CASE NO. 22599

APPLICATION

Enduring Resources, LLC, (“Enduring”) (OGRID No. 372286) through its undersigned attorneys, files this application with the Oil Conservation Division for an order (1) seeking the creation of the proposed Greater Lybrook Unit, effective October 1, 2021; (2) amending Order No. R-14051 to freeze the existing West Lybrook Unit to existing wells and production, effective October 1, 2021; (3) amending Order No. R-14084 to freeze the existing Kimbeto Wash Unit to existing wells and production, effective October 1, 2021; (4) expanding the West Lybrook; Mancos Pool to include the proposed Greater Lybrook Unit area and the existing Kimbeto Wash Unit area; and (5) contracting the Basin Mancos Gas Pool outside the boundaries of the proposed Greater Lybrook Unit area and the existing Kimbeto Wash Unit area. In support of its application, Enduring states:

1. On September 8, 2015, the Division issued Order No. R-14051 in Case No. 15356 approving formation of the West Lybrook Unit consisting of 12,807.24 acres, more or less, of Federal and Allotted Indian lands in San Juan County, New Mexico. As approved, the West Lybrook Unit comprises the following-described acreage in San Juan County:

**BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. A
Submitted by: Enduring Resources, LLC
Hearing Date: March 3, 2022
Case No. 22599**

TOWNSHIP 23 NORTH, RANGE 8 WEST, NMPM

Section 6:	S/2 S/2
Sections 7 and 8:	All
Sections 17 through 19:	All

TOWNSHIP 23 NORTH, RANGE 9 WEST, NMPM

Section 11:	SW/4 and E/2
Sections 12 through 15:	All
Section 21:	E/2
Sections 22 through 27:	All
Section 28:	E/2
Sections 33 through 35:	All

2. Enduring is the successor-in-interest to WPX Energy Production, LLC and successor operator of the West Lybrook Unit under the terms of the West Lybrook Unit Agreement.

3. The West Lybrook Unit's Unitized Interval is currently defined as the top of the Mancos formation at a measured depth of 3,820 feet down to the stratigraphic equivalent at a depth of 5,071 feet as encountered in the log run on the Federal Davis Oil Company Chaco Well No. 6 (API No. 30-045-05082) located in Section 12, Township 23 North, Range 9 West, NMPM, San Juan County, New Mexico. *See* Order No. R-14051, at Ordering ¶ 4.

4. Order No. R-14051 also created a new pool for horizontal wells drilled within the West Lybrook Unit's Unitized Interval known as the West Lybrook Unit Mancos Pool. *See* Order No. R-14051, at Ordering ¶ 7. The vertical limits of the West Lybrook Unit Mancos Pool comprise the entire Mancos formation as defined at a depth of 3,820 feet down to the base of the Greenhorn Limestone formation at a measured depth of 5,593 feet as encountered in the log run on the Federal Davis Oil Company Chaco Well No. 6. *See* Order No. R-14051, at Ordering ¶ 8. The horizontal

boundaries of the West Lybrook Unit Mancos Pool coincide with the boundaries of the West Lybrook Unit, as described in Paragraph 1, above. See Order No. R-14051, at Ordering ¶ 9.

5. Order No. R-14051 expressly provides that “The Division may expand or contract the horizontal boundaries of the West Lybrook Unit Mancos Pool if the boundaries of the Unit are altered.” See Order No. R-14501, Ordering ¶ 10.

6. Separately, on November 30, 2015, the Division issued Order No. R-14084 in Case No. 15375 approving formation of the Kimbeto Wash Unit, consisting of 5,279.20 acres, more or less, of Federal and Indian Allotted lands in San Juan County, New Mexico. As approved, the Kimbeto Wash Unit comprises the following-described acreage in San Juan County:

TOWNSHIP 23 NORTH, RANGE 9 WEST, NMPM

Sections 17 through 20:	All
Section 21:	W/2
Section 28:	W/2
Sections 29 and 30:	All
Section 31	NE/4
Section 32:	All

7. The Kimbeto Wash Unit is contiguous with the western boundary of the West Lybrook Unit.

8. The Unitized Interval of the Kimbeto Wash Unit includes all oil and gas from the top of the Mancos formation at a measured depth of 2,873 feet down to the stratigraphic equivalent at a depth of 4,680 feet as encountered in the BCO, Inc. Federal E Well No. 1 (API 30-045w20949) located in Section 17, Township 22 North, Range 9 West, NMPM, San Juan County, New Mexico. See Order No. R-14084, Ordering ¶ 3.

9. Horizontal wells drilled within the Kimbeto Wash Unit are to be dedicated to the Basin Mancos Gas Pool. See Order No. R-14084, Ordering ¶ 4. However, Order No. R-14084 expressly provides that “if a new pool for Mancos development is formed that encompasses the

Kimбето Wash Unit, the Basin Mancos Gas Pool will be contracted, and the wells in the Kimбето Wash Unit shall be incorporated into the new Mancos pool.” *See id.*

10. To most efficiently and effectively develop and operate the acreage encompassing both units, Enduring proposes to freeze the existing West Lybrook Unit and Kimбето Wash Unit to existing wells and production and to create a new unit, the Greater Lybrook Unit, the exterior boundaries of which will overlap the acreage currently comprising the existing West Lybrook Unit and Kimбето Wash Unit. All existing and producing wells committed to the existing West Lybrook Unit and Kimбето Wash Unit will remain committed to their respective units; however, horizontal and multi-lateral wells drilled within the Unit Area after the effective date of October 1, 2021, will be committed to the Greater Lybrook Unit. To the extent that Order Nos. R-14501 and R-14084 require amendment to accomplish this purpose, Enduring requests that each order be so amended.

11. A copy of the proposed Greater Lybrook Unit Agreement is attached hereto as **Exhibit 1**.

12. The proposed Greater Lybrook Unit will consist of approximately 18,086.44 acres, more or less, as follows:

TOWNSHIP 23 NORTH, RANGE 8 WEST, NMPM

Section 6:	S/2 S/2
Sections 7 and 8:	All
Sections 17 through 19:	All

TOWNSHIP 23 NORTH, RANGE 9 WEST, NMPM

Section 11:	SW/4 and E/2
Sections 12 through 15:	All
Sections 17 through 30:	All
Section 31	NE/4
Sections 32 through 35:	All

13. To effectuate its request, Enduring seeks an order creating its proposed Greater Lybrook Unit, and expanding the West Lybrook Unit Mancos Pool, as contemplated by Order No.

R-14051, to coincide with the proposed Greater Lybrook Unit area and the existing Kimbeto Wash Unit area.

14. Under the proposed Greater Lybrook Unit Agreement, the Unitized Interval will be defined as all oil and gas in the interval from the stratigraphic equivalent of the top of the Mancos Shale found at a measured depth of 3,933 feet beneath the surface down to the stratigraphic equivalent of a depth of 5,226 feet as encountered in the WPX Energy Nageezi Federal #1 well in Section 19, Township 23 North, Range 8 West, N.M.P.M. (API #30-045-26303). See Exhibit C Type Log, attached to Exhibit 1. The proposed Greater Lybrook Unit Agreement will apply only to horizontal and multi-lateral wells drilled after the effective date of October 1, 2021, and all existing vertical wells and horizontal wells drilled prior to October 1, 2021, within the Unit Area are excluded, and are listed on Exhibit D to the Unit Agreement.

