STATEMENT OF THE CASE

Titus's applications in Case Nos. 21619 and 21620 were filed on December 8, 2020. Matador Production Company ("Matador") filed competing applications in Case Nos. 21748-21751 on February 25, 2021. These competing applications are set for a status conference on July 15, 2021, to determine a date for a contested hearing. In accordance with the anticipated prehearing order, Titus will file an amended prehearing statement prior to the contested hearing, summarizing the reasons that its proposals are superior to those of Matador.

In Case No. 21619, Titus seeks an order from the Division pooling all uncommitted interests in the Bone Spring formation (Salt Lake; Bone Spring [53560]) underlying a standard 560-acre, more or less, horizontal spacing and proration unit ("HSU") comprised of the E/2 of Section 22 and the NE/4 and N/2 SE/4 of Section 27, all within Township 20 South, Range 32 East, NMPM, in Lea County, New Mexico. Applicant proposes to drill the following wells: **Thai Curry Fed Com 223H** well, to be horizontally drilled from an approximate surface hole location 376' FNL and 593' FEL of Section 22, T20S-R32E, to an approximate bottom hole location 1330' FSL and 2310' FEL of Section 27, T20S-R32E; and **Thai Curry Fed Com 224H** well, to be

horizontally drilled from an approximate surface hole location 376' FNL and 533' FEL of Section 22, T20S-R32E, to an approximate bottom hole location 1330' FSL and 990' FEL of Section 27, T20S-R32E. The completed intervals and first and last take points for these wells will meet statewide setback requirements for horizontal wells. Also to be considered will be the cost of drilling and completing the wells and the allocation of the costs, the designation of Applicant as Operator of the wells, and a 200% charge for the risk involved in drilling and completing the wells. The wells and lands are located approximately twenty-seven miles northeast of Loving, New Mexico.

In Case No. 21620, Titus seeks an order from the Division pooling all uncommitted interests in the Wolfcamp formation (Salt Lake; Wolfcamp [53570]) underlying a standard 560-acre, more or less, horizontal spacing and proration unit ("HSU") comprised of the E/2 of Section 22 and the NE/4 and N/2 SE/4 of Section 27, all within Township 20 South, Range 32 East, NMPM, in Lea County, New Mexico. Applicant proposes to drill the following wells: **Thai Curry Fed Com 433H** well, to be horizontally drilled from an approximate surface hole location 30' FNL and 488' FEL of Section 22, T20S-R32E, to an approximate bottom hole location 10' FSL and 2310' FEL of Section 27, T20S-R32E; and **Thai Curry Fed Com 434H** well, to be horizontally drilled from an approximate surface hole location 30' FNL and 458' FEL of Section 22, T20S-R32E, to an approximate bottom hole location 10' FSL and 990' FEL of Section 27, T20S-R32E. The completed intervals and first and last take points for these wells will meet statewide setback requirements for horizontal wells. Also to be considered will be the cost of drilling and completing the wells and the allocation of the costs, the designation of Applicant as Operator of the wells, and a 200% charge for the risk involved in drilling and

completing the wells. The wells and lands are located approximately twenty-seven miles northeast of Loving, New Mexico.

In Case Nos. 21748-21751, Matador seeks to develop the same or overlapping lands.

PROCEDURAL MATTERS

These cases will be heard as a status conference on July 15, 2021, to set a date for contested hearing of the competing proposals. Assuming no opposition by the time of contested hearing, Applicant Titus will present these matters by affidavit.

Respectfully submitted,

MONTGOMERY & ANDREWS, P.A.
