Well Number: 01	Type of Well: OIL WELL	Allottee or Tribe Name:
Lease Number: NMNM94191	Unit or CA Name:	Unit or CA Number:
US Well Number: 3002530734	Well Status: Inactive	Operator: MATADOR PRODUCTION COMPANY

Notice of Intent

Type of Submission: Notice of Intent	Type of Action Temporary Abandonment
Date Sundry Submitted: 03/17/2021	Time Sundry Submitted: 08:36
Date proposed operation will begin: 03/18/2021	

**Procedure Description:** BLM Bond No: NMB09001079 Surety Bond No: RLB0015172 Matador respectfully requests to extend TA status for this well for one year as we evaluate its future conversion to a salt water disposal well. MIT Procedure: Provide at least 24 hour notice to BLM office. Perform MIT to 500 psi for 30 min, to be witnessed by BLM inspector. Submit pressure chart showing less than 10% pressure drop over length of test. A copy of the chart, along with the calibration record, will be attached with the Subsequent Report following completion of the MIT

Surface Disturbance

Is any additional surface disturbance proposed?: No

### Conditions of Approval for Temporary Abandonment of Wells

**Definition:** A temporarily abandoned well is a completion that is not capable of production in paying quantities, but which may have future value. Pursuant to 43 CFR 3162.3-4 (c), no well may be temporarily abandoned for more than 30 days without the prior approval of the authorized officer.

1. TA status will be effective for a period of up to one year from the date of sundry approval and can be renewed annually thereafter per IM NM-2016-017.
2. A bridge plug (CIBP) must be installed 50 to 100 feet above any open perforations or open hole. The CIBP must be capped with either a minimum of 25 sacks of cement if placed with tubing or 35 feet of cement if placed with a bailer. The top of the cement must be verified by tagging.
3. The wellbore must be filled with corrosion inhibited fluid and pressure tested to 500 psi. The casing shall be capable of holding this pressure for at least 30 minutes. If the well does not pass the casing integrity test, then the operator shall, within 30 days, submit a procedure to either repair the casing or to plug and abandon the well.
4. Contact the appropriate BLM office at least 24 hours prior to the scheduled Casing Integrity Test. For wells in Eddy County, 575-361-2822; Lea County 575-393-3612.
5. All downhole production/injection equipment (tubing, rods, etc.) shall be removed from the casing if it is not isolated by a packer.
6. A bradenhead test must be conducted. If the test indicates a problem, a remedial plan and time frame for remediation shall be submitted within ninety (90) days of the test.
7. Submit a subsequent Sundry Notice (Form 3160-5) with the following information:
  - a. A well bore diagram with all perforations, CIBP's, and tops of cement on CIBP's.
  - b. A description of the temporary abandonment procedure.
  - c. A clear copy or the original of the pressure test chart.
