APPLICATION OF CIMAREX ENERGY CO. OF COLORADO FOR A HORIZONTAL SPACING UNIT AND COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO

Case No. 22145

APPLICATION

Cimarex Energy Co. of Colorado ("Cimarex"), OGRID No. 162683, through its undersigned attorneys, hereby files this Application with the Oil Conservation Division ("Division") pursuant to the provisions of NMSA 1978, Section 70-2-17, for an order (1) creating a standard 320-acre, more or less, spacing and proration unit comprised of the N/2 S/2 of Sections 16 and 17, Township 19 South, Range 29 East, NMPM, Eddy County, New Mexico, and (2) pooling all uncommitted mineral interests in the Bone Spring formation underlying said unit.

In support of its Application, Cimarex states the following:

1. Cimarex is a working interest owner in the proposed horizontal spacing and proration unit ("HSU") and has a right to drill a well thereon.

2. Cimarex proposes and dedicates to the HSU the **Parkway 16-17 State Com 3H Well** as an initial well.

3. Cimarex proposes the **Parkway 16-17 State Com 3H Well,** an oil well, to be horizontally drilled from a surface location in NW/4 SW/4 (Unit L) of Section 15 to a bottom hole location in the NW/4 SW/4 (Unit L) of Section 17.

4. The proposed well is orthodox in its location, and the take points and completed interval comply with setback requirements under the Statewide rules.

5. Cimarex has sought in good faith, but has been unable to obtain, voluntary agreement from all interest owners to participate in the drilling of the well or in the commitment of their interests to the well for its development within the proposed HSU.

6. The pooling of all interests in the Bone Spring formation within the proposed HSU, and creation of the spacing unit, will avoid the drilling of unnecessary wells, prevent waste and protect correlative rights.

7. In order to provide for its just and fair share of the oil and gas underlying the subject lands, Cimarex requests that all uncommitted interests in this HSU be pooled and that Cimarex be designated the operator of the proposed horizontal well and HSU.

WHEREFORE, Cimarex requests that this Application be set for hearing on September 9, 2021, before an Examiner of the Oil Conservation Division, and after notice and hearing as required by law, the Division enter an order:

A. Approving the creation of a standard 320-acre, more or less, spacing and proration unit comprised of the N/2 S/2 of Sections 16 and 17, Township 19 South, Range 29 East, NMPM, Eddy County, New Mexico;

B. Pooling all uncommitted mineral interests in the Bone Spring formation underlying the proposed HSU.

C. Approving the **Parkway 16-17 State Com 3H Well** as the well for the HSU.

D. Designating Cimarex as operator of this HSU and the horizontal well to be drilled thereon;

E. Authorizing Cimarex to recover its costs of drilling, equipping, and completing the well;

F. Approving actual operating charges and costs of supervision, to the maximum extent allowable, while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

G. Setting a 200% charge for the risk assumed by Cimarex in drilling and completing the well in the event a working interest owner elects not to participate in the well.

Respectfully submitted,

APPLICATIONS OF CIMAREX ENERGY CO. OF COLORADO FOR A HORIZONTAL SPACING UNIT AND COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO

Case No. 22145

AFFIDAVIT OF RILEY MORRIS

STATE OF TEXAS)
) ss.
COUNTY OF MIDLAND)

I, being duly sworn on oath, state the following:

1. I am over the age of eighteen years and have the capacity to execute this Affidavit, which is based on my personal knowledge.

2. I am employed as a Landman with Cimarex Energy Co. of Colorado ("Cimarex"), and I am familiar with the subject application and the lands involved.

3. I graduated in 2010 from Texas Tech University with a bachelor's degree in Business Administration with an emphasis on Energy Commerce. I have worked at Cimarex for approximately 3 years, and I have been working in New Mexico for 3 years. My credentials as an expert witness in petroleum land matters have been accepted by the New Mexico Oil Conservation Division ("Division") and made a matter of record.

4. This affidavit is submitted in connection with the filing by Cimarex of the above-referenced spacing and compulsory pooling application pursuant to 19.15.4.12.A(1).

5. Cimarex seeks an order pooling all uncommitted mineral interest in the Bone Spring formation (Parkway; Bone Spring, West; Pool Code: 98199) underlying a standard 320-acre,

EXHIBIT
A

more or less, horizontal spacing and proration unit comprised of the N/2 S/2 of Sections 16 and 17, Township 19 South, Range 29 East, NMPM, Eddy County, New Mexico.

