Mr. Jimmie Cooper  
Oasis Water Solutions  
P. O. Box 36  
Monument, NM 88265

**RE: Administrative Order SWD-1490; First Extension of Deadline**  
MTS Well No. 2 (API 30-025-28141)  
1980' FNL, 510' FWL; Unit E, Sec 10, T19S, R35E, NMPM, Lea County, New Mexico  
Order Date: June 30, 2014  
Injection into the Wolfcamp formation; approved interval: 10510 feet to 10736 feet

Mr. Cooper: )

Reference is made to your request, dated April 2016 (date stamped by Division on May 2, 2016), on behalf of Oasis Water Solutions, LLC for an extension of the June 30, 2016, deadline to commence injection into the above named well for reasons outlined in the attached correspondence.

It is the Division's understanding from your request that there have been no significant changes in the information provided in the application submitted for review and approval of this order. These changes include the completion of new wells within the Area of Review (AOR) that penetrated the approved injection interval and any changes in ownership for the affected persons noticed in the original application.

The Division finds that granting this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment.

All requirements of the above referenced administrative order and agreements in the application remain in full force and effect.

The deadline to commence injection for the existing order is hereby extended until June 30, 2017.

If the Operator cannot commence injection by this deadline, the Operator may petition for an additional extension by submitting a written request (prior to the expiration of this extension's deadline date) that includes a determination for any new wells in the AOR and a statement on the current status of ownership for affected persons noticed in the original application.

Sincerely,

DAVID R. CATANACH  
Director
