RE: Administrative Order SWD-1333; Second Extension of Deadline

Oxy Doc Slawin Federal Well No. 1 (API 30-015-33180)

460 FSL, 640 FWL; Unit M, Sec 29, T17S, R31E, NMPM, Eddy County, New Mexico

Order Date: May 16, 2012

Injection into the Bone Spring and Wolfcamp formations; approved interval: 7762 feet to 9362 feet

Mr. Campanella:

Reference is made to your request on behalf of Judah Oil, LLC for an additional six (6) month extension of the November 16, 2014 deadline to commence injection into the above named well for reasons outlined in the attached correspondence.

It is the Division's understanding from your request that there have been no significant changes in the information provided in the application submitted for review and approval of this order. These changes include the completion of new wells within the Area of Review that penetrated the approved injection interval and any changes in ownership.

The Division finds that granting this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment.

All requirements of the above referenced administrative order and agreements in the application remain in full force and effect.

The deadline to commence injection is hereby extended until May 16, 2015.

Sincerely,

for JAMI BAILEY
Director