6. Under Case No. 22145, Cimarex seeks to dedicate to the unit the **Parkway 16-17 State Com 3H Well** (API 30-015-pending) as an initial well, horizontally drilled from a surface location in NW/4 SW/4 (Unit L) of Section 15 to a bottom hole location in the NW/4 SW/4 (Unit L) of Section 17; approximate TVD of 8,960; approximate TMD of 19,660'; FTP in Section 16: approx. 2,016' FSL, 100' FEL; LTP in Section 17: approx. 2,016' FSL, 100' FWL.

7. The proposed C-102 for each well is attached as **Exhibit A-1**.

8. A general location plat and a plat outlining the units being pooled is attached hereto as **Exhibit A-2**, which show the location of the proposed well within the unit. The location of the well is orthodox, and it meets the Division's offset requirements for horizontal well under statewide rules.

9. The parties being pooled, the nature of their interests, and their last known addresses are listed on **Exhibit A-2** attached hereto. **Exhibit A-2** includes information regarding working interest owners and overriding royalty interest owner.

10. There are no depth severances in the Bone Spring formation in the acreage being pooled.

11. I provided the law firm of Abadie & Schill P.C. a list of names and addresses for the uncommitted ORRI owners shown on **Exhibit A-2**. In compiling these addresses, I conducted a diligent search of the public records in Eddy County, New Mexico, where the wells are located, and of phone directories and did computer searches to locate the contact information for parties entitled to notification. There were two overriding interest owner notice letters returned undeliverable: Barbara Ann Woods and RP Properties, LLC. Five of the mailings to ORRI owners are still listed as in-transit, therefore the locations have not been confirmed for: Lowe Royalty

Partners, Michelle Morran, Motowi LLC, Noelle L. Lamb (processed in Canada), and PBEX, LLC. Cimarex published notice in the Carlsbad Current Argus, a newspaper of general circulation in Eddy County, New Mexico, to account for any unlocatable parties and cover any contingencies regarding notice.

12. Cimarex has made a good faith effort to negotiate with the interest owners, but has been unable to obtain, voluntary agreement from all interest owners to participate in the drilling of the well or in the commitment of their interests to the well for its development within the proposed horizontal spacing unit. **Exhibit A-4** provides a chronology and history of contacts with the owners.

13. The interest owners being pooled have been contacted regarding the proposed wells but have failed or refused to voluntarily commit their interest in the wells. However, Cimarex has been in ongoing discussions with some of the interest owners to voluntarily enter into a Joint Operating Agreement. If a mutually agreeable Joint Operating Agreement is reached between Cimarex and another interest owner or owners, Cimarex requests that the voluntary agreement become operative and supersede the Division's order for said parties, except to the extent the Division deems it necessary to maintain spacing criteria for the purpose of conservation, the prevention of waste, and protection of correlative rights.

14. **Exhibit A-3** is a sample proposal letter and the AFE for the proposed well. The estimated cost of the wells set forth in the AFEs is fair, reasonable, and comparable to the costs of other wells of similar depths and lengths drilled in this area of New Mexico.

15. Cimarex requests overhead and administrative rates of $8,000/month for drilling each well and $800/month for producing each well, as listed in the JOA sent to the owners. These rates are fair and comparable to the rates charged by other operators for wells of this type in this area of

southeastern New Mexico. Cimarex requests that these rates be adjusted periodically as provided in the COPAS Accounting Procedure.

16. Cimarex requests the maximum cost, plus 200% risk charge be assessed against non-consenting working interest owners to the extent needed.

17. Cimarex requests that it be designated operator of the unit and well.

18. The Exhibits to this Affidavit were prepared by me or compiled from Cimarex's company business records under my direct supervision.

19. The granting of this Application is in the best interests of conservation, the prevention of waste, and the protection of correlative rights, and will avoid the drilling of unnecessary wells.

20. The foregoing is correct and complete to the best of my knowledge and belief.

APPLICATIONS OF CIMAREX ENERGY CO. OF COLORADO FOR A HORIZONTAL SPACING UNIT AND COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO

Case Nos. 22145 & 22146

AFFIDAVIT OF LUCAS HAAS

I, LUCAS HAAS, being duly sworn on oath, state the following:

1. I am over the age of 18, and I have personal knowledge of the matters stated herein.

2. I am employed as a petroleum geologist for Cimarex Energy Co. of Colorado ("Cimarex"), and I am familiar with the subject applications and the geology involved.

