|--------------------------|-------------------|-----------------------------|-------------------|-----------------------|-------------------|
| <b>Type of Incident:</b> | Malfunction       | <b>Release Occurred To:</b> | Air               | <b>Release Type:</b>  | Vented            |
| <b>Started On:</b>       | 8/19/2022 1:20 AM | <b>Ended On:</b>            | 8/19/2022 1:36 AM | <b>Discovered On:</b> | 8/19/2022 1:20 AM |

**Event Duration:**

16 Minutes

**Material Released:****Material Composition:**

Pentane 0.4555%, Ethane 11.0026%, Methane 75.1975%, Heptane 0.352%, Propane 5.746%, Carbon Dioxide 0.9018%, n-Octane 0.0466%, Isopentane 0.4377%, Hexane 0.2167%, Nitrogen 3.147%, n-Nonane 0.0058%, Isobutane 0.7258%, Butane 1.765%,

**Calculations:**

Compound Calculation Used to Obtain Released Amount

Pentane:  $102000 \text{ \{scf/event\}} * 0.004555 \text{ \{mole fraction\}} * 72.1488 \text{ \{lb/lb-mole\}} / 379.3 \text{ \{scf/lb-mole\}}$   
 Heptane:  $102000 \text{ \{scf/event\}} * 0.00352 \text{ \{mole fraction\}} * 100.2019 \text{ \{lb/lb-mole\}} / 379.3 \text{ \{scf/lb-mole\}}$   
 Propane:  $102000 \text{ \{scf/event\}} * 0.05746 \text{ \{mole fraction\}} * 44.0956 \text{ \{lb/lb-mole\}} / 379.3 \text{ \{scf/lb-mole\}}$   
 n-Octane:  $102000 \text{ \{scf/event\}} * 0.000466 \text{ \{mole fraction\}} * 114.2285 \text{ \{lb/lb-mole\}} / 379.3 \text{ \{scf/lb-mole\}}$   
 Isopentane:  $102000 \text{ \{scf/event\}} * 0.004377 \text{ \{mole fraction\}} * 72.1488 \text{ \{lb/lb-mole\}} / 379.3 \text{ \{scf/lb-mole\}}$   
 Hexane:  $102000 \text{ \{scf/event\}} * 0.002167 \text{ \{mole fraction\}} * 86.1754 \text{ \{lb/lb-mole\}} / 379.3 \text{ \{scf/lb-mole\}}$   
 n-Nonane:  $102000 \text{ \{scf/event\}} * 0.000058 \text{ \{mole fraction\}} * 128.2551 \text{ \{lb/lb-mole\}} / 379.3 \text{ \{scf/lb-mole\}}$   
 Isobutane:  $102000 \text{ \{scf/event\}} * 0.007258 \text{ \{mole fraction\}} * 58.1222 \text{ \{lb/lb-mole\}} / 379.3 \text{ \{scf/lb-mole\}}$   
 Butane:  $102000 \text{ \{scf/event\}} * 0.01765 \text{ \{mole fraction\}} * 58.1222 \text{ \{lb/lb-mole\}} / 379.3 \text{ \{scf/lb-mole\}}$   
 Ethane:  $102000 \text{ \{scf/event\}} * 0.110026 \text{ \{mole fraction\}} * 30.069 \text{ \{lb/lb-mole\}} / 379.3 \text{ \{scf/lb-mole\}}$   
 Nitrogen:  $102000 \text{ \{scf/event\}} * 0.03147 \text{ \{mole fraction\}} * 28.0134 \text{ \{lb/lb-mole\}} / 379.3 \text{ \{scf/lb-mole\}}$

**Violations:****Known or anticipated acute or chronic health risks associated with the emergency:****Medical attention advised for exposed individuals:****Cause of the upset:**

