCF per day has been previously approved by Division Order No. R-5845.

(7) That a top allowable of 100 barrels of oil per day and 984 MCF of gas per day for the subject well will not cause waste nor impair correlative rights and should be approved.