15. Concurrently, Enduring seeks an order approving contraction of the Basin Mancos Gas Pool outside the exterior boundaries of the proposed Greater Lybrook Unit area and the existing Kimbeto Wash Unit area, as contemplated by the Division in Order No. R-14084.

16. Enduring owns approximately 96.6110% of the working interest in the proposed Unit Area and anticipates obtaining the voluntary agreement of the remaining working interest owners in the Unit Area. Enduring anticipates that the remaining working interest owners in each unit will ratify amendments to freeze the West Lybrook Unit and Kimbeto Wash Unit agreements to apply only to existing wells and production, effective as of October 1, 2021.

17. Enduring expects to receive preliminary approval of the Greater Lybrook Unit from the Bureau of Land Management and the Federal Indian Minerals Office.

18. Approval of the proposed Greater Lybrook Unit, contraction of the Basin Mancos Gas Pool, expansion of the West Lybrook Unit Mancos Pool, and freezing the West Lybrook Unit

and Kimbeto Wash Unit to existing wells and production, effective October 1, 2021, are in the best interests of conservation, the prevention of waste, and the protection of correlative rights.

19. Notice of this Application will be provided to the Bureau of Land Management, the Federal Indian Minerals Office, and Indian Allottees.

20. Enduring will also cause notice of this application to be published in a local newspaper of general circulation in San Juan County, New Mexico.

WHEREFORE, Enduring Resources, LLC requests that this Application be set for hearing before an Examiner of the Oil Conservation Division on March 3, 2022, and that after notice and hearing as required by law, the Division enter its order granting this Application, and such additional relief as the Division deems justified.

Respectfully submitted,

HOLLAND & HART LLP

UNIT AGREEMENT
FOR THE DEVELOPMENT AND OPERATION
OF THE

GREATER LYBROOK UNIT AREA

COUNTY OF SAN JUAN

STATE OF NEW MEXICO

NO. NMNM _____

THIS AGREEMENT for the Development and Operation of the Greater Lybrook Unit Area is entered into effective as of the 1st day of **October, 2021**, by and between the parties subscribing, ratifying, or consenting hereto, and herein referred to as the "parties hereto",

THIS AGREEMENT is limited in applicability to wells containing a lateral or laterals drilled, completed or recompleted so that the horizontal component of the completion interval extends at least one hundred feet (100') in the objective formation ("Horizontal Well(s)"). All pre-existing and future vertical wells within the Unit boundary drilled and completed to recover unitized substances as defined in Section 3 hereof are excluded from this Agreement.

WITNESSETH:

WHEREAS, the parties hereto are the owners of working, royalty or other oil and gas interests in the unit area subject to this agreement; and

WHEREAS, the Mineral Leasing Act of February 25, 1920, 41 Statute 437, as amended 30 U.S.C. Section 181 et. seq., authorizes Federal lessees and their representatives to unite with each other, or jointly or separately with others, in collectively adopting and operating a unit plan of development or operations of any oil and gas pool, field, or like area, or any part thereof for the purpose of more properly conserving the natural resources thereof whenever determined and certified by the Secretary of the Interior to be necessary or advisable in the public interest; and

WHEREAS, the Act of March 3, 1909, (35 Stat. 783) as amended by the act of August 9, 1955, (69 Stat. 540), the Act of May 11, 1938, (52 Stat. 347 as amended, 25 U.S.C., Sec. 396a-g), Act of August 4, 1947, (61 Stat. 732), Indian Mineral Development Act of 1982 (25 U.S.C. 2101-2108), provides that all operations under any oil and gas lease on tribal and/or allotted Indian lands shall be subject to the rules and regulations of the Secretary of the Interior, and regulations issued pursuant to said statute provide that, in the exercise of his judgment, the Secretary may take into consideration, among other things, the Federal laws, state laws or regulations by competent Federal or State authorities or lawful agreements among operators regulating either drilling or production or both (25 C.F.R. Sec. 211.28 and 212.28); and,

WHEREAS, the parties hereto hold sufficient interests in the Greater Lybrook Unit Area covering the land hereinafter described to give reasonably effective control of operations therein; and

WHEREAS, it is the purpose of the parties hereto to conserve natural resources, prevent waste, and secure other benefits obtainable through development and operation of the area subject to this agreement under the terms, conditions, and limitations herein set forth;

NOW, THEREFORE, in consideration of the premises and the promises herein contained, the parties hereto commit to this agreement their respective interests in the below-defined unit area, and agree severally among themselves as follows:

1. ENABLING ACT AND REGULATIONS. The Acts of March 3, 1909 and of February 25, 1920, as amended, supra, and all valid pertinent regulations including operating and unit plan regulations, heretofore issued thereunder or valid, pertinent and reasonable regulations hereafter issued thereunder are accepted and made a part of this agreement as to Federal and Indian trust lands, provided such regulations are not inconsistent with the terms of this agreement; and as to non-Federal and non-Indian trust lands, the oil and gas operating regulations in effect as of the effective date hereof governing drilling and producing operations, not inconsistent with the terms hereof or the laws of the State in which the non-Federal land is located, are hereby accepted and made a part of this agreement.

2. UNIT AREA. The following described land is hereby designated and recognized as constituting the unit area:

See map attached hereto marked as Exhibit "A" which is hereby designated and recognized as constituting the Unit Area containing 18,086.44 acres more or less.

Exhibit "A" shows, in addition to the boundary of the unit area, the boundaries and identity of tracts and leases in said area to the extent known to the Unit Operator. Exhibit "B" attached hereto is a schedule showing to the extent known to the Unit Operator, the acreage, percentage, and kind of ownership of oil and gas interests in all lands in the unit area. However, nothing herein or in Exhibits "A" and "B" shall be construed as a representation by any party hereto as to the ownership of any interest other than such interest or interests as are shown in the Exhibits as owned by such party. Exhibits "A" and "B" shall be revised by the Unit Operator whenever changes in the unit area or in the ownership interests in the individual tracts render such revision necessary, or when requested by the Authorized officer, hereinafter referred to as "AO", and not less than four (4) copies of the revised Exhibits shall be filed with the proper Bureau of Land Management office.

The above-described unit area shall, when practicable, be expanded to include therein any additional lands whenever such expansion is deemed to be necessary or advisable to conform with the purposes of this agreement. Such expansion shall be effected in the following manner:

(a) Unit Operator, on its own motion (after preliminary concurrence by the AO and the Federal Indian Minerals Office (FIMO)), or on

EXHIBIT 1

demand of the AO or FIMO (after preliminary concurrence by the AO and FIMO), shall prepare a Notice of Proposed Expansion describing the contemplated changes in the boundaries of the unit area, the reasons therefore, any plans for additional drilling, and the proposed effective date of the expansion, preferably the first day of a month subsequent to the date of notice.

(b) Said notice shall be delivered to the proper Bureau of Land Management office and copies thereof mailed to the last known address of each working interest owner, lessee and lessor whose interests are affected, advising that 30 days will be allowed for submission to the Unit Operator of any objections.

