<input checked="" type="checkbox"/>	I acknowledge that with this application I will be cancelling an existing incident file (assigned to this operator) for a release event, pursuant to 19.15.29 NMAC.
<input checked="" type="checkbox"/>	I acknowledge that cancelling an incident file will require this operator to (re)file submission(s) of all/any C-141 forms (pursuant to 19.15.29 NMAC), and to create a new incident for the cancelled release event if necessary.
<input checked="" type="checkbox"/>	I hereby certify the statements in this cancelling report are true and correct to the best of my knowledge and acknowledge that any false statement may be subject to civil and criminal penalties under the Oil and Gas Act.
<input checked="" type="checkbox"/>	I acknowledge that the acceptance of any C-141 forms by the OCD does not relieve this operator of liability should their operations have failed to adequately investigate, report, and remediate contamination that poses a threat to groundwater, surface water, human health, or the environment.
<input checked="" type="checkbox"/>	I acknowledge that OCD acceptance of any C-141 forms does not relieve this operator of responsibility for compliance with any other applicable federal, state, or local laws and/or regulations.

michael.buchanan	Cancellation is approved. Based on information provided in this application question, "Has this release reached or does it have a reasonable probability of reaching a watercourse =>Yes," it was uncertain if there were liquids involved. When Harvest Midstream was asked if there was a liquid spill, it was confirmed there were no liquids, It was only gas, no fluids, but it happened in a wash, so I thought that would make it a reportable release; therefore, this incident was reported as a C-129 as it was only natural gas.	3/24/2026
