Steps and Actions to Prevent Waste	
For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control.	True
Please explain reason for why this event was beyond this operator's control	The pressure safety valve malfunctioned and opened prior to reaching the designed relief pressure.
Steps taken to limit the duration and magnitude of vent or flare	The valve closed by itself after opening. An operator was dispatched immediately to inspect once the PSV opened and alarmed.
Corrective actions taken to eliminate the cause and reoccurrence of vent or flare	A replacement pressure safety valve will be ordered and installed.