(c) Upon expiration of the 30-day period provided in the preceding item (b) hereof, Unit Operator shall file with the AO evidence of mailing of the Notice of Expansion and a copy of any objections thereto which have been filed with Unit Operator together with an application in triplicate, for approval of such expansion and with appropriate joinders.

(d) After due consideration of all pertinent information, the expansion shall, upon approval by the AO and FIMO, become effective as of the date prescribed in the notice thereof or such other appropriate date.

3. **UNITIZED LAND AND UNITIZED SUBSTANCES.** All land now or hereafter committed to this agreement shall constitute land referred to herein as "unitized land" or "land subject to this agreement". All oil and gas in the interval from the stratigraphic equivalent of the top of the Mancos Shale found at a measured depth of 3,933 feet beneath the surface down to the stratigraphic equivalent of a depth of 5,226 feet as encountered in the WPX Energy Nageezi Federal #1 well in Section 19, Township 23 North, Range 8 West, N.M.P.M. (API #30-045-263030000), are unitized under the terms of this agreement and herein are called "unitized substances" (see type log attached as Exhibit "C"); provided, however, that it is the specific intent of the parties hereto not to cause or effectuate any horizontal segregation of any Federal or Indian trust lease committed hereto as a consequence of the aforementioned depth limitation of the unitized substances. The Greater Lybrook Unit Area applies to horizontal and multi-lateral wells only and all existing vertical wells within the Unit Area shall be excluded from the terms of this agreement, including but not limited to the wells listed on the title page of this agreement.

4. **UNIT OPERATOR.** Enduring Resources, LLC, is hereby designated as Unit Operator and by signature hereto as Unit Operator agrees and consents to accept the duties and obligations of Unit Operator for the discovery, development, and production of unitized substances as herein provided. Whenever reference is made herein to the Unit Operator, such reference means the Unit Operator acting in that capacity and not as an owner of interest in unitized substances, and the term "working interest owner" when used herein shall include or refer to Unit Operator as the owner of a working interest only when such an interest is owned by it.

5. **RESIGNATION OR REMOVAL OF UNIT OPERATOR.** Unit Operator shall have the right to resign at any time prior to the establishment of unitized production or areas hereunder, but such resignation shall not become effective so as to release Unit Operator from the duties and obligations of Unit Operator and terminate Unit Operator's rights as such for a period of six (6) months after notice of intention to resign has been served by Unit Operator on all working interest owners and the AO, and until all wells then drilled hereunder are placed in a satisfactory condition for suspension or abandonment, whichever is required by the AO as to Federal and Indian trust lands and unless a new Unit Operator shall have been selected and approved and shall have taken over and assumed the duties and obligations of Unit Operator prior to the expiration of said period.

Unit Operator shall have the right to resign in like manner and subject to like limitations as above provided at any time after a producing unit area established hereunder is in existence, but in all instances of resignation or removal, until a successor Unit Operator is selected and approved as hereinafter provided, the working interest owners shall be jointly responsible for performance of the duties of Unit Operator, and shall not later than thirty (30) days before such resignation or removal becomes effective appoint a common agent to represent them in any action to be taken hereunder.

The resignation of Unit Operator shall not release Unit Operator from any liability for any default by it hereunder occurring prior to the effective date of its resignation.

The Unit Operator may, upon default or failure in the performance of its duties or obligations hereunder, be subject to removal by the same percentage vote of the owners of working interests as herein provided for the selection of a new Unit Operator. Such removal shall be effective upon notice thereof to the AO.

The resignation or removal of Unit Operator under this agreement shall not terminate its right, title, or interest as the owner of a working interest or other interest in unitized substances, but upon the resignation or removal of Unit Operator becoming effective, such Unit Operator shall deliver possession of all wells, equipment, materials, and appurtenances used in conducting the unit operations to the newly qualified successor Unit Operator or to the common agent, if no such new Unit Operator is selected, to be used for the purpose of conducting unit operations hereunder. Nothing herein shall be construed as authorizing removal of any material, equipment, or appurtenances needed for the preservation of any wells.

6. **SUCCESSOR UNIT OPERATOR.** Whenever the Unit Operator shall tender his or its resignation as Unit Operator or shall be removed as hereinabove provided, or a change of Unit Operator is negotiated by the working interest owners, the owners of the working interests according to their respective acreage interest in all unitized land shall, pursuant to the approval of the parties requirements of the unit operating agreement, select a successor Unit Operator. Such selection shall not become effective until:

(a) a Unit Operator so selected shall accept in writing the duties and responsibilities of Unit Operator, and

(b) the selection shall have been approved by the AO and FIMO.

If no successor Unit Operator is selected and qualified as herein provided, the AO and FIMO, at their election, may declare this unit agreement terminated.

EXHIBIT 1

7. ACCOUNTING PROVISIONS AND UNIT OPERATING AGREEMENT. If the Unit Operator is not the sole owner of working interests, costs and expenses incurred by Unit Operator in conducting unit operations hereunder shall be paid and apportioned among and borne by the owners of working interests, all in accordance with the agreement or agreements entered into by and between the Unit Operator and the owners of working interests, whether one or more, separately or collectively. Any agreement or agreements entered into between the working interest owners and the Unit Operator as provided in this section, whether one or more, are herein referred to as the "unit operating agreement". Such unit operating agreement shall also provide the manner in which the working interest owners shall be entitled to receive their respective proportionate and allocated share of the benefits accruing hereto in conformity with their underlying operating agreements, leases, or other independent contracts, and such other rights and obligations as between Unit Operator and the working interest owners as may be agreed upon by Unit Operator and the working interest owners; however, no such unit operating agreement shall be deemed either to modify any of the terms and conditions of this unit agreement or to relieve the Unit Operator of any right or obligation established under this unit agreement, and in case of any inconsistency or conflict between this agreement and the unit operating agreement, this agreement shall govern. Two copies of any unit operating agreement executed pursuant to this section shall be filed in the proper Bureau of Land Management office.

8. RIGHTS AND OBLIGATIONS OF UNIT OPERATOR. Except as otherwise specifically provided herein, the exclusive right, privilege, and duty of exercising any and all rights of the parties hereto which are necessary or convenient for prospecting for, producing, storing, allocating, and distributing the unitized substances are hereby delegated to and shall be exercised by the Unit Operator as herein provided. Acceptable evidence of title to said rights shall be deposited with Unit Operator and, together with this agreement, shall constitute and define the rights, privileges, and obligations of Unit Operator. Nothing herein, however, shall be construed to transfer title to any land or to any lease or operating agreement, it being understood that under this agreement the Unit Operator, in its capacity as Unit Operator, shall exercise the rights of possession and use vested in the parties hereto only for the purposes herein specified.

