**STATE OF NEW MEXICO  
ENERGY, MINERALS, AND NATURAL RESOURCES DEPARTMENT  
OIL CONSERVATION DIVISION**

**APPLICATION OF MATADOR  
PRODUCTION COMPANY FOR  
COMPULSORY POOLING,  
EDDY COUNTY, NEW MEXICO.**

**CASE NOS. 21991 & 21992**

**AFFIDAVIT OF CADE LaBOLT**

Cade LaBolt, of lawful age and being first duly sworn, declares as follows:

1. My name is Cade LaBolt. I work for MRC Energy Company, an affiliate of Matador Production Company ("Matador"), as a landman.
2. I graduated from Texas Tech University in May 2018 with a Bachelor's degree in Energy Commerce. After graduation, I worked as a contract landman running title in Lea County, New Mexico, among other areas. I started working for Matador in December 2018. At all times since I've joined Matador, I've worked as a landman, with specific responsibilities on BLM projects in Eddy and Lea County, New Mexico. As part of my employment with Matador, I am also required to complete at least 40 hours of continuing education about the oil and gas industry each year.
3. I am familiar with the applications filed by Matador in these cases, and I am familiar with the status of the lands in the subject area.
4. In these consolidated cases, Matador is seeking orders pooling all uncommitted interests in the following standard horizontal spacing units in the Bone Spring formation underlying the South half of Sections 31 and 32, Township 17 South, Range 31 East, NMPM, Eddy County, New Mexico:

EXHIBIT

- In **Case No. 21991**, a standard 313.43-acre, more or less, horizontal spacing unit comprised of the N/2 S/2 of Sections 31 and 32 to be dedicated to the **Cedar 3231 Fed Com #123H well** (API No. pending), which will be horizontally drilled from a surface location in the SE/4 SE/4 (Unit P) of Section 32 to bottom hole location in the NW/4 SW/4 (Unit L) of Section 31; and
- In **Case No. 21992**, a standard 313.53-acre, more or less, horizontal spacing unit comprised of the S/2 S/2 of Sections 31 and 32 to be dedicated to the **Cedar 3231 Fed Com #124H well** (API No. pending), which will be horizontally drilled from a surface location in the SE/4 SE/4 (Unit P) of Section 32 to bottom hole location in the SW/4 SW/4 (Unit M) of Section 31.

5. **Matador Exhibit C-1** contains the Form C-102 for each of the two proposed wells. Matador understands that the wells will be assigned to the Shugart; Bone Spring, North pool (Pool Code 56405). The land in the proposed spacing unit is comprised of state and federal lands.

6. The completed intervals for the proposed wells will remain within the standard offset required by the statewide rules set forth in 19.15.16.15 NMAC.

7. **Matador Exhibit C-2** identifies the tracts of land comprising the proposed horizontal spacing units. The proposed wellbores are marked in blue inside the proposed horizontal spacing units which are outlined in red.

8. **Matador Exhibit C-3** identifies for each well the working interest owners that Matador is seeking to pool along with their respective ownership interest in each of the proposed horizontal spacing units. **Matador Exhibit C-3** also identifies the record title owners that Matador seeks to pool in these cases.

9. In each case, Matador is also seeking to pool the overriding royalty interest owners identified on **Matador Exhibit C-4**.

10. There are no depth severances within the Bone Spring formation for this acreage.

11. **Matador Exhibit C-5** contains sample well proposal letters and AFE sent to working interest owners for each well. The costs reflected in the AFE are consistent with what other operators have incurred for drilling similar horizontal wells in the area.

12. In addition to sending well proposal letters and AFEs, I have called or emailed each of the working interest owners Matador seeks to pool for whom we have accurate contract information, in an attempt to reach an agreement with them. **Matador Exhibit C-6** contains a summary chronology of Matador's contacts and attempted contacts with the uncommitted working interest owners for whom we have good contact information in each case. In my opinion, Matador has undertaken good faith efforts to reach an agreement with the uncommitted mineral owners that Matador seeks to pool in these cases.

13. Matador has made an estimate of overhead and administrative costs for drilling and producing the proposed wells. It is \$8,000/month while drilling, and \$800/month while producing. These costs are consistent with what other operators are charging in this area for these types of wells. Matador respectfully requests that these administrative and overhead costs be incorporated into any orders entered by the Division in these consolidated cases.

14. If Matador reaches an agreement with any of the proposed pooled parties before the Division enters an order, I will let the Division know that Matador is no longer seeking to pool those parties.

15. I provided Matador's outside counsel, Jim Bruce, a list of names and addresses for the parties that Matador is seeking to pool. In compiling these notice lists, Matador conducted

a diligent search of all public records in the county where the proposed wells are located and of phone directories, including computer searches.

16. **Matador Exhibits C-1 through C-6** were either prepared by me or compiled under my direction and supervision.

FURTHER AFFIANT SAYETH NOT.
