SITE REMEDIATION AND CLOSURE REPORT REPORTABLE RELEASE

Strata Production Company

Urraca Federal #2
GPS: Latitude 32.31344 Longitude -103.65185
Lea County, NM
Incident ID No. NAPP2116667607

Prepared by:

Pima Environmental Services, LLC 1601 N. Turner Ste 500 Hobbs, NM 88240 575-964-7740

General Information

This report was prepared by Pima Environmental Services, LLC in response to the release for Strata Production Company at the Urraca Fed #2.

Site Coordinates: Latitude 32.31344 Longitude -103.65185

API #: 30-025-31625

Release Description and Assessment

The New Mexico Oil Conservation Division (NMOCD) conducted an on-site inspection on May 5, 2021. Upon the inspection found areas where obvious releases had occurred. Strata indicated that they were minor non-recordable releases. Strata has retained Pima Environmental to work with the NMOCD to get this NOR closed out by getting the stained areas cleaned up.

Date of Spill: 05/15/2021

Type of Spill: ⊠Crude Oil ⊠Produced Water □ Condensate □Other (Specify):

Comments: Non-Reportable release

Remediation Activity Summary

Pima mobilized personnel and equipment to the site. Remediation activities were completed via in-situ bioremediation utilizing our Remediate Ground. Our chemicals were applied with our applicator trailer and utilizing hand tillers the chemicals were worked into the soil. The Remediate Ground encapsulates the hydrocarbons rendering them non-toxic and non-detectable under sampling events. In most cases it removes the staining from the soil. Before and after photos can be found in Appendix C.

Closure Request

After careful review, Pima requests that this NOR be closed. Strata Production Company has complied with the applicable closure requirements.

Should you have any questions or need additional information, please feel free to contact Chris Jones at 575-964-7740 or chris@pimaoil.com.

Respectfully,

Chris Jones

Closure

The responsible party must attach information demonstrating they have complied with all applicable closure requirements and any conditions or directives of the OCD. This demonstration should be in the form of a comprehensive report (electronic submittals in .pdf format are preferred) including a scaled site map, sampling diagrams, relevant field notes, photographs of any excavation prior to backfilling, laboratory data including chain of custody documents of final sampling, and a narrative of the remedial activities. Refer to 19.15.29.12 NMAC.

Closure Report Attachment Checklist: Each of the following items	must be included in the closure report.
X A scaled site and sampling diagram as described in 19.15.29.11 NN	ЛАС
Example 2 Photographs of the remediated site prior to backfill or photos of the must be notified 2 days prior to liner inspection)	e liner integrity if applicable (Note: appropriate OCD District office
Laboratory analyses of final sampling (Note: appropriate ODC Dist	trict office must be notified 2 days prior to final sampling)
© Description of remediation activities NOTE: The above items (if required) will be provided after reclam	ation process is completed.
I hereby certify that the information given above is true and complete to and regulations all operators are required to report and/or file certain relemany endanger public health or the environment. The acceptance of a C-should their operations have failed to adequately investigate and remedia human health or the environment. In addition, OCD acceptance of a C-l compliance with any other federal, state, or local laws and/or regulations restore, reclaim, and re-vegetate the impacted surface area to the condition accordance with 19.15.29.13 NMAC including notification to the OCD vegetate.	tase notifications and perform corrective actions for releases which 141 report by the OCD does not relieve the operator of liability atte contamination that pose a threat to groundwater, surface water, 41 report does not relieve the operator of responsibility for . The responsible party acknowledges they must substantially ons that existed prior to the release or their final land use in