9. DRILLING TO DISCOVERY. Within six (6) months after the effective date hereof, the Unit Operator shall commence to drill an adequate test well at a location approved by the AO, unless on such effective date a well is being drilled in conformity with the terms hereof, and thereafter continue such drilling diligently until a 4000' foot horizontal lateral in the Mancos Shale Group has been tested which can be produced in paying quantities (to-wit: quantities sufficient to repay the costs of drilling, completing, and producing operations, with a reasonable profit) or the Unit Operator shall at any time establish to the satisfaction of the AO, that further drilling of said well would be unwarranted or impracticable, provided, however, that Unit Operator shall not in any event be required to drill said well to a measured depth in excess of 9,600 feet. Until the discovery of unitized substances capable of being produced in paying quantities, the Unit Operator shall continue drilling one well at a time, allowing not more than one (1) year between the completion of one well and the commencement of drilling operations for the next well, until a well capable of producing unitized substances in paying quantities is completed to the satisfaction of the AO, if on Federal or Indian trust land or until it is reasonably proved that the unitized land is incapable of producing unitized substances in paying quantities in the formations drilled hereunder. Nothing in this section shall be deemed to limit the right of the Unit Operator to resign as provided in Section 5 hereof, or as requiring Unit Operator to commence or continue any drilling during the period pending such resignation becoming effective in order to comply with the requirements of this section.

The AO may modify any of the drilling requirements of this section by granting reasonable extensions of time when, in their opinion, such action is warranted.

Upon failure to commence any well as provided for in this section within the time allowed including any extension of time granted by the AO, this agreement will automatically terminate. Upon failure to continue drilling diligently any well commenced hereunder, the AO may, after fifteen (15) days notice to the Unit Operator, declare this unit agreement terminated. The parties to this agreement may not initiate a request to voluntarily terminate this agreement during the first six (6) months of its term unless at least one obligation well has been drilled in accordance with the provisions of this section. The failure to commence a well subsequent to the drilling of the initial obligation well, or in the case of multiple well requirements, if specified, subsequent to the drilling of those multiple wells, as provided for in this (these) section(s), within the time allowed including any extension of time granted by the AO, shall cause this agreement to terminate automatically. Upon failure to continue drilling diligently any well other than the obligation well(s) commenced hereunder, the AO may, after 15 days notice to the Unit Operator, declare this unit agreement terminated. Failure to commence drilling the initial obligation well, or the first of multiple obligation wells, on time and to drill it diligently shall result in the unit agreement approval being declared invalid ab initio by the AO. In the case of multiple well requirements, failure to commence drilling the required multiple wells beyond the first well, and to drill them diligently, may result in the unit agreement approval being declared invalid ab initio by the AO.

10. PLAN OF FURTHER DEVELOPMENT AND OPERATION. The Unit Operator shall submit annually for the approval of the AO an acceptable plan of development and operation for the unitized land which, when approved by the AO, shall constitute the further drilling and development obligations of the Unit Operator under this agreement for the period specified therein. The plan of development for calendar year 2022 is attached as Exhibit "E" and, upon approval of this Unit Agreement, the plan of development attached as Exhibit "E" shall be deemed approved. Thereafter, from time to time before the expiration of any existing plan, the Unit Operator shall submit for the approval of the AO, a plan for an additional twelve (12) month period for the development and operation of the unitized land. Subsequent plans should normally be filed on a calendar year basis not later than March 1 each year. Any proposed modification or addition to the existing plan should be filed as a supplement to the plan.

Any plan submitted pursuant to this section shall provide for the timely exploration and diligent development of the unitized area. This plan shall be as complete and adequate as the AO may determine to be necessary for timely development and proper conservation of the oil and gas resources of the unitized area and shall:

- (a) specify the number and locations of any wells to be drilled and the proposed order and time for such drilling; and
- (b) provide a summary of operations and production for the previous year.

Plans shall be modified or supplemented when necessary to meet changed conditions or to protect the interests of all parties to this agreement. Reasonable diligence shall be exercised in complying with the obligations of the approved plan of development and operation.

No further wells, except such as may be necessary to afford protection against operations not under this agreement and such as may be specifically approved by the AO, shall be drilled except in accordance with an approved plan of development and operation.

EXHIBIT 1

11. ALLOCATION OF PRODUCTION.

(a) All unitized substances produced under this agreement from wells other than those listed on Exhibit "D" (i.e., all wells drilled from and after the effective date of the Greater Lybrook Unit Agreement), except any part thereof used in conformity with good operating practices within the unitized area for drilling, operating, and other production or development purposes, or for repressuring or recycling in accordance with a plan of development and operations that has been approved by the AO, or unavoidably lost, shall be deemed to be produced equally on an acreage basis from the several tracts of unitized land and unleased Federal and Indian trust land, if any, comprising the Greater Lybrook Unit. There shall be allocated to the working interest owner(s) of each tract of unitized land in the unit, in addition, such percentage of the production attributable to the unleased Federal and Indian trust land within the unit as the number of acres of such unitized tract bears to the total number of acres of unitized land, for the payment of the compensatory royalty specified in Section 15 of this agreement.

(b) Allocations of Production for Owners other than Royalty Owners. Allocation of production hereunder for purposes other than for settlement of the royalty, overriding royalty, or payment out of production obligations of the respective working interest owners, including compensatory royalty obligations under Section 15, shall be prescribed as set forth in the unit operating agreement or as otherwise mutually agreed by the affected parties.

12. ROYALTY SETTLEMENT. The United States, the lessors of Indian trust land, and any other royalty owner who is entitled to take in kind a share of the substances now unitized hereunder shall hereafter be entitled to the right to take in kind its share of the unitized substances, and Unit Operator, or the working interest owner in case of the operation of a well by a working interest owner as herein provided for in special cases, shall make deliveries of such royalty share taken in kind in conformity with the applicable contracts, laws, and regulations. Settlement for royalty interest not taken in kind shall be made by working interest owners responsible therefore under existing contracts, laws and regulations, or by the Unit Operator on or before the last day of each month for unitized substances produced during the preceding calendar month; provided, however, that nothing in this section shall operate to relieve the responsible parties of any land from their respective lease obligations for the payment of any royalties due under their leases.

If gas obtained from lands not subject to this agreement is introduced into the unit area hereunder, for use in repressuring, stimulation of production, or increasing ultimate recovery in conformity with a plan of development and operation approved by the AO, a like amount of gas, after settlement as herein provided for any gas transferred from any other area and with appropriate deduction for loss from any cause, may be withdrawn from the formation into which the gas is introduced, royalty free as to dry gas, but not as to any products which may be extracted therefrom; provided that such withdrawal shall be at such time as may be provided in the approved plan of development and operation or as may otherwise be consented to by the AO as conforming to good petroleum engineering practice; and provided further, that such right of withdrawal shall terminate on the termination of this Unit Agreement.

Royalty due on the United States and Indian trust lands shall be computed as provided in 30 CFR Part 1200 and paid in value or delivered in kind as to all unitized substances on the basis of the amounts thereof allocated to unitized Federal and Indian trust land as provided in Section 11 at the rates specified in the respective Federal or Indian trust lease, or at such other rate or rates as may be authorized by law or regulation and approved by the AO; provided, that for leases on which the royalty rate depends on the daily average production per well, said average production shall be determined in accordance with the operating regulations as though the unitized area were a single consolidated lease.

13. RENTAL SETTLEMENT. Rental or minimum royalties due on leases committed hereto shall be paid by appropriate working interest owners under existing contracts, laws, and regulations, provided that nothing herein contained shall operate to relieve the lessees of any land from their respective lease obligations for the payment of any rental or minimum royalty due under their leases. Rental or minimum royalty for lands of the United States and Indian trust lands subject to this agreement shall be paid at the rate specified in the respective leases from the United States or Indian lessors, unless such rental or minimum royalty is waived, suspended, or reduced by law or by approval of the Secretary or his duly authorized representative.

