## APPLICATION FOR EXCEPTION TO NO-FLARE RULE 19.15.18.12

(See Rule 19.15.18.12 NMAC and Rule 19.15.7.37 NMAC)

A. Applicant BTA OIL PRODUCERS, LLC,

whose address is 104 S. PECOS; MIDLAND, TX. 79701,

hereby requests an exception to Rule 19.15.18.12 for 90 days or until

JULY 16, Yr 2021, for the following described tank battery (or LACT):

Name of Lease PARDUE 8808 11 Name of Pool PURPLE SAGE WOLFCAMP (GAS)

Location of Battery: Unit Letter D\_Section 11 Township 23S Range 28E

Number of wells producing into battery: FOUR

B. Based upon oil production of 567.03 barrels per day, the estimated \* volume  
of gas to be flared is 155 MCF/D.

These wells flare zero most days. There is no price to use for the value on lost gas per day.

C. Name and location of nearest gas gathering facility: SENDERO CARLSBAD MIDSTREAM, LLC

D. Distance \_\_\_\_\_ Estimated cost of connection \_\_\_\_\_

E. This exception is requested for the following reasons: BTA OIL PRODUCERS, LLC Respectfully requests the ability to flare casinghead gas. This well is connected to a sales line and the casinghead gas produced from this well will be sold. We have maximized beneficial use of produced gas on this lease. In order for the well to continue to produce oil, the gas must be occasionally flared due to pipeline capacity constraints. The higher market price of oil compared to gas is our justifiable economic reason to continue producing oil when produced gas cannot be transported and/or sold.

### OPERATOR

I hereby certify that the rules and regulations of the Oil Conservation Division have been complied with and that the information given above is true and complete to the best of my knowledge and belief.
