Procedure Description: BLM Bond NMB001079 Surety Bond No.: RLB0015172 Matador Production Company (“MPC”) respectfully requests an extension to Conditions of Approval (COA) General Requirements 1b “...Rig to be moved in within 90 days of notification that Spudder Rig has left the location.” to allow MPC to return to the referenced wells by after the 90 day timeframe as requires by (COA General Requirements 1b. Matador is currently drilling Silver 403H and 504H wells with one rig on the Gavilon, Pony Express and Silver properties and requests this extension to enable it to drill these wells at or around the same time and then complete them and bring them onto production at the same time. Matador expects this co-development of the acreage to be the most efficient way to develop this acreage, thereby maximizing reserves and preventing waste.

Saman,

The maximum amount of time to be able to cover all 4 wells would be 133 days past the 90 days.
