Please upload this again. I have received permission from a supervisor to accept the full 20# 5.5 casing.

Hi Leslie,

Sorry I am just now responding. I was out in the field on Friday afternoon. Let me check and see if a supervisor can okay using the full 20# casing. Issue is, that we can't pick from different plans to make a whole plan. Does that make sense? Any plan can be utilized but the entire plan has to be used. If it gets okay'd I will let you know to resubmit.

Thanks,

Hi Sarah-

BLM approved both versions of production casing. Full 20# production casing in June 2024 and a 23#/20# version of production string in July 2024. Since this well is already drilled and the 20# production string was approved at some point, anyway I can resubmit the C1-3N and we push this one through?

Thanks for all your help!

WARNING - This message is from an EXTERNAL SENDER - be CAUTIOUS, particularly with links and attachments.

To whom it may concern (c/o Leslie Reeves for OXY USA INC),

The OCD has rejected the submitted *Subsequent Report - Spud and Casing Report* (C-103N), for API number (30-#) 30-025-50472, for the following reasons:

- **Deviation from approved plan. A lower casing weight was used in production string than was approved. Approved plan showed approx. 11980' of 5.50" casing to be 23#. Please submit a C-103A for changes in drilling, casing and/or cementing programs.**

The rejected C-103N can be found in the OCD Online: Permitting - Action Status, under the Application ID: 373249.

Please review and make the required correction(s) prior to resubmitting.

If you have any questions why this application was rejected or believe it was rejected in error, please contact me prior to submitting an additional C-103N.

Thank you,

Sarah Clelland
