RE: AMEND - Flaring Calculations or Specific Justification for the Volumes.

Scout Energy Management LLC would like to report a flaring event that started at 5:00pm Wednesday 03/17/2022 and ended at 4:59pm Thursday 03/18/2022. Calculations were not done as all volumes are true meter readings and are listed below total of 1677MCF/D per battery.

- Coates ABCD – shut in
- GL Erwin Battery – 449 MCF
- Mexico J & L Battery 9 – 4.6 MCF below the minimum
- State BB & L BZ NCT Battery – 102 MCF
- West Dollarhide Drinkard Unit Central Battery – 360 MCF
- CC Fristoe AAB Federal NCT 1&2 – 766 MCF

If there are any questions or concerns, please do not hesitate to contact our office.

Application for Exception to Statewide Rule 19.15.27.G.(a).

Re:               Statewide Rule Exception Request Documentation  
                  Scout Energy Management LLC. (760218)  
                  State BB and L BZ NCT Battery AIRS No. 350252276  
                  Lea County, New Mexico

Scout Energy Management LLC. is submitting a request to amend the flaring event that took place from 03/17 – 03/18/2022 by submitting the flaring ID and volumes flared per Battery. If this is not correct, please send me an email indicating how I should submit the amended flare events to resolve for the Gas Capture Plan.

- State – 102 MCFs

If there are any questions or concerns, please do not hesitate to contact our office.

Notice of Intent No. 9679  
Agency Interest No. 40552 - PRN20220001  
State BB and L BZ NCT Battery  
AIRS No. 350252276

Dear Glenda De Leon:

This letter acknowledges the receipt of your Air Quality Bureau Notice of Intent (NOI) form dated July 7, 2022 for an Oil & Gas facility in New Mexico. The notice was received by the Department on July 15, 2022.

Construction or modification may commence 4.3 mi NE of Jal in Lea County at latitude and longitude decimal degrees: 32.161, -103.137972, as represented in the notice. Any changes in the method of operation or addition of more units at the site may constitute a modification, which requires the Department's prior review for construction and/or operation. This NOI determination was based upon the information provided in the NOI forms. The sources, when constructed, will be subject to inspection.

In the event of any change in ownership or operator of this facility, the new owner or operator shall notify the Department in writing within thirty (30) days of that change. This facility will be subject to periodic emissions inventory reporting per 20.2.73.300 NMAC.

Based on the information provided in the submitted NOI, the Department has determined that the potential emission rate (PER) of any regulated air pollutant from this facility for which there is a National or New Mexico Ambient Air Quality Standard is less than ten (10) pounds per hour and twenty-five (25) tons per year. Therefore, in accordance with Title 20, Chapter 2, Part 72 of the New Mexico Administrative Code (20.2.72 NMAC), an air quality permit is not required, and construction may commence. Because the potential emission rate is greater than ten (10) tons per year, this facility is subject to 20.2.73 NMAC. The submitted forms will serve as the Notice of Intent in accordance with 20.2.73.200.A. NMAC.

In addition to 20.2.73 NMAC, this facility may be subject to additional state and federal regulations *such as* those found in Table 1. **The review of an NOI does not constitute a determination of regulatory applicability, regardless of statements of anticipated applicability made in the forms.** It is the permittee's responsibility to determine applicability and to comply with all applicable regulations.

**Table 1: Other Regulations**

| Citation     | Title                          |
|--------------|--------------------------------|
| 20.2.38 NMAC | Hydrocarbon Storage Facilities |
| 20.2.61 NMAC | Smoke and Visible Emissions    |
| 20.2.70 NMAC | Operating Permits              |

| 40 CFR 60 Subpart JJJJ  | Standards of Performance for Stationary Spark Ignition Internal Combustion Engines                                                                                                                                           |
| 40 CFR 60 Subpart Ka    | Standards of Performance for Storage Vessels for Petroleum Liquids for Which Construction, Reconstruction, or Modification Commenced After May 18, 1978, and Prior to July 23, 1984                                          |
| 40 CFR 60 Subpart Kb    | Standards of Performance for Volatile Organic Liquid Storage Vessels (Including Petroleum Liquid Storage Vessels) For Which Construction, Reconstruction, or Modification Commenced After July 23, 1984                      |
| 40 CFR 60 Subpart OOOO  | Standards of Performance for Crude Oil and Natural Gas Production, Transmissions and Distribution for which Construction, Modification or Reconstruction Commenced After August 23, 2011 and on or before September 18, 2015 |
| 40 CFR 60 Subpart OOOOa | Standards of Performance for Crude Oil and Natural Gas Facilities for which Construction, Modification or Reconstruction Commenced After September 18, 2015                                                                  |
| 40 CFR 63 Subpart HH    | National Emission Standards for Hazardous Air Pollutants from Oil and Natural Gas Production Facilities                                                                                                                      |
| 40 CFR 63 Subpart ZZZZ  | National Emissions Standards for Hazardous Air Pollutants (NESHAP) for Stationary Reciprocating Internal Combustion Engines                                                                                                  |