3. This affidavit is submitted in connection with the filing by Cimarex of the above-referenced compulsory pooling applications pursuant to 19.15.4.12.A(1) NMAC.

4. I have testified previously by affidavit before the Oil Conservation Division ("Division") as an expert petroleum geologist; my credentials have been made a matter of record, and I have been qualified as an expert by the Division.

   a. I have a Bachelor of Science Degree in Geology from Binghamton University, and a Master of Science Degree in Geology from the University of Colorado.

   b. I have worked on New Mexico Oil and Gas matters since January 2019.

5. **Exhibit B-1** is a structure map of the base of the 3rd Bone Spring Sandstone formation with contour interval of 100'. The unit being pooled is outlined by red rectangle.

EXHIBIT
B

The structure map shows that there is a regional down-dip to the southeast. I do not observe any faulting, pinchouts, or other geologic impediments to developing this targeted interval.

6. **Exhibit B-2** is a stratigraphic cross-section flattened on the base of the 3rd Bone Spring Sandstone formation. Each well in the cross-section contains a gamma ray, resistivity, photoelectric, and porosity log. The cross-section demonstrates continuity and slight thinning to the west of the target zone. The well logs on the cross-section give a representative sample of the 3rd Bone Spring Sandstone. The landing zone is highlighted by light, green shading. The well logs are oriented west to east (left to right), and are along the proposed wellbore trajectory.

7. Additional exhibits for the benefit of the Division's review include **Exhibit B-3**, a gross isopach of the 3rd Bone Spring Sandstone, as well as **Exhibits B-4** and **B-5**. **Exhibit B-5** is a gun barrel representation of the unit.

8. I conclude from the attached exhibits that:

   a. The horizontal spacing and proration unit is justified from a geologic standpoint.

   b. There are no structural impediments or faulting that will interfere with horizontal development.

   c. Each quarter-quarter section in the unit will contribute more or less equally to production.

9. The preferred well orientation in this area is EAST-WEST so that the wells run sub-perpendicular to the inferred orientation of the maximum horizontal stress.

10. The Exhibits to this Affidavit were prepared by me or compiled from Cimarex's company business records under my direct supervision.

11. The granting of this Application is in the interests of conservation, the prevention of waste and the drilling of unnecessary wells, and the protection of correlative rights.

12. The foregoing is correct and complete to the best of my knowledge and belief.

ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION

APPLICATION OF CIMAREX ENERGY CO. OF COLORADO FOR A HORIZONTAL SPACING UNIT AND COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO

Case No. 22146

APPLICATION

Cimarex Energy Co. of Colorado ("Cimarex"), OGRID No. 162683, through its undersigned attorneys, hereby files this Application with the Oil Conservation Division ("Division") pursuant to the provisions of NMSA 1978, Section 70-2-17, for an order (1) creating a standard 160-acre, more or less, spacing and proration unit comprised of the S/2 S/2 of Section 16, Township 19 South, Range 29 East, NMPM, Eddy County, New Mexico, and (2) pooling all uncommitted mineral interests in the Bone Spring formation underlying said unit.

In support of its Application, Cimarex states the following:

1. Cimarex is a working interest owner in the proposed horizontal spacing and proration unit ("HSU") and has a right to drill a well thereon.

2. Cimarex proposes and dedicates to the HSU the **Parkway 16 State Com 4H Well** as an initial well.

3. Cimarex proposes the **Parkway 16 State Com 4H Well,** an oil well, to be horizontally drilled from a surface location in NW/4 SW/4 (Unit L) of Section 15 to a bottom hole location in the SW/4 SW/4 (Unit M) of Section 16.

4. The proposed well is orthodox in its location, and the take points and completed interval comply with setback requirements under the Statewide Rules.

5. Cimarex has sought in good faith, but has been unable to obtain, voluntary agreement from all interest owners to participate in the drilling of the well or in the commitment of their interests to the well for its development within the proposed HSU.

6. The pooling of all interests in the Bone Spring formation within the proposed HSU, and creation of the spacing unit, will avoid the drilling of unnecessary wells, prevent waste and protect correlative rights.

7. In order to provide for its just and fair share of the oil and gas underlying the subject lands, Cimarex requests that all uncommitted interests in this HSU be pooled and that Cimarex be designated the operator of the proposed horizontal well and HSU.

