13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Solaris would like to give notice of intent for a remedial workover on the above captioned well to repair a suspected tubing leak beginning on or around 05/19/2023. The plan is to rig up a pulling unit with hydraulic BOPs and pull the existing tubing and retrievable packer. A new tubing string will be ran along with the refurbished or new retrievable packer (pending condition of existing packer once it gets out of the hole). The plan is to set the replacement packer in the same spot. The replacement tubing string will be the same as currently installed with the XO in approximately the same position pending final tally. A new MIT will be called out and performed after the workover to ensure wellbore integrity.
