**OPERATOR NAME, LEASE NAME, WELL NUMBER, API NUMBER, QUARTER/QUARTER LOCATION OR UNIT LETTER, SECTION, TOWNSHIP, AND RANGE. All INFORMATION HAS BEEN WELDED OR PERMANENTLY STAMPED ON THE MARKER'S SURFACE.**

- ☒ The location has been leveled as nearly as possible to original ground contour and has been cleared of all junk, trash, flow lines and other production equipment.
- ☒ Anchors, dead men, tie downs and risers have been cut off at least two feet below ground level.
- ☒ If this is a one-well lease or last remaining well on lease, the battery and pit location(s) have been remediated in compliance with OCD rules and the terms of the Operator's pit permit and closure plan. All flow lines, production equipment and junk have been removed from lease and well location.
- ☒ All metal bolts and other materials have been removed. Portable bases have been removed. (Poured onsite concrete bases do not have to be removed.)
- ☒ All other environmental concerns have been addressed as per OCD rules.
- ☒ Pipelines and flow lines have been abandoned in accordance with 19.15.35.10 NMAC. All fluids have been removed from non-retrieved flow lines and pipelines.
- ☒ If this is a one-well lease or last remaining well on lease: all electrical service poles and lines have been removed from lease and well location, except for utility's distribution infrastructure.

When all work has been completed, return this form to the appropriate District office to schedule an inspection.

Good afternoon Kyle,

My apologies, I've had you guys on my list of retirements and then I switched positions so this one completely fell through the cracks. I'm still involved with my previous staking position so we will get this taken care of. I've created the retirement work order and will plan on trying to get out to the site tomorrow to mark the meter pole that is to be taken out. I'll be sure to let the line crew know that it has been several months since you've reached out to me on this, and we will see if we can get this one bumped up and taken care of by next week at the latest. I will have them let me know once the work order is completed so that I can notify you and save a trip.

Thank you,

**Tillman Stevens, Jr.**

Good afternoon Tillman,

Our guys went and looked at the well reflected in this email chain, looks like the pole and transformers are still there. Can you give me an idea of when this might be taken care of? Any chance you can go today? (just kidding)

No problem at all. I will get on this as soon as possible. The information you provided should be all I need to get this retired out. I will let you know if I have any other questions and please feel free to do the same.

Thank you,

Tillman Stevens

Good morning Tillman,

Thanks for your reply. Here is the picture of the pole and transformers that needs removed. The well in question is the Cady #001, located in Unit F, Section 19, T8S R34E. The Lat Long is 33.6082 -103.50768 . I've also attached a map showing its location relative to Milnesand, NM. I believe the meter number for this location was 16119, but I am not positive on that.

Thanks!

Kyle,

Your email has been passed along to me in regards to a service(s) that are needing removal. I can get this done for you if you could send me your pictures and possibly a location on the service.

Thank you,

Hi Antonio,

I've got a well on your system that we plugged a few months back, and the State has asked us to get RCEC to remove some transformers and a pole. Can you direct me to the correct person to email? I have a picture I need to send that shows what the State wants removed.

Thanks!
