CASE NO. 22127

APPLICATION

EOG Resources, Inc. (“EOG” or “Applicant”) (OGRID No. 7377), through its undersigned attorneys, hereby files this application with the Oil Conservation Division, pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted interests in the Bone Spring formation underlying a standard 240-acre, more or less, horizontal spacing unit comprised of the E/2 SW/4 of Section 3, and the E/2 W/2 of Section 10, Township 25 South, Range 34 East, NMPM, Lea County, New Mexico. In support of its application, EOG states:

1. Applicant is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
2. Applicant seeks to dedicate the above-referenced horizontal spacing unit to the proposed initial **Osprey 10 #302H well** (API No. 30-025-46451) to be drilled from a surface hole location in SE/4 SW/4 (Unit N) of said Section 10 to a bottom hole location in the NE/4 SW/4 (Unit K) of said Section 3.
3. The completed interval for the well will comply with statewide setbacks for oil wells.
4. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all the interest owners in the subject spacing unit.
5. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

**BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. B
Submitted by: EOG Resources, Inc.
Hearing Date: September 23, 2021
Case Nos. 22127-22129 & 22131-22132**

6. In order to permit Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this horizontal spacing unit should be pooled and Applicant should be designated the operator of the proposed horizontal well spacing unit.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on September 9, 2021, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the horizontal spacing unit;
- B. Approving the initial well in the horizontal spacing unit;
- C. Designating Applicant as the operator of this spacing unit and the horizontal well to be drilled thereon;
- D. Authorizing Applicant to recover its costs of drilling, equipping, and completing the well;
- E. Approving the actual operating charges and costs of supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- F. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the wells against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

APPLICATION

EOG Resources, Inc. (“EOG” or “Applicant”) (OGRID No. 7377), through its undersigned attorneys, hereby files this application with the Oil Conservation Division, pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted interests in the Bone Spring formation underlying a standard 240-acre, more or less, horizontal spacing unit comprised of the W/2 SE/4 of Section 3, and the W/2 E/2 of Section 10, Township 25 South, Range 34 East, NMPM, Lea County, New Mexico. In support of its application, EOG states:

1. Applicant is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
2. Applicant seeks to dedicate the above-referenced horizontal spacing unit to the proposed initial **Osprey 10 #303H well** (API No. 30-025-46452) to be drilled from a surface hole location in SW/4 SE/4 (Unit O) of said Section 10 to a bottom hole location in the NW/4 SE/4 (Unit J) of said Section 3.
3. The completed interval for the well will comply with statewide setbacks for oil wells.
4. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all the interest owners in the subject spacing unit.
5. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

6. In order to permit Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this horizontal spacing unit should be pooled and Applicant should be designated the operator of the proposed horizontal well spacing unit.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on September 9, 2021, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the horizontal spacing unit;
- B. Approving the initial well in the horizontal spacing unit;
- C. Designating Applicant as the operator of this spacing unit and the horizontal well to be drilled thereon;
- D. Authorizing Applicant to recover its costs of drilling, equipping, and completing the well;
- E. Approving the actual operating charges and costs of supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- F. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the wells against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

APPLICATIONS OF EOG RESOURCES, INC. FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.

CASE NOS. 22127-22129 & 22131-22132

AFFIDAVIT OF LACI STRETCHER

Laci Stretcher, of lawful age and being first duly sworn, declares as follows:

1. My name is Laci Stretcher, and I am employed by EOG Resources, Inc. (“EOG”) as a Landman.

2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters. My credentials in petroleum land matters have been accepted by the Division and made a matter of record.

3. I am familiar with the applications filed by EOG in these consolidated cases and the status of the lands in the subject area.

4. The uncommitted mineral owners involved in these cases have not indicated opposition to the presentation of these pooling applications by affidavit and I do not expect any opposition at the hearing.

5. Under these consolidated cases, EOG seeks orders from the Division pooling the Bone Spring and Wolfcamp formations underlying the E/2 SW/4 and the SE/4 of Section 3, and the E/2 W/2 and the E/2 of Section 10, Township 25 South, Range 34 East, NMPM, Lea County, New Mexico, as follows:

- Under Case 22127, EOG seeks to pool additional interest owners in the Bone Spring formation underlying a standard 240-acre horizontal spacing unit comprised of the E/2 SW/4 of Section 3 and the E/2 W/2 of

Exhibit No. C

Hearing Date: September 23, 2021

Case Nos. 22127-22129 & 22131-22132

Section 10, which is currently dedicated to the **Osprey 10 #302H** well (API No. 30-025-46451).

