Pre Enforcement Notification

Dear Operator:

The following inspection indicates that the well, equipment, location or operational status of the well failed to meet standards of the New Mexico Oil Conservation Division as described in the detail section below. To comply with standards imposed by Rules and Regulations of the Division, corrective action must be taken immediately and the situation brought into compliance. The detail section indicates preliminary findings and/or probable nature of the violation. This determination is based on an inspection of your well or facility by an inspector employed by the Oil Conservation Division on the date indicated.

Please notify the Compliance Officer copied on this letter, in writing, of the date corrective actions are scheduled to be made so that arrangements can be made to reinspect the well and/or facility.

INSPECTION DETAIL SECTION

[30-025-38576] LINAM AGI #001

OGRID: 36785

K-30-18S-37E 1980 FSL 1980 FWL

Inspection Date	Type Inspection	Inspector	Inspection No.
2/26/2026	Routine Inspection	[BZL] Barbara Lydick	iBZL265738038
Violation	Title		Corrective Action Due
cBZL265830392 19.15.26	Injection Detection of Deficient Mechanical Integrity <i>(6 mnth MIT FAILED - Ran 1st chart press started dropping- bled well off into truck added 300 psi of diesel to try and work the gas out. Bled down started 2nd chart-started increasing press. Would not stabilize. 3rd chart started at 560# End press 490. Press loss was > 10% 4th chart starting press 580# End press 615# - did not stabilize 6 mnth MIT FAILED-WELL MUST BE SHUT IN ASAP)</i>		5/27/2026
cBZL265830393 19.15	Oil and Gas Mechanical Integrity Failure Recorded <i>(Auto Generated Violation - MIT Failure exits.)</i>		5/27/2026

In the event that a satisfactory response is not received to this letter of direction by the "Corrective Action Due By:" date shown above, further enforcement will occur. Such enforcement may include this office applying to the Division for an order summoning you to a hearing before a Division Examiner in Santa Fe to show cause why you should not be ordered to permanently plug and abandon this well.

Note: Information in Detail Section comes directly from field inspector data entries - not all blanks will contain data.
