OTHER: ☐

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Tecton Energy has changed its drilling plans for this well. Originally the plan was to drill the well directionally out of the existing 9 5/8" casing. Revised plans are to drill a vertical well out of the existing 9 5/8" casing attempting to stay in the original wellbore. Well will be drilled to the original TD @ 7800' (Entrada) and cased with 5 1/2" casing from TD to surface. Drilling operations will commence on May 22, 2007 using United Drilling Inc's Rig #29.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines X, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
