13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Admiral Permian would like to change the surface casing from a 14.75" hole and 10.75" casing to a 17.5" hole and 13.375" casing. Changing the surface casing will allow Admiral the capability of running a contingency string to isolate hazards such as large water flows due to the Capitan Reef or karsts, while allowing for the subsequent 7-5/8" intermediate to be set at the planned depth.

Please see attached for changes in surface casing and corresponding cementing specs.
