13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

On 8/16/2022 Fulfer oil ran Uic pressure test on this well and it failed . We request to Repair the casing leak with cement and then retest the well. procedure would be to move in well service unit and pull the injection string and packer out of the hole. Then we would run in the hole with a RBP and packer and isolate the hole then, squeeze the hole with cement, drill out the cement plug, test the casing ,if passes test,we will pull the RBP and run the injection string and packer fluid and retest the well with Chart if ok then we will notify the OCD of date and time to retest the well for UIC injection test.

**Condition of Approval: notify
 OCD Hobbs office 24 hours
 prior of running MIT Test & Chart**
