13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Avant would like to request to add a DV packer to this well as a precaution. It will be set at 2700'. We will pump the first stage, and if cement goes to surface, we will drop canceling cone and cancel the packer. If cement does not get to surface, we will inflate the packer and open the DV-tool and pump a second stage cement job. We propose to do this work while the well is currently being drilled.

Should you have any questions or concerns, please feel free to contact me at the email address or phone number below.
