Please explain reason for why this event was beyond this operator's control	Gas was routed to flare when the facility lost third party purchase power. The loss of third-party purchase power caused the programming on the electric compressor to fail. This event was caused by the actions of a third party and was outside Targa's control.
Steps taken to limit the duration and magnitude of vent or flare	Gas was intermittently flared until third party purchase power was restored, the programming on the electric compressor was restored, and the compressor could be restarted.
Corrective actions taken to eliminate the cause and reoccurrence of vent or flare	There was no corrective action required by Targa; this event was caused by the actions of a third party and was outside Targa's control.
