**Subject:** [EXTERNAL] Florance C LS #12\_P&A

CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments.

Good afternoon Monica,

We're planning on moving Aztec rig 840 to the Florance C LS #12 (API # 30-045-20276) for P&A on Tuesday the 28<sup>th</sup>. As per our conversation earlier today, about your COA. I would like to set the CIBP @ 2080' +/- to avoid setting the plug across or below the perms, as the top of the PC is only 2' away.

Dean Mestas (210) 464-0677 will be the cementer on site, if you have any questions, please feel free to contact Dean or myself any time.

Thanks,

**Michel Crane**