14. CONSERVATION. Operations hereunder and production of unitized substances shall be conducted to provide for the most economical and efficient recovery of said substances without waste, as defined by or pursuant to State or Federal law or regulation.

15. DRAINAGE. (a) The Unit Operator shall take such measures as the AO deems appropriate and adequate to prevent drainage of unitized substances from unitized land by wells on land not subject to this agreement, which shall include the drilling of protective wells and which may include the payment of a fair and reasonable compensatory royalty, as determined by the AO, as to Federal and Indian leases.

(b) As to any unleased Federal lands within the boundaries of the unit, the value of 12-1/2 percent of the production that would be allocated to such Federal lands under Section 11 of this agreement, if such lands were leased, committed and entitled to production hereunder shall be payable as compensatory royalties to the United States. Parties to this agreement holding working interest in committed leases in the unit shall be responsible for such compensatory royalty payment on the volume of production reallocated from the unleased Federal lands to their unitized tracts under Section 11. The value of such production subject to the payment of said royalties shall be determined pursuant to 30 CFR Part 1206. Payment of compensatory royalties on the production reallocated from unleased Federal land to the committed tracts within the unit area shall fulfill the Federal royalty obligation for such production, and such production shall be subject to no further Federal royalty assessment under Section 12 of this agreement. Payment of compensatory royalties as provided herein shall accrue from the date the committed tracts in the unit or Pre-Existing Allocation Area, as appropriate, receive a production allocation, and shall be due and payable monthly by the last day of the calendar month next following the calendar month of production. Payments due under this section shall end when the unleased Federal land is leased or when production of unitized substances is no longer allocated to the unleased tract, whichever first occurs.

(c) Whenever a participating area approved under section 11 of this agreement contains unleased Federal lands, the value of 12 1/2 percent of the production that would be allocated to such Federal lands under section 12 of this agreement, if such lands were leased, committed, and entitled to participation, shall be payable as compensatory royalties to the Federal Government. Parties to this agreement holding working interests in committed leases within the applicable participating area shall be responsible for such compensatory royalty payment on the volume of production reallocated from

EXHIBIT 1

the unleased Federal lands to their unitized tracts under section 12. The value of such production subject to the payment of said royalties shall be determined pursuant to 30 CFR part 206. Payment of compensatory royalties on the production reallocated from unleased Federal land to the committed tracts within the participating area shall fulfill the Federal royalty obligation for such production, and said production shall be subject to no further royalty assessment under section 14 of this agreement. Payment of compensatory royalties as provided herein shall accrue from the date the committed tracts in the participating area that includes unleased Federal lands receive a production allocation, and shall be due and payable monthly by the last day of the calendar month next following the calendar month of actual production. If leased Federal lands receiving a production allocation from the participating area become unleased, compensatory royalties shall accrue from the date the Federal lands become unleased. Payment due under the provision shall end when the unleased Federal tract is leased or when production of unitized substances ceases within the participating area and the participating area is terminated, whichever occurs first."

16. LEASES AND CONTRACTS CONFORMED AND EXTENDED. The terms, conditions, and provisions of all leases, subleases, and other contracts relating to exploration, drilling, development, or operation for oil or gas on lands committed to this agreement are hereby expressly modified and amended to the extent necessary to make the same conform to the provisions hereof, but otherwise to remain in full force and effect; and the parties hereto hereby consent that the Secretary, as to Federal and Indian leases, or by the approval of this agreement by their respective duly authorized representatives, shall and does hereby establish, alter, change, or revoke the drilling, producing, rental minimum royalty, and royalty requirements of Federal and Indian leases committed hereto and the regulations in respect thereto to conform said requirements to the provisions of this agreement, and, without limiting the generality of the foregoing, all leases, subleases, and contracts are particularly modified in accordance with the following:

(a) The development and operation of lands subject to this agreement under the terms hereof shall be deemed full performance of all obligations for development and operation with respect to each and every separately owned tract subject to this agreement, regardless of whether there is any development of any particular tract of this unit area.

(b) Drilling and producing operations performed hereunder upon any tract of unitized lands will be accepted and deemed to be performed upon and for the benefit of each and every tract of unitized land, and no lease shall be deemed to expire by reason of failure to drill or produce wells situated on the land therein embraced.

(c) Suspension of drilling or producing operations on all unitized lands pursuant to direction or consent of the AO and FIMO, or their duly authorized representatives, shall be deemed to constitute such suspension pursuant to such direction or consent as to each and every tract of unitized land. A suspension of drilling or producing operations limited to specified lands shall be applicable only to such lands.

(d) Each lease, sublease or contract relating to the exploration, drilling, development, or operation for oil or gas of lands other than those of the United States and Indian trust lands committed to this agreement which, by its terms might expire prior to the termination of this agreement, is hereby extended beyond any such terms so provided therein so that it shall be continued in full force and effect for and during the term of this agreement.

(e) Any Federal lease committed hereto shall continue in force beyond the term so provided therein or by law as to the land committed so long as such lease remains subject hereto, provided that a well capable of production of unitized substances in paying quantities is established in paying quantities under this unit agreement prior to the expiration date of the term of such lease, or in the event actual drilling operations are commenced on unitized land, in accordance with provisions of this agreement, prior to the end of the primary term of such lease and are being diligently prosecuted at that time, such Federal lease shall be extended for two years, and so long thereafter as oil or gas is produced in paying quantities in accordance with the provisions of the Act of February 25, 1920, as amended. Any Indian lease committed hereto shall continue in force beyond the term so provided therein or by law as to the land committed so long as such lease remains subject hereto, provided that production of unitized substances in paying quantities is established under this Unit Agreement prior to the expiration date of the term of such lease and such lease shall be extended for so long thereafter as oil or gas is produced in paying quantities in accordance with the provisions of the acts governing the leasing of Indian lands.

(f) Each sublease or contract relating to the operation and development of unitized substances from lands of the United States or Indian trust lands committed to this agreement, which by its terms would expire prior to the time at which the underlying lease, as extended by the immediately preceding paragraph, will expire, is hereby extended beyond any such term so provided therein so that it shall be continued in full force and effect for and during the term of the underlying lease as such term is herein extended.

(g) The segregation of any Federal lease committed to this agreement is governed by the following provision in the fourth paragraph of Section 17 (j) of the Mineral Leasing Act, as amended by the Act of September 2, 1960, (74 Stat. 781-784) (30 U.S.C. 226 (m)): "Any (Federal) lease heretofore or hereafter committed to any such (Unit) plan embracing lands that are in part within and in part outside the area covered by any such plan shall be segregated into separate leases as to the lands committed and the lands not committed as of the effective date of unitization. Provided, however that any such lease as to non-unitized portion shall continue in force and effect for the term thereof, but for not less than two years from the date of such segregation and so long thereafter as oil or gas is produced in paying quantities."

17. COVENANTS RUN WITH LAND. The covenants herein shall be construed to be covenants running with the land with respect to the interests of the parties hereto and their successors in interest until this agreement terminates, and any grant, transfer or conveyance of interest in land or lease subject hereto shall be and hereby is conditioned upon the assumption of all privileges and obligations hereunder by the grantee, transferee, or other successor in interest. No assignment or transfer of any working interest, royalty, or other interest subject hereto shall be binding upon Unit Operator until the first day of the calendar month after Unit Operator is furnished with the original, photostatic, or certified copy of the instrument of transfer.

