ORDER OF THE DIVISION

BY THE DIVISION:

This cause came on for hearing at 8:15 a.m. on July 11, 1990, at Santa Fe, New Mexico, before Examiner Michael E. Stogner.

NOW, on this 14th day of January, 1993, the Division Director, having considered the record and the recommendations of the Examiner, and being fully advised in the premises,

FINDS THAT:

(1) Due public notice having been given as required by law, the Division has jurisdiction of this cause and the subject matter thereof.

(2) At the time of the hearing this case was consolidated with Case No. 9999 for the purpose of testimony.

(3) The applicant, Mobil Producing Texas and New Mexico, Inc., seeks authority to institute a new waterflood project on its Bridges State Lease comprising all or portions of Sections 3, 10, 11, 12, 13, 14, 15, 23, 24, 25, 26 and 27, Township 17 South, Range 34 East, NMPM, Lea County, New Mexico.

(4) Injection is to be achieved by the commingled injection of a water stream into the Vacuum-Glorieta and Vacuum-Blinberry Pools through six certain wells in Sections 24 and 25.

(5) The applicant further seeks to expand its Bridges Vacuum Grayburg San Andres Waterflood Project by dually completing two of the six wells such that water injection into the Grayburg/San Andres formation will be through a second parallel string of tubing. Also the four remaining wells are to be completed in a similar manner as to allow the injection of water into said commingled Blinberry/Glorieta injection zone and to continue injecting water into the North Vacuum Abo Pressure Maintenance Project through parallel strings of tubing.

(6) Subsequent to the hearing it was mutually determined by both the Division and the applicant that this matter should be dismissed.

IT IS THEREFORE ORDERED THAT:

Case No. 10000 is hereby dismissed.
