Report for the Month ending March 31, 2024 Pursuant to Workover C-103 for Linam AGI #1 and AGI #2

This is the 143rd monthly submittal of data as agreed between DCP and OCD relative to injection pressure, TAG temperature and casing annulus pressure and bottom hole data for Linam AGI #1. Since the data for both wells provide the best overall picture of the performance of the AGI system, the data for both wells are analyzed and presented herein even though that analysis is required only on a quarterly basis for AGI #2.

All flow this month was directed to AGI #2. Injection parameters being monitored for AGI #1 (currently static) were as follows (Figures 1, 2, 3, 4): Average Injection Rate: 0 scf/hr, Average TAG Injection Pressure: 1,144 psig, Average TAG Temperature: 67 °F, Average Annulus Pressure: 316 psig, Average Pressure Differential: 828 psig. Bottom hole (BH) sensors provided the average BH pressure for the entire period of 4,102 psig and BH temperature of 138 °F (Figures 8 and 9). The BH pressure quickly responded to the switchover to AGI #2. This is a very good indication of the continued resilience of the injection zone and the excess capacity available for TAG at current injection rates.

The recorded injection parameters for AGI #2 for the month were: Average Injection Rate 165,524 scf/hr (AGI #2 was the only well used this month), Average Injection Pressure: 1,375 psig, Average TAG Temperature: 101 °F, Average Annulus Pressure: 16 psig (minor leak detected in surface flange), Average Pressure Differential: 1,359 psig (Figures 5, 6, 7).

The Linam AGI #1 and AGI #2 wells are serving as a safe, effective, and environmentally friendly system to dispose of, and permanently sequester, Class II wastes consisting of H₂S and CO₂. The Linam AGI Facility permanently sequestered 5,088 Metric Tons of CO₂ for this month. The two wells provide the required redundancy to the plant that allows for operation with disposal to either or both wells. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