18. EFFECTIVE DATE AND TERM. This agreement shall become effective upon approval by the AO and FIMO, or their duly authorized representatives, but effective as of the effective date set forth in the opening paragraph hereof, and shall automatically terminate five (5) years from said effective date unless:

(a) Upon application by the Unit Operator such date of expiration is extended by the AO; or

EXHIBIT 1

(b) it is reasonably determined prior to the expiration of the fixed term or any extension thereof that the unitized land is incapable of production of unitized substances in paying quantities in the formations tested hereunder, and after notice of intention to terminate this agreement on such ground is given by the Unit Operator to all parties in interest at their last known addresses, this agreement is terminated with approval of the AO; or

(c) a valuable discovery of unitized substances in paying quantities has been made or accepted on unitized land during said initial term or any extension thereof, in which event this agreement shall remain in effect for such term and so long thereafter as unitized substances can be produced in quantities sufficient to pay for the cost of producing same from wells on unitized land. Should production cease and diligent drilling or re-working operations to restore production or new production are not in progress within sixty (60) days and production is not restored or should new production not be obtained in paying quantities on committed lands within this unit area, this agreement will automatically terminate effective the last day of the month in which the last unitized production occurred; or

(d) it is voluntarily terminated as provided in this agreement. Except as noted herein this agreement may be terminated at any time prior to the discovery of unitized substances which can be produced in paying quantities by not less than 75 per centum, on an acreage basis, of the working interest owners signatory hereto, with the approval of the AO. The Unit Operator shall give notice of any such approval to all parties hereto.

19. RATE OF PROSPECTING, DEVELOPMENT, AND PRODUCTION. The AO is hereby vested with authority to alter or modify from time to time, in his discretion, the quantity and rate of production under this agreement when such quantity and rate are not fixed pursuant to Federal or State law, or do not conform to any State-wide voluntary conservation or allocation program which is established, recognized, and generally adhered to by the majority of operators in such State. The above authority is hereby limited to alteration or modifications which are in the public interest. The public interest to be served and the purpose thereof, must be stated in the order of alteration or modification. Without regard to the foregoing, the AO is also hereby vested with authority to alter or modify from time to time, in his discretion, the rate of prospecting and development and the quantity and rate of production under this agreement when such alteration or modification is in the interest of attaining the conservation objectives stated in this agreement and is not in violation of any applicable Federal or State law.

Powers in the section vested in the AO shall only be exercised after notice to Unit Operator and opportunity for hearing to be held not less than 15 days from notice.

20. APPEARANCES. Unit Operator shall, after notice to other parties affected, have the right to appear for and on behalf of any and all interest affected hereby before the Department of the Interior, and to appeal from orders issued under the regulations of said Department, or to apply for relief from any of said regulations, or in any proceedings relative to operations before the Department or any other legally constituted authority; provided, however, that any other interested party shall also have the right at its own expense to be heard in any such proceeding.

21. NOTICES. All notices, demands, or statements required hereunder to be given or rendered to the parties hereto shall be in writing and shall be personally delivered to the party or parties, or sent by postpaid registered or certified mail, to the last known address of the party or parties.

22. NO WAIVER OF CERTAIN RIGHTS. Nothing contained in this agreement shall be construed as a waiver by any party hereto of the right to assert any legal or constitutional right or defense as to the validity or invalidity of any law of the State where unitized lands are located, or of the United States, or regulations issued thereunder in any way affecting such party, or as a waiver by any such party of any right beyond his or its authority to waive.

23. UNAVOIDABLE DELAY. All obligations under this agreement requiring the Unit Operator to commence or continue drilling, or to operate on, or produce unitized substances from any of the lands covered by this agreement, shall be suspended while the Unit Operator, despite the exercise of due care and diligence, is prevented from complying with such obligations, in whole or in part, by strikes, acts of God, Federal, State, or municipal law or agencies, unavoidable accidents, uncontrollable delays in transportation, inability to obtain necessary materials or equipment in open market, or other matters beyond the reasonable control of the Unit Operator whether similar to matters herein enumerated or not.

24. NONDISCRIMINATION. In connection with the performance of work under this agreement, the Unit Operator agrees to comply with all the provisions of Section 202 (1) to (7) inclusive of Executive Order 11246 (30 F.R. 12319), as amended which are hereby incorporated by reference in this agreement.

25. LOSS OF TITLE. In the event title to any tract of unitized land shall fail and the true owner cannot be induced to join in this unit agreement, such tract shall be automatically regarded as not committed hereto, and there shall be such readjustment of future costs and benefits as may be required on account of the loss of such title. In the event of a dispute as to title to any royalty, working interest, or other interests subject thereto, payment or delivery on account thereof may be withheld without liability for interest until the dispute is finally settled; provided, that, as to Federal leases, no payments of funds due the United States should be withheld, but such funds shall be deposited as directed by the AO, to be held as unearned money pending final settlement of the title dispute, and then applied as earned or returned in accordance with such final settlement.

Unit Operator as such is relieved from any responsibility for any defect or failure of any title hereunder.

26. NON-JOINDER AND SUBSEQUENT JOINDER. If the owner of any substantial interest in a tract within the unit area fails or refuses to subscribe or consent to this agreement, the owner of the working interest in that tract may withdraw the tract from this agreement by written notice delivered to the proper Bureau of Land Management office, and the Unit Operator prior to the approval of this agreement by the AO. Any oil or gas interests in lands within the unit area not committed hereto prior to final approval may thereafter be committed hereto by the owner or owners thereof subscribing or consenting to this agreement, and, if the interest is a working interest, by the owner of such interest only subscribing to the unit operating agreement.

EXHIBIT 1

After operations are commenced hereunder, the right of subsequent joinder, as provided in this section, by a working interest owner is subject to such requirements or approval(s), if any, pertaining to such joinder, as may be provided for in the unit operating agreement. After final approval hereof, joinder by a non-working interest owner must be consented to in writing by the working interest owner committed hereto and responsible for the payment of any benefits that may accrue hereunder in behalf of such non-working interest. A non-working interest may not be committed to this unit agreement unless the corresponding working interest is committed hereto. Joinder to the unit agreement by a working interest owner, at any time, must be accompanied by appropriate joinder to the unit operating agreement, in order for the interest to be regarded as committed to this agreement. Except as may otherwise herein be provided, subsequent joinders to this agreement shall be effective as of the date of the filing with the AO of duly executed counterparts of all or any papers necessary to establish effective commitment of any interest and/or tract to this agreement.

27. COUNTERPARTS. This agreement may be executed in any number of counterparts, no one of which needs to be executed by all parties, or may be ratified or consented to by separate instrument in writing specifically referring hereto and shall be binding upon all those parties who have executed such a counterpart, ratification, or consent hereto with the same force and effect as if all such parties had signed the same document and regardless of whether or not it is executed by all other parties owning or claiming an interest in the lands within the above-described unit area.

28. SURRENDER. Nothing in this agreement shall prohibit the exercise by any working interest owner of the right to surrender vested in such party by any lease, sublease, or operating agreement as to all or any part of the lands covered thereby, provided that each party who will or might acquire such working interest by such surrender or by forfeiture as hereafter set forth, is bound by the terms of this agreement.

