RE: Administrative Order SWD-1391; Extension of Deadline

Gold Coast 26 Federal SWD Well No. 1 (API 30-025-41570)

2310 FSL, 2310 FWL; Unit K, Sec 26, T24S, R32E, NMPM, Lea County, New Mexico

Order Date: February 5, 2013

Injection into the Bell Canyon and Cherry formations; approved interval: 4900 feet to 7200 feet

Mr. Collins:

Reference is made to your request on behalf of COG Operating, LLC for a one year extension of the February 5, 2015 deadline to commence injection into the above named well for reasons outlined in the attached correspondence.

It is the Division's understanding from your request that there have been no significant changes in the information provided in the application submitted for review and approval of this order. These changes include the completion of new wells within the Area of Review that penetrated the approved injection interval and any changes in ownership.

The Division finds that granting this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment.

All requirements of the above referenced administrative order and agreements in the application remain in full force and effect.

The deadline to commence injection is hereby extended until February 5, 2016.

Sincerely,

for JAMI BAILEY
Director
