Dear Ms. Wrotenbery:

Enclosed please find the C-142 Application for New Well Status for the above four (4) mentioned wells. At this time we would appreciate your reviewing the enclosed applications for further processing.

We initially sent in sixteen (16) well applications and we received all but one back with OCD approval. We did not receive the Gold Star Federal #4, API No. 30-015-30309 (also attached) until 2 months after submitted, even though we sent it with the other fifteen (15) applications which were approved. We came to the conclusion that it was not approved by OCD until the completion report had been approved. Therefore we did not send out the next set of wells until their completions had been approved. This was an error on our part and it will not happen again. If you want to check your records you will see that all new C-142 Applications since this incidence have been filed well within the allotted time frame.

Thank you in advance for your help in this matter. If we can be of any further assistance, please feel free to call Robert C. Chase or myself at the above number.

Sincerely,

MACK ENERGY CORPORATION