If, as a result of any such surrender, the working interest rights as to such lands become vested in any party other than the fee owner of the unitized substances, said party may forfeit such rights and further benefits from operation hereunder as to said land to the party next in the chain of title who shall be and become the owner of such working interest.

If, as a result of any such surrender or forfeiture, working interest rights become vested in the fee owner of the unitized substances, such owner may:

- (a) accept those working interest rights subject to this agreement and the unit operating agreement; or
- (b) lease the portion of such land subject to this agreement and the unit operating agreement; or
- (c) provide for the independent operation of any part of such land.

If the fee owner of the unitized substances does not accept the working interest rights subject to this agreement and the unit operating agreement or lease such lands as above provided within six (6) months after the surrender or forfeited working interest rights become vested in the fee owner, the benefits and obligations of operations accruing to such lands under this agreement and the unit operating agreement shall be shared by the remaining owners of unitized working interests in accordance with their respective working interest ownerships, and such owners of working interests shall compensate the fee owner of unitized substances in such lands by paying sums equal to the rentals, minimum royalties, and royalties applicable to such lands under the lease in effect when the lands were unitized.

An appropriate accounting and settlement shall be made for all benefits accruing to or payments and expenditures made or incurred on behalf of such surrendered or forfeited working interest subsequent to the date of surrender or forfeiture, and payment of any monies found to be owing by such an accounting shall be made as between the parties within thirty (30) days.

The exercise of any right vested in a working interest owner to reassign such working interest to the party from whom obtained shall be subject to the same conditions as set forth in this section in regard to the exercise of a right to surrender.

29. TAXES. The working interest owners shall render and pay for their account and the account of the royalty owners all valid taxes on or measured by the unitized substances in and under or that may be produced, gathered and sold from the land covered by this agreement after its effective date, or upon the proceeds derived therefrom. The working interest owners on each tract shall and may charge the proper proportion of said taxes to royalty owners having interest in said tract, and may currently retain and deduct a sufficient amount of the unitized substances or derivative products, or net proceeds thereof, from the allocated share of each royalty owner to secure reimbursement for the taxes so paid. No such taxes shall be charged to the United States or to any lessor who has a contract with his lessee which requires the lessee to pay such taxes.

30. NO PARTNERSHIP. It is expressly agreed that the relation of the parties hereto is that of independent contractors and nothing contained in this agreement, expressed or implied, nor any operations conducted hereunder, shall create or be deemed to have created a partnership or association between the parties hereto or any of them.

31. SURFACE AND ENVIRONMENTAL PROTECTION STIPULATIONS. Nothing in this agreement shall modify or change either the special Federal lease stipulations relating to surface management or such special Federal lease stipulations relating to surface and environmental protection, attached to and made a part of, Oil and Gas Leases covering lands within the Unit Area.

32. PRIOR UNITS AND WELLS. Inasmuch as certain of the parties hereto are also parties to the Amended Kimbeto Wash Unit Agreement (NMNM135255X) and the Amended West Lybrook Unit (NMNM135216A), and the Unit Area for the Greater Lybrook Unit overlaps the Unit Areas for the prior units, it is hereby agreed that all previously drilled wells listed on Exhibit D attached hereto shall be governed by the terms of those Agreements, as amended, and shall be excluded from the Greater Lybrook Unit Agreement.

EXHIBIT 1

IN WITNESS WHEREOF, the parties hereto have caused this agreement to be executed and have set opposite their respective names the date of execution.

**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

APPLICATION OF ENDURING RESOURCES, LLC FOR (1) THE CREATION OF THE GREATER LYBROOK UNIT, EFFECTIVE OCTOBER 1, 2021; (2) TO AMEND ORDER NO. R-14051 TO FREEZE THE EXISTING WEST LYBROOK UNIT, EFFECTIVE OCTOBER 1, 2021; (3) TO AMEND ORDER NO. R-14084 TO FREEZE THE EXISTING KIMBETO WASH UNIT, EFFECTIVE OCTOBER 1, 2021; (4) TO EXPAND THE WEST LYBROOK; MANCOS POOL TO INCLUDE THE PROPOSED GREATER LYBROOK UNIT AND KIMBETO WASH UNIT AREAS; AND (5) TO CONTRACT THE BASIN MANCOS GAS POOL OUTSIDE THE PROPOSED GREATER LYBROOK UNIT AND KIMBETO WASH UNIT AREAS, SAN JUAN COUNTY, NEW MEXICO.

CASE NO. 2259

AFFIDAVIT OF ANITA ASHLAND

Anita Ashland, being of lawful age and duly sworn, states the following:

1. My name is Anita Ashland and have been employed by Enduring Resources, LLC (“Enduring”) as a Senior Landman since February 2020. I have not previously testified before the Oil Conservation Division. My resume is attached as **Enduring Exhibit B-1**. I graduated from the University of North Dakota with a B.A. in Journalism/Communication in 1973. I received my Juris Doctorate in Law from the University of North Dakota Law School in 1977. After graduating, I started work as a petroleum landman with Phillips Petroleum Company in 1980 and, except for a period from July 1985 to December 1992 when I was the Executive Director of a child abuse non-profit, I have continuously worked as a petroleum landman in various basins and regions across the country. I am a member of the American Association of Petroleum Landmen and the Independent Petroleum Association of America Foundation, and the Foundation for Natural Resources and Energy Law. I believe that the foregoing education and work experience qualify me to testify as an expert in petroleum land matters.

BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. B
Submitted by: Enduring Resources, LLC
Hearing Date: March 3, 2022
Case No. 22599

2. I am the landman responsible for the formation of the proposed unit and I am familiar with the application filed by Enduring in this matter and the status of the lands in the subject area.

3. Because this application seeks approval of a voluntary unit, I do not expect opposition at the hearing.

CREATION OF GREATER LYBROOK UNIT

4. In this case, Enduring seeks an order creating the Greater Lybrook Unit, a voluntary unit effective as of October 1, 2021, consisting of approximately 18,086.44 acres, more or less, of Federal and Allotted Indian lands in San Juan County, New Mexico as follows:

TOWNSHIP 23 NORTH, RANGE 8 WEST, NMPM

Section 6: S/2 S/2
Sections 7 and 8: All
Sections 17 through 19: All

TOWNSHIP 23 NORTH, RANGE 9 WEST, NMPM

Section 11: SW/4 and E/2
Sections 12 through 15: All
Sections 17 through 30: All
Section 31 NE/4
Sections 32 through 35: All

5. The proposed unit area is already subject to two existing federal units, the Kimbeto Wash Unit and the West Lybrook Unit. The existing units will remain in place and all wells drilled before October 1, 2021, will remain dedicated to each respective unit. Horizontal and multi-lateral wells drilled after October 1, 2021, will be dedicated to the proposed Greater Lybrook Unit, as explained in more detailed later in my testimony.

6. **Enduring Exhibit B-2** is a general location map showing the location of the existing Kimbeto Wash Unit and West Lybrook Unit, as well as the location of the proposed

Greater Lybrook Unit, which overlaps the existing units. It also depicts the acreage dedicated to each existing unit.