WHEREFORE, Cimarex requests that this Application be set for hearing on September 9, 2021, before an Examiner of the Oil Conservation Division, and after notice and hearing as required by law, the Division enter an order:

A. Approving the creation of a standard 160-acre, more or less, spacing and proration unit comprised of the S/2 S/2 of Section 16, Township 19 South, Range 29 East, NMPM, Eddy County, New Mexico;

B. Pooling all uncommitted mineral interests in the Bone Spring formation underlying the proposed HSU.

C. Approving the **Parkway 16 State Com 4H Well** as the well for the HSU.

D. Designating Cimarex as operator of this HSU and the horizontal well to be drilled thereon;

E. Authorizing Cimarex to recover its costs of drilling, equipping, and completing the well;

F. Approving actual operating charges and costs of supervision, to the maximum extent allowable, while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

G. Setting a 200% charge for the risk assumed by Cimarex in drilling and completing the well in the event a working interest owner elects not to participate in the well.

Respectfully submitted,

APPLICATIONS OF CIMAREX ENERGY CO. OF COLORADO FOR A HORIZONTAL SPACING UNIT AND COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO

Case No. 22146

AFFIDAVIT OF RILEY MORRIS

STATE OF TEXAS)
) ss.
COUNTY OF MIDLAND)

I, being duly sworn on oath, state the following:

1. I am over the age of eighteen years and have the capacity to execute this Affidavit, which is based on my personal knowledge.

2. I am employed as a Landman with Cimarex Energy Co. of Colorado ("Cimarex"), and I am familiar with the subject application and the lands involved.

3. I graduated in 2010 from Texas Tech University with a bachelor's degree in Business Administration with an emphasis on Energy Commerce. I have worked at Cimarex for approximately 3 years, and I have been working in New Mexico for 3 years. My credentials as a petroleum landman have been accepted by the New Mexico Oil Conservation Division ("Division") and made a matter of record.

4. This affidavit is submitted in connection with the filing by Cimarex of the above-referenced spacing and compulsory pooling application pursuant to 19.15.4.12.A(1).

5. Cimarex seeks an order pooling all uncommitted mineral interest in the Bone Spring formation (Parkway; Bone Spring, West; Pool Code: 98199) underlying a standard 160-acre,

EXHIBIT
A

more or less, horizontal spacing and proration unit comprised of the S/2 S/2 of Section 16, Township 19 South, Range 29 East, NMPM, Eddy County, New Mexico.

6. Under Case No. 22146, Cimarex seeks to dedicate to the unit the **Parkway 16 State Com 4H Well** (API 30-015-pending) as an initial well, horizontally drilled from a surface location in NW/4 SW/4 (Unit L) of Section 15 to a bottom hole location in the SW/4 SW/4 (Unit M) of Section 16; approximate TVD of 8,960'; approximate TMD of 14,380'; FTP in Section 16: approx. 802' FSL, 100' FEL; LTP in Section 16: approx. 802' FSL, 100' FWL.

7. The proposed C-102 for each well is attached as **Exhibit A-1**.

8. A general location plat and a plat outlining the units being pooled is attached hereto as **Exhibit A-2**, which show the location of the proposed well within the unit. The location of the well is orthodox, and it meets the Division's offset requirements for horizontal wells under statewide rules.

9. The parties being pooled, the nature of their interests, and their last known addresses are listed on **Exhibit A-2** attached hereto. **Exhibit A-2** includes information regarding working interest owners and overriding royalty interest owner.

10. There are no depth severances in the Bone Spring formation in the acreage being pooled.

11. I provided the law firm of Abadie & Schill P.C. a list of names and addresses for the uncommitted ORRI owners shown on **Exhibit A-2**. In compiling these addresses, I conducted a diligent search of the public records in Eddy County, New Mexico, where the wells are located, and of phone directories and did computer searches to locate the contact information for parties entitled to notification. Three mailings to ORRI owners are still listed as in-transit, therefore the locations have not been confirmed for: Lowe Royalty Partners, Michelle Morran, and PBEX, LLC. Cimarex published notice in the Carlsbad Current Argus, a newspaper of general circulation in

Eddy County, New Mexico, to account for any unlocatable parties and cover any contingencies regarding notice.

12. Cimarex has made a good faith effort to negotiate with the interest owners, but has been unable to obtain, voluntary agreement from all interest owners to participate in the drilling of the well or in the commitment of their interests to the well for its development within the proposed horizontal spacing unit. **Exhibit A-4** provides a chronology and history of contacts with the owners.

