Cause of Release: On February 11, 2021, Enterprise had a release of produced water and lubrication oil at the Cedar Hill Compressor Station. The release was a result of the Emergency Shutdown (ESD) event. The released fluids were ejected from the facility ESD vent. The fluids impacted private property to the north and east. No residences were affected. An area of approximately 100 feet long by 50 feet wide was impacted by the released fluids. No washes/waterways were affected. Remediation activities are in the scheduling process. A third party corrective action report will be submitted with the "Final C-141."

Initial Response

The responsible party must undertake the following actions immediately unless they could create a safety hazard that would result in injury

| | | | | | | |
|--|---------------------------------------|---------------------------------------|--|------------------------|----------------------------------|--------------------------------|
| <input checked="" type="checkbox"/> The source of the release has been stopped. <input checked="" type="checkbox"/> The impacted area has been secured to protect human health and the environment. <input checked="" type="checkbox"/> Released materials have been contained via the use of berms or dikes, absorbent pads, or other containment devices. <input checked="" type="checkbox"/> All free liquids and recoverable materials have been removed and managed appropriately. | | | | | | |
| If all the actions described above have <u>not</u> been undertaken, explain why: | | | | | | |
| Per 19.15.29.8 B. (4) NMAC the responsible party may commence remediation immediately after discovery of a release. If remediation has begun, please attach a narrative of actions to date. If remedial efforts have been successfully completed or if the release occurred within a lined containment area (see 19.15.29.11(A)(5)(a) NMAC), please attach all information needed for closure evaluation. | | | | | | |
| I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations. | | | | | | |