site was hit with liquids and shutdown all units

**Actions taken to correct the upset and minimize emissions:**

tech headed to site and got units back online to pull field down

**Precautions taken as a result of the release:**

| Answer all questions that apply. The Reason(s) statements are calculated based on your answers and may provide additional guidance.                                                                                                                                                        |                                                   |
| Was this vent or flare caused by an emergency or malfunction                                                                                                                                                                                                                               | Yes                                               |
| Did this vent or flare last eight hours or more cumulatively within any 24-hour period from a single event                                                                                                                                                                                 | No                                                |
| Is this considered a submission for a vent or flare event                                                                                                                                                                                                                                  | Yes, minor venting and/or flaring of natural gas. |
| An operator shall file a form C-141 instead of a form C-129 for a release that, includes liquid during venting and/or flaring that is or may be a major or minor release under 19.15.29.7 NMAC.                                                                                            |                                                   |
| Was there at least 50 MCF of natural gas vented and/or flared during this event                                                                                                                                                                                                            | Yes                                               |
| Did this vent or flare result in the release of <b>ANY</b> liquids (not fully and/or completely flared) that reached (or has a chance of reaching) the ground, a surface, a watercourse, or otherwise, with reasonable probability, endanger public health, the environment or fresh water | No                                                |
| Was the vent or flare within an incorporated municipal boundary or withing 300 feet from an occupied permanent residence, school, hospital, institution or church in existence                                                                                                             | No                                                |

|                                                           |                        |
|-----------------------------------------------------------|------------------------|
| <b>Equipment Involved</b>                                 |                        |
| Primary Equipment Involved                                | Gas Compressor Station |
| Additional details for Equipment Involved. Please specify | Not answered.          |

|                                                                                                                               |               |
|-------------------------------------------------------------------------------------------------------------------------------|---------------|
| <b>Representative Compositional Analysis of Vented or Flared Natural Gas</b>                                                  |               |
| Please provide the mole percent for the percentage questions in this group.                                                   |               |
| Methane (CH4) percentage                                                                                                      | 75            |
| Nitrogen (N2) percentage, if greater than one percent                                                                         | 3             |
| Hydrogen Sulfide (H2S) PPM, rounded up                                                                                        | 0             |
| Carbon Dioxide (CO2) percentage, if greater than one percent                                                                  | 1             |
| Oxygen (O2) percentage, if greater than one percent                                                                           | 0             |
| If you are venting and/or flaring because of Pipeline Specification, please provide the required specifications for each gas. |               |
| Methane (CH4) percentage quality requirement                                                                                  | Not answered. |
| Nitrogen (N2) percentage quality requirement                                                                                  | Not answered. |
| Hydrogen Sulfide (H2S) PPM quality requirement                                                                                | Not answered. |
| Carbon Dioxide (CO2) percentage quality requirement                                                                           | Not answered. |
| Oxygen (O2) percentage quality requirement                                                                                    | Not answered. |

QUESTIONS

| Date(s) and Time(s)                            |            |
|------------------------------------------------|------------|
| Date vent or flare was discovered or commenced | 08/19/2022 |
| Time vent or flare was discovered or commenced | 01:20 AM   |
| Time vent or flare was terminated              | 01:36 AM   |
| Cumulative hours during this event             | 0          |

| Measured or Estimated Volume of Vented or Flared Natural Gas              |                                                                                                                   |
|---------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------|
| Natural Gas Vented (Mcf) Details                                          | Cause: Other   Gas Compressor Station   Natural Gas Vented   Released: 102 Mcf   Recovered: 0 Mcf   Lost: 102 Mcf |
| Natural Gas Flared (Mcf) Details                                          | Not answered.                                                                                                     |
| Other Released Details                                                    | Not answered.                                                                                                     |
| Additional details for Measured or Estimated Volume(s). Please specify    | Not answered.                                                                                                     |
| Is this a gas only submission (i.e. only significant Mcf values reported) | Yes, according to supplied volumes this appears to be a "gas only" report.                                        |

| Venting or Flaring Resulting from Downstream Activity             |               |
|-------------------------------------------------------------------|---------------|
| Was this vent or flare a result of downstream activity            | No            |
| Was notification of downstream activity received by this operator | Not answered. |
| Downstream OGRID that should have notified this operator          | Not answered. |
| Date notified of downstream activity requiring this vent or flare | Not answered. |
| Time notified of downstream activity requiring this vent or flare | Not answered. |

| Steps and Actions to Prevent Waste                                                                                               |                                                                          |
|----------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------|
| For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control. | True                                                                     |
| Please explain reason for why this event was beyond this operator's control                                                      | the CS was flooded with pipeline liquids and shut down to prevent damage |
| Steps taken to limit the duration and magnitude of vent or flare                                                                 | night operator evacuated the liquids and put the units back online       |
| Corrective actions taken to eliminate the cause and reoccurrence of vent or flare                                                | night operator evacuated the liquids and put the units back online       |