- Under **Case 22128**, EOG seeks to pool additional interest owners in the Bone Spring formation underlying a standard 240-acre horizontal spacing unit comprised of the W/2 SE/4 of Section 3 and the W/2 E/2 of Section 10, which is currently dedicated to the **Osprey 10 #303H** well (API No. 30-025-46452).
- Under **Case 22129**, EOG seeks to pool additional interest owners in the Bone Spring formation underlying a standard 240-acre horizontal spacing unit comprised of the E/2 SE/4 of Section 3 and the E/2 E/2 of Section 10, which is currently dedicated to the **Osprey 10 #304H** well (API No. 30-025-46454).
- Under **Case 22131**, EOG seeks to pool additional interest owners in the Wolfcamp formation underlying a standard 480-acre horizontal spacing unit comprised of the SE/4 of Section 3 and E/2 of Section 10, which is currently dedicated to the **Osprey 10 #706H** well (API No. 30-025-45525).
- Under **Case 22132**, EOG seeks to pool additional interest owners in the Wolfcamp formation underlying a standard 240-acre horizontal spacing unit comprised of the E/2 SW/4 of Section 3 and E/2 W/2 of Section 10, which is currently dedicated to the **Osprey 10 #707H** well (API No. 30-025-46453).

6. The Osprey 10 #706H well is situated to allow the inclusion of proximity tracts in a standard 480-acre Wolfcamp spacing unit, and the completed interval for the Osprey 10 #707H well dedicated to the E/2 SW/4 of Section 3 and E/2 W/2 of Section 10 is at a non-standard location approved by Division under Administrative Order NSL-8093.

7. **EOG Exhibit C-1** is a general location map showing the existing Bone Spring and Wolfcamp spacing units in blue. This acreage is all fee lands.

8. **EOG Exhibit C-2** contains the Form C-102s for the Bone Spring and Wolfcamp wells drilled and completed in the subject spacing units.

9. **EOG Exhibit C-3** contains a series of slides outlining the Bone Spring and Wolfcamp spacing units. This exhibit reflects that there are three common tracts of land across the subject acreage and therefore within each of the subject spacing units. EOG seeks to pool 20 unleased mineral owners and one working interest owner (Marathon) in these tracts for each spacing unit. Many of these unleased mineral owners arise out of estates that have not been properly probated. EOG recently discovered that these additional interest owners are not under a voluntary agreement consolidating the acreage for each spacing unit.

10. **EOG Exhibit C-4** is a spreadsheet showing the interest breakdown for the E/2 W/2 of Section 10 and the E/2 SW/4 of Section 3, involving the Osprey 10 #302H (Bone Spring) and Osprey 10 #707H (Wolfcamp) wells. **EOG Exhibit C-5** is a similar spreadsheet showing the interest breakdown for the E/2 of Section 10 and the SE/4 of Section 3, involving the remaining Bone Spring and Wolfcamp wells and associated spacing units. Each spreadsheet identifies the tract number, the tract percentage interest and the spacing unit percentage interests for each mineral owner. The twenty unleased mineral owners and one working interest owner (Marathon) that EOG seeks to pool are highlighted in yellow.

11. **EOG Exhibit C-6** contain the well proposal letters sent in June of 2021 to each of these mineral owners. A second letter was sent in August to the unleased mineral owners seeking to lease their interests. An example of the template used for this letter is marked as **EOG Exhibit C-7**.

12. **EOG Exhibit C-8** contains the AFEs for the existing wells in each spacing unit that reflect the actual cost to drill and complete the wells. These costs are consistent with what EOG and other operators incur for drilling and completing similar wells in this area.

13. **EOG Exhibit C-9** contains a chronology of the contacts with these mineral owners reflecting that EOG has reached out to each of these parties and made a good faith effort to obtain voluntary joinder in the existing spacing units.

14. EOG requests that the overhead and administrative costs for drilling and producing the proposed wells be set at \$850 per month while drilling and \$8,500 per month while producing. These costs are consistent with what other operators are charging in this area for similar wells.