**Note:** Some New Mexico state regulations are not federally enforceable (e.g., 20.2.35 and 20.2.38 NMAC) and while these regulations can be used for determining the PER, they cannot be used in determining facility-wide potential to emit (PTE) unless included in a federally enforceable permit, such as a 20.2.72 NMAC permit. Applicability of 20.2.70 NMAC (Title V) and 20.2.74 NMAC (PSD) is based on PTE and it is the permittee's responsibility to determine applicability of these regulations. Note that this determination could result in additional permitting requirements under 20.2.70 NMAC and/or 20.2.74 NMAC and, thus, applicability of these regulations should be considered.

Before any asbestos demolition or renovation work, you shall determine whether 40 CFR 61 Subpart M, National Emission Standard for Asbestos applies.

If you have any questions, please call me in Santa Fe at 505-629-7305.

Sincerely,

Leslee Kimbrell

QUESTIONS

| Date(s) and Time(s)                            |            |
|------------------------------------------------|------------|
| Date vent or flare was discovered or commenced | 03/16/2022 |
| Time vent or flare was discovered or commenced | 03:15 PM   |
| Time vent or flare was terminated              | 04:12 PM   |
| Cumulative hours during this event             | 24         |

| Measured or Estimated Volume of Vented or Flared Natural Gas              |                                                                                                                                      |
|---------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Natural Gas Vented (Mcf) Details                                          | Not answered.                                                                                                                        |
| Natural Gas Flared (Mcf) Details                                          | Cause: Midstream Emergency Maintenance   Pipeline (Any)   Natural Gas Flared   Released: 102 Mcf   Recovered: 0 Mcf   Lost: 102 Mcf. |
| Other Released Details                                                    | Not answered.                                                                                                                        |
| Additional details for Measured or Estimated Volume(s). Please specify    | Not answered.                                                                                                                        |
| Is this a gas only submission (i.e. only significant Mcf values reported) | Yes, according to supplied volumes this appears to be a "gas only" report.                                                           |

| Venting or Flaring Resulting from Downstream Activity             |                                      |
|-------------------------------------------------------------------|--------------------------------------|
| Was this vent or flare a result of downstream activity            | Yes                                  |
| Was notification of downstream activity received by this operator | Yes                                  |
| Downstream OGRID that should have notified this operator          | [24650] TARGA MIDSTREAM SERVICES LLC |
| Date notified of downstream activity requiring this vent or flare | 03/16/2022                           |
| Time notified of downstream activity requiring this vent or flare | 03:15 PM                             |

| Steps and Actions to Prevent Waste                                                                                              |                                                                       |
|---------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------|
| For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control | True                                                                  |
| Please explain reason for why this event was beyond this operator's control                                                     | unexpected pipeline repair by Targa Midstream that rendered our sales |
| Steps taken to limit the duration and magnitude of vent or flare                                                                | 3rd party issue out of our control                                    |
| Corrective actions taken to eliminate the cause and reoccurrence of vent or flare                                               | 3rd party issue out of our control                                    |

|-------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <input checked="" type="checkbox"/> | I acknowledge that with this application I will be amending an existing incident file (assigned to this operator) for a vent or flare event, pursuant to 19.15.27 and 19.15.28 NMAC.                                                                                                                |
| <input checked="" type="checkbox"/> | I acknowledge that amending an incident file does not replace original submitted application(s) or information and understand that any C-129 forms submitted to the OCD will be logged and stored as public record.                                                                                 |
| <input checked="" type="checkbox"/> | I hereby certify the statements in this amending report are true and correct to the best of my knowledge and acknowledge that any false statement may be subject to civil and criminal penalties under the Oil and Gas Act.                                                                         |
| <input checked="" type="checkbox"/> | I acknowledge that the acceptance of any C-129 forms by the OCD does not relieve this operator of liability should their operations have failed to adequately investigate, report, and remediate contamination that poses a threat to groundwater, surface water, human health, or the environment. |
| <input checked="" type="checkbox"/> | I acknowledge that OCD acceptance of any C-129 forms does not relieve this operator of responsibility for compliance with any other applicable federal, state, or local laws and/or regulations.                                                                                                    |
