Form C-144
Revised April 3, 2017

For temporary pits, below-grade tanks, and multi-well fluid management pits, submit to the appropriate NMOC District Office.
For permanent pits submit to the Santa Fe Environmental Bureau office and provide a copy to the appropriate NMOC District Office.

Pit, Below-Grade Tank, or
Proposed Alternative Method Permit or Closure Plan Application

Type of action: ☐ Below grade tank registration
☐ Permit of a pit or proposed alternative method
BGT 1 ☒ Closure of a pit, below-grade tank, or proposed alternative method
☐ Modification to an existing permit/or registration
☐ Closure plan only submitted for an existing permitted or non-permitted pit, below-grade tank, or proposed alternative method

Instructions: Please submit one application (Form C-144) per individual pit, below-grade tank or alternative request

Please be advised that approval of this request does not relieve the operator of liability should operations result in pollution of surface water, ground water or the environment. Nor does approval relieve the operator of its responsibility to comply with any other applicable governmental authority's rules, regulations or ordinances.

Kandis,

Based on our phone conversation on 10/1, this is sufficient to resolve this C-144LB registration submitted on 9/13 with application ID 48218. Note, this specific circumstance is applicable to this particular case and not a general policy of OCD for closure of BGTs.

I would also recommend including this email correspondence in the submittal to include in the historical record for this well site.

Chris,

This is the permit that we discussed Friday. I have filled out a C-144 BGT closure cover page and was planning on attached the below statement. Please let me know if any other attachments/photos are required to close out this BGT permit. If not, I will file this closure in e-permitting today.