15. I provided the law firm of Holland & Hart LLP with the names and addresses for these mineral owners and instructed that they be provided notice of the hearing in these matters.

16. **EOG Exhibits C-1 through C-9** were either prepared by me or compiled under my direction and supervision.

FURTHER AFFIANT SAYETH NOT.

EOG is proposing to drill these wells under the modified terms of the 1989 AAPL Operating Agreement with a contract area limited to the Bone Spring and Wolfcamp Formations and covering an area TBD in Sections 3 and 10, 25S-34E, Lea County, New Mexico. A form of said Operating Agreement will be forwarded to you following your receipt of this proposal.

Within 30 days of the date of this letter, if we do not reach a mutual agreement, EOG will apply to the New Mexico Oil Conservation Division for compulsory pooling of your interest for the proposed wells.

Please indicate your election to participate in the drilling and completion of the proposed wells in the space provided below. Please sign and return one copy of this letter, a signed copy of the enclosed AFE, and your geologic well requirements.

EOG appreciates your cooperation in the development of this acreage and thank you in advance for your early consideration of this proposal. If you have any questions, please call the undersigned at 432-227-3769 or by sending email to laci_stretcher@eogresources.com.

Sincerely,

June 21, 2021

Unleased Mineral Owner

CERTIFIED MAIL, RETURN RECEIPT REQUESTED

RE: **Osprey Prospect Unleased Interest**
S/2 of Section 3 and all of Section 10-25S-34E
Lea County, NM

Dear [REDACTED],

EOG Resources (“EOG”) mailed a packet of information to you several weeks ago containing well proposals, well cost information (AFEs), and balloting materials. We have not heard back from you, and we would like to provide some additional information for your consideration.

Our research of your interest indicates that you are an unleased mineral owner in parts of our Osprey prospect in the S/2 of Sec. 3 and all of Sec. 10-25S-34E, in Lea County, New Mexico.

You have several options moving forward, and feel free to reach out to me with any questions.

Title:

- Mineral ownership is currently in the name of _____. We will need some help from you on confirming the title chain.
- Ownership:
 - _____ unleased mineral interest in the prospect
 - Osprey wells cover the S/2 of Sec. 3 and all of Sec. 10-25S-34E, Lea County, NM

Your Options:

- Participate in the wells as a partner. You will pay the costs of the wells and receive any revenue associated with the production from the wells; or
- Not Participate (Non-Consent) or Do Nothing. You can choose not to pay the costs of the wells, and once they pay out three times (cost of wells plus 200%), you will be responsible for any ongoing costs and entitled to any revenue; or
- Lease or Sell Your Minerals (*all offers subject to title verification)

BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. C7
Submitted by: EOG Resources, Inc.
Hearing Date: September 23, 2021
Case Nos. 22127-22129 & 22131-22132

- EOG will offer \$ _____ to purchase the minerals (no more mineral interest); or
- EOG will offer \$ _____ to lease your minerals using the EOG Oil and Gas Lease form backdated to before first production on the wells
- This may seem like a low offer, but the mineral interest is very small with potential curative expenses associated with it.
- You can lease or sell to a 3rd party as well.
- EOG plans on pooling all unleased mineral owners with the New Mexico Oil Conservation Division in September. You will have 30 days once the pooling order arrives to make your final decision.

EOG appreciates your cooperation in the development of this acreage and your consideration of this proposal. If you have any questions, please call the undersigned at 432-227-3769 or by sending email to laci_stretcher@eogresources.com.

Sincerely,

Hearing Date: September 23, 2021
Case Nos. 22127-22129 & 22131-22132

STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION

APPLICATIONS OF EOG RESOURCES, INC. FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.

CASE NOS. 22127-22129 & 22131-22132

AFFIDAVIT OF TERRA GEORGE

Terra George, of lawful age and being first duly sworn, declares as follows:

1. My name is Terra George, and I am employed by EOG Resources, Inc. (“EOG”) as a petroleum geologist. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology. I am familiar with the applications filed by EOG in these consolidated cases and have conducted a geologic study of the lands in the subject area.

2. The target interval for the wells involved in Cases 22127-22129 is the First Bone Spring sands of the Bone Spring formation. The target interval for the wells involved in Cases 22131-22132 is the upper sands of the Wolfcamp formation.

