**QUESTIONS**

| Date(s) and Time(s)                            |            |
|------------------------------------------------|------------|
| Date vent or flare was discovered or commenced | 05/29/2026 |
| Time vent or flare was discovered or commenced | 12:00 AM   |
| Time vent or flare was terminated              | 11:59 PM   |
| Cumulative hours during this event             | 24         |

| Measured or Estimated Volume of Vented or Flared Natural Gas              |                                                                                                                         |
|---------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| Natural Gas Vented (Mcf) Details                                          | Not answered.                                                                                                           |
| Natural Gas Flared (Mcf) Details                                          | Cause: High Line Pressure   Producing Well   Natural Gas Flared   Released: 144 Mcf   Recovered: 0 Mcf   Lost: 144 Mcf. |
| Other Released Details                                                    | Not answered.                                                                                                           |
| Additional details for Measured or Estimated Volume(s). Please specify    | Not answered.                                                                                                           |
| Is this a gas only submission (i.e. only significant Mcf values reported) | Yes, according to supplied volumes this appears to be a "gas only" report.                                              |

| Venting or Flaring Resulting from Downstream Activity             |                              |
|-------------------------------------------------------------------|------------------------------|
| Was this vent or flare a result of downstream activity            | Yes                          |
| Was notification of downstream activity received by this operator | No                           |
| Downstream OGRID that should have notified this operator          | [238258] TARGA RESOURCES INC |
| Date notified of downstream activity requiring this vent or flare | Not answered.                |
| Time notified of downstream activity requiring this vent or flare | Not answered.                |

| Steps and Actions to Prevent Waste                                                                                               |                                                                                               |
|----------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------|
| For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control. | True                                                                                          |
| Please explain reason for why this event was beyond this operator's control                                                      | High line pressure due to compression issues at gas plant.                                    |
| Steps taken to limit the duration and magnitude of vent or flare                                                                 | Standard PM. Worked with midstream to coordinate service time and minimize downtime.          |
| Corrective actions taken to eliminate the cause and reoccurrence of vent or flare                                                | No way to avoid periodic downtime for maintenance / repairs to address unforeseen conditions. |
