---

Brenda, Please get with Buck and let's report the water production each month. I thought we were already doing this.

Thanks Jeanie!  
Hope all is well with you?

I was meaning to ask about water reporting on the C-115's for Breitburn's Bravo Dome wells?

Buck and I talked about it and he said he could supply the C-115 person with numbers, but I haven't talked with him for a while.  
Been EXTREMELY busy now on the Engineering Bureau front and not enough time for District IV.

Take Care,  
Will

Will, hope all is well with you. I am doing well.  
Attached are logs that Shelly asked that I forward to you for a completion filing that she will be making tomorrow on the referenced well.  
Let me know if you need anything else.  
Thanks, Jeanie

Thanks Buck.

The TIFF images were not attached, or didn't come through.

Chris, can you email them directly to me?

I'm going to my grandson's wedding this afternoon, but will get sundries and C-104 filed tomorrow morning.

Thanks,  
Shelly

Shelly here are the logs for will.

We completed the Well and put in into production on 11-27-17

The first couple days it made 200,000 MCF a day it has been making 80,000MCF a day ever since

Thnaks,

Buck

Buck,

Here are the TIFF images of all the logs I have for the 2030 13-1-O.