3. **EOG Exhibit D-1** is a subsea structure map I prepared off the top of the First Bone Spring sands. **EOG Exhibit D-2** is a subsea structure map that I prepared off the top of the Upper Wolfcamp. In both exhibits, Sections 3 and 10 contain a red box outlining the acreage involved in these consolidated cases.

4. Both structure maps show the formations dipping to the East-South East. The structure in both formations appears consistent across the subject area and I do not observe any faulting, pinch outs, or other geologic impediments to developing this acreage with horizontal wells.

Exhibit No. D
Submitted by: EOG Resources, Inc.
Hearing Date: September 23, 2021
Case Nos. 22127-22129 & 22131-22132

5. EOG Exhibits D-1 and D-2 also shows the location of five wells used to construct a cross-section from A to A' for the Bone Spring and Wolfcamp formations. I chose these well logs because they are widely accepted, industry-standard wireline logs used to determine geologic properties of formations. In my opinion, these well logs are representative of the geology for the Bone Spring and the Wolfcamp formations in the subject area.

6. **EOG Exhibit D-3** is a stratigraphic cross section I prepared for the Bone Spring formation using the logs from the five wells shown on Exhibits D-1 and D-2. **EOG Exhibit D-4** is a stratigraphic cross section I prepared using these same logs for the Wolfcamp formation.

7. Each well on the cross-section contains gamma ray, resistivity, and porosity logs. The landing zones for the wells completed in the First Bone Spring sands and the Upper Wolfcamp are labeled and depicted with a blue arrow.

8. Both cross-sections demonstrate the targeted intervals within the Bone Spring and Wolfcamp formation are continuous across the spacing units.

9. Based on my geologic study, the Bone Spring and Wolfcamp formations underlying the subject area are suitable for development by horizontal wells and the acreage comprising the horizontal spacing units is productive and will contribute proportionately to the production from the wells.

10. In my opinion, the stand-up orientation of the wells is the preferred orientation for horizontal well development in this area and appropriate to efficiently and effectively develop the subject acreage.

11. In my opinion, the granting of EOG’s applications in these consolidated cases is in the best interest of conservation, the prevention of waste, and protection of correlative rights.

12. **EOG Exhibits D-1** through **D-4** were either prepared by me or compiled under my direction and supervision.

FURTHER AFFIANT SAYETH NOT.

Dear Sir or Madam:

This letter is to advise you that EOG Resources, Inc. has filed the enclosed application with the New Mexico Oil Conservation Division.

During the COVID-19 Public Health Emergency, state buildings are closed to the public and hearings will be conducted remotely. The hearing will be conducted on September 23, 2021 beginning at 8:15 a.m. To participate in the electronic hearing, see the instructions posted on the OCD Hearings website: <https://www.emnrd.nm.gov/ocd/hearing-info/>.

You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date. Parties appearing in cases are required by Division Rule 19.15.4.13.B to file a Pre-hearing Statement four business days in advance of a scheduled hearing. This statement must be filed at the Division's Santa Fe office at the above specified address and should include: the names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this matter, please contact Laci Stretcher, at (432) 247-6362, or Laci_Stretcher@eogresources.com.

Sincerely,

Case No. 22132: Application of EOG Resources, Inc. for compulsory pooling, Lea County, New Mexico. Applicant in the above-styled cause seeks an order pooling all uncommitted interest owners in the Wolfcamp formation underlying a standard 240-acre, more or less, horizontal spacing unit comprised of the E/2 SW/4 of Section 3 and E/2 W/2 of Section 10, Township 25 South, Range 34 East, NMPM, Lea County, New Mexico. Applicant seeks to dedicate the above-referenced horizontal spacing unit to the proposed initial **Osprey 10 #707H well** (API No. 30-025-46453) to be drilled from a surface hole location in SE/4 SW/4 (Unit N) of said Section 10 to a bottom hole location in the NE/4 SW/4 (Unit K) of said Section 3. The completed interval for well is at a non-standard location that has been approved by Division Administrative Order NSL-8093. Also, to be considered will be the cost of drilling and completing the well, the allocation of the cost thereof, the actual operating costs and charges for supervision, the designation of applicant as operator, and the imposition of 200% charge for risk involved in drilling and completing the well. Said area is located approximately 16 miles west of Jal, New Mexico. #36836