13. The interest owners being pooled have been contacted regarding the proposed wells but have failed or refused to voluntarily commit their interest in the wells. However, Cimarex has been in ongoing discussions with some of the interest owners to voluntarily enter into a Joint Operating Agreement. If a mutually agreeable Joint Operating Agreement is reached between Cimarex and another interest owner or owners, Cimarex requests that the voluntary agreement become operative and supersede the Division's order for said parties, except to the extent the Division deems it necessary to maintain spacing criteria for the purpose of conservation, the prevention of waste, and protection of correlative rights.

14. **Exhibit A-3** is a sample proposal letter and the AFE for the proposed well. The estimated cost of the wells set forth in the AFE is fair, reasonable, and comparable to the costs of other wells of similar depths and lengths drilled in this area of New Mexico.

15. Cimarex requests overhead and administrative rates of $8,000/month for drilling each well and $800/month for producing each well, as listed in the JOA sent to owners. These rates are fair and comparable to the rates charged by other operators for wells of this type in this area of southeastern New Mexico. Cimarex requests that these rates be adjusted periodically as provided in the COPAS Accounting Procedure.

16. Cimarex requests the maximum cost, plus 200% risk charge be assessed against non-consenting working interest owners to the extent needed.

17. Cimarex requests that it be designated operator of the unit and well.

18. The Exhibits to this Affidavit were prepared by me or compiled from Cimarex's company business records under my direct supervision.

19. The granting of this Application is in the best interests of conservation, the prevention of waste, and the protection of correlative rights, and will avoid the drilling of unnecessary wells.

20. The foregoing is correct and complete to the best of my knowledge and belief.

APPLICATIONS OF CIMAREX ENERGY CO. OF COLORADO FOR A HORIZONTAL SPACING UNIT AND COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO

Case Nos. 22145 & 22146

AFFIDAVIT OF LUCAS HAAS

I, LUCAS HAAS, being duly sworn on oath, state the following:

1. I am over the age of 18, and I have personal knowledge of the matters stated herein.

2. I am employed as a petroleum geologist for Cimarex Energy Co. of Colorado ("Cimarex"), and I am familiar with the subject applications and the geology involved.

3. This affidavit is submitted in connection with the filing by Cimarex of the above-referenced compulsory pooling applications pursuant to 19.15.4.12.A(1) NMAC.

4. I have testified previously by affidavit before the Oil Conservation Division ("Division") as an expert petroleum geologist; my credentials have been made a matter of record, and I have been qualified as an expert by the Division.

   a. I have a Bachelor of Science Degree in Geology from Binghamton University, and a Master of Science Degree in Geology from the University of Colorado.

   b. I have worked on New Mexico Oil and Gas matters since January 2019.

5. **Exhibit B-1** is a structure map of the base of the 3rd Bone Spring Sandstone formation with contour interval of 100'. The unit being pooled is outlined by red rectangle.

EXHIBIT
B

The structure map shows that there is a regional down-dip to the southeast. I do not observe any faulting, pinchouts, or other geologic impediments to developing this targeted interval.

6. **Exhibit B-2** is a stratigraphic cross-section flattened on the base of the 3rd Bone Spring Sandstone formation. Each well in the cross-section contains a gamma ray, resistivity, photoelectric, and porosity log. The cross-section demonstrates continuity and slight thinning to the west of the target zone. The well logs on the cross-section give a representative sample of the 3rd Bone Spring Sandstone. The landing zone is highlighted by light, green shading. The well logs are oriented west to east (left to right), and are along the proposed wellbore trajectory.

7. Additional exhibits for the benefit of the Division's review include **Exhibit B-3**, a gross isopach of the 3rd Bone Spring Sandstone, as well as **Exhibits B-4** and **B-5**. **Exhibit B-5** is a gun barrel representation of the unit.

8. I conclude from the attached exhibits that:

   a. The horizontal spacing and proration unit is justified from a geologic standpoint.

   b. There are no structural impediments or faulting that will interfere with horizontal development.

   c. Each quarter-quarter section in the unit will contribute more or less equally to production.

9. The preferred well orientation in this area is EAST-WEST so that the wells run sub-perpendicular to the inferred orientation of the maximum horizontal stress.

10. The Exhibits to this Affidavit were prepared by me or compiled from Cimarex's company business records under my direct supervision.

11. The granting of this Application is in the interests of conservation, the prevention of waste and the drilling of unnecessary wells, and the protection of correlative rights.

12. The foregoing is correct and complete to the best of my knowledge and belief.
