RE: Administrative Order SWD-1592; First Extension of Deadline to Commence Injection

Brininstool SWD Well No. 3C (API 30-025-42760)

Lot 4, Sec 19, T23S, R33E, NMPM, Lea County, New Mexico

Order Date: October 28, 2015

Injection into the Devonian formation; permitted interval: approximately 17000 feet to 18500 feet

Dear Mr. Stone:

Reference is made to your request on behalf of OWL SWD Operating, LLC (the "operator") to extend the deadline stipulated in order SWD-1592 based upon the approval date of October 28, 2015, to commence injection for the above referenced well for an additional one year for reasons outlined in the attached correspondence.

It is the Division's understanding from your request that there have been no significant changes in the information provided in the application submitted for review and approval of this order. These changes include the completion of new wells within the Area of Review that penetrated the approved injection interval and any changes in ownership.

The Division finds that granting this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment.

The deadline to commence injection for the existing order is hereby extended until October 28, 2018. All requirements of the above referenced administrative order and agreements in the application
