QUESTIONS

| Date(s) and Time(s)                            |            |
|------------------------------------------------|------------|
| Date vent or flare was discovered or commenced | 08/05/2024 |
| Time vent or flare was discovered or commenced | 04:00 AM   |
| Time vent or flare was terminated              | 06:00 AM   |
| Cumulative hours during this event             | 2          |

| Measured or Estimated Volume of Vented or Flared Natural Gas              |                                                                                                                       |
|---------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Natural Gas Vented (Mcf) Details                                          | Not answered.                                                                                                         |
| Natural Gas Flared (Mcf) Details                                          | Cause: High Line Pressure   Pipeline (Any)   Natural Gas Flared   Released: 57 Mcf   Recovered: 0 Mcf   Lost: 57 Mcf. |
| Other Released Details                                                    | Not answered.                                                                                                         |
| Additional details for Measured or Estimated Volume(s). Please specify    | Not answered.                                                                                                         |
| Is this a gas only submission (i.e. only significant Mcf values reported) | Yes, according to supplied volumes this appears to be a "gas only" report.                                            |

| Venting or Flaring Resulting from Downstream Activity             |                                 |
|-------------------------------------------------------------------|---------------------------------|
| Was this vent or flare a result of downstream activity            | Yes                             |
| Was notification of downstream activity received by this operator | No                              |
| Downstream OGRID that should have notified this operator          | [371058] ETC FIELD SERVICES LLC |
| Date notified of downstream activity requiring this vent or flare | Not answered.                   |
| Time notified of downstream activity requiring this vent or flare | Not answered.                   |

| Steps and Actions to Prevent Waste                                                                                               |                                                |
|----------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------|
| For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control. | True                                           |
| Please explain reason for why this event was beyond this operator's control                                                      | Unexpected increase in line pressure           |
| Steps taken to limit the duration and magnitude of vent or flare                                                                 | Working with purchaser until issue is resolved |
| Corrective actions taken to eliminate the cause and reoccurrence of vent or flare                                                | Working with purchaser until issue is resolved |
