Re: Notification and Verification of a Standard Well Location for the Dauntless
7 Fed 402H (30-025-55412), Sec 7, T25S, R33E, Lea County, NM

Dear Mr. Lowe:

Included with this letter are the following documents demonstrating that the above-mentioned well will be drilled at a standard oil well location:

- C-102 Plat dated October 18, 2025, showing the permitted location of the Dauntless 7 Fed 402H, respectively.
- "Area of Common Ownership Plat" separately showing the spacing units for the well; and
- Certification of Ownership demonstrating the outlined area on the plat is comprised of fee leases, with uniform ownership.

19.15.16.15.C(7) NMAC provides that in area of common ownership the setback requirements only apply to the outer boundary of the area of uniform ownership, not the spacing unit within the area of uniform ownership. Since the area to the east towards which this well encroaches is within the documented "area of common ownership," this well is at a standard location and approval of a non-standard location for the well is not necessary.

Please place this Notification and Verification of a Standard Well Location in the well files for Dauntless 7 Fed 402H (30-025-55412).

Kayla McConnell

Certification of Ownership

I have reviewed the ownership of the oil and gas leasehold (USA NMNM-122619) covering Sections 6 and 7, Township 25 South, Range 33 East, Lea County, New Mexico, for purpose of identifying an "area of common ownership" as set forth in NMAC 19.15.16.15.B(8) and C(7). As of this date below, the ownership in the above-described leases and lands is identical ownership as defined in 19.15.12.7 B. NMAC.