7. As of 2018, Enduring is the successor-in-interest to WPX Energy Production, LLC and successor operator of the West Lybrook Unit under the terms of the West Lybrook Unit Agreement, and successor operator of the Kimbeto Wash Unit under the terms of the Kimbeto Wash Unit Agreement.

8. To most efficiently and effectively develop and operate the acreage encompassing both existing units, Enduring proposes to limit the existing West Lybrook Unit and Kimbeto Wash Unit to existing wells drilled as of October 1, 2021, and to create a new unit, the Greater Lybrook Unit. The proposed Greater Lybrook Unit's exterior boundaries will overlap the acreage currently comprising the existing West Lybrook Unit and Kimbeto Wash Unit. All wells drilled and committed to the West Lybrook Unit and Kimbeto Wash Unit before October 1, 2021, will remain producing and subject to those respective units and unit agreements. The proposed Greater Lybrook Unit Agreement will apply only to horizontal and multi-lateral wells drilled after the effective date of October 1, 2021. All existing vertical wells and horizontal wells drilled within the Unit Area prior to October 1, 2021, will be excluded from the Greater Lybrook Unit and are listed on Exhibit D to the Unit Agreement.

9. Enduring will continue to pay royalty for oil production from the existing 35 wells in the West Lybrook Unit on the same interests as it is currently paying. Payments will continue for as long as those wells produce. Similarly, Enduring will continue to pay royalty for oil production from the existing five wells in the Kimbeto Wash Unit on the same interests as it is currently paying. Payments will continue for as long as those wells produce. All mineral owners

in both existing units will receive an additional royalty payment from wells drilled in the Greater Lybrook Unit after October 1, 2021.

10. Since October 2021, Enduring has drilled five horizontal wells in the proposed Unit Area, and plans to drill future horizontal wells, that will develop acreage across both existing units. **Enduring Exhibit B-3** is map depicting Enduring's plan of development for the proposed Greater Lybrook Unit, including the five wells that have been drilled since October 1, 2021. These five wells will serve as Enduring's obligation wells for the proposed Greater Lybrook Unit.

11. **Enduring Exhibit B-4** is a Form C-102 for the obligation wells identified in Enduring's plan of development in Exhibit B-3.

12. Enduring's plans of development for the two existing units call for a total of 12 pads and 60 laterals, with an average lateral length of 8,900 feet if the units are developed separately without creating the proposed Greater Lybrook Unit. But under its proposed development plan for the Greater Lybrook Unit, surface impacts will be reduced by about 33% with 8 pads and 40 laterals with a longer average lateral length of 10,000 feet. This economy of scale results in a one-third reduction in the number of laterals, thus minimizing all elements of environmental impact, including water use, air emissions, truck traffic, noise and light, surface disturbance, as well as expense and mechanical risk. In addition, longer laterals are generally more efficient and are expected to produce more oil.

13. The Greater Lybrook Unit plan of development includes approximately 20 laterals to be drilled across the former boundary between the West Lybrook Unit and the Kimbeto Wash Unit. By eliminating the need for setbacks, an additional 800 feet of wellbore per lateral will allow recovery of an additional 60 barrels of oil per foot over the projected 25-year life of the new wells. Enduring conservatively estimates that the establishment of the Greater Lybrook Unit will result

in the recovery of an additional 960,000 BOE. Federal and allottee royalty (20%) will increase by 192,000 BOE over the life of the unit, which could result in additional payments of over \$14MM at current prices.

14. Water recycling and marketing infrastructure also can be most efficiently utilized by consolidating development and eliminating the need for any additional surface facilities under a single plan of unit operation.

15. Enduring is the designated operator under the proposed Greater Lybrook Unit Agreement. The unitized interval will be defined as all oil and gas in the interval from the stratigraphic equivalent of the top of the Mancos Shale found at a measured depth of 3,933 feet beneath the surface down to the stratigraphic equivalent of a depth of 5,226 feet as encountered in the WPX Energy Nageezi Federal #1 well in Section 19, Township 23 North, Range 8 West, N.M.P.M. (API #30-045-26303). This unitized interval is identical to the unitized interval in the West Lybrook Unit. Enduring's geologist provides further detail on the unitized interval in his testimony.

16. Attached to **Enduring Exhibit A** is a copy of the proposed Unit Agreement with attached Exhibits A, B, C, and D. Exhibit A to the Unit Agreement outlines the boundary of the Unit Area and identifies all tracts of land within the proposed Unit. Allotted Indian tracts are identified in gray and comprise 46.88% of the unit, with the remaining tracts comprised of Federal lands.

17. Exhibit B to the Unit Agreement shows the ownership breakdown by tract for the Unit Area. Enduring owns approximately 96.6110% of the total working interest in the proposed Unit. Enduring, as operator, has been in contact with the remaining working interest owners and

anticipates ratification of a sufficient percentage of the working interests to have effective control of Unit operations.

18. Enduring has met with the Bureau of Land Management regarding the proposed unitized area and the Unit Agreement. **Enduring Exhibit B-5** is a copy of a preliminary approval letter from the Bureau of Land Management. This letter contains several requirements and obligations for final approval from the agency that will be met by Enduring.

LIMITATION OF KIMBETO AND WEST LYBROOK UNITS TO WELLS EXISTING BEFORE OCTOBER 1, 2021

19. To the extent the Division determines it is necessary, Enduring requests that the Division amend Order No. R-14051 to limit the West Lybrook Unit to existing wells as of October 1, 2021. Similarly, to the extent the Division determines it is necessary, Enduring requests that the Division amend Order No. R-14084 to limit the Kimbeto Wash Unit to existing wells as of October 1, 2021.

20. As noted above, all existing vertical wells and horizontal wells drilled within the Unit Area prior to October 1, 2021, are excluded from the proposed Greater Lybrook Unit and are listed on Exhibit D to the Unit Agreement.

CONTRACTION OF BASIN MANCOS GAS POOL AND EXPANSION OF WEST LYBROOK; MANCOS POOL

21. The acreage that encompasses the proposed Greater Lybrook Unit area is located within two pools: the Basin Mancos Gas Pool [Pool Code 97232], which covers the acreage in the Kimbeto Wash Unit area, and the West Lybrook; Mancos Pool [Pool Code 98157], which covers the acreage in the West Lybrook Unit area.

22. To avoid having multiple pools in the proposed Greater Lybrook Unit and for administrative ease and to simplify reporting, Enduring requests that the Division contract the Basin Mancos Gas Pool outside the exterior boundaries of the proposed Greater Lybrook Unit area

and the existing Kimbeto Wash Unit area, as contemplated by the Division in Order No. R-14084. Concurrently, Enduring requests that the Division expand the West Lybrook Unit Mancos Pool to include the Kimbeto Wash Unit and all of the proposed Greater Lybrook Unit.

23. The Division has already effectively contemplated making the requested pool adjustments.

24. Order No. R-14051 in Case No. 15356 approved formation of the West Lybrook Unit. Order No. R-14051 also created a new pool for horizontal wells drilled within the West Lybrook Unit's Unitized Interval known as the West Lybrook Unit Mancos Pool. *See* Order No. R-14051, at Ordering ¶ 7. The West Lybrook Unit's Unitized Interval is currently defined as the top of the Mancos formation at a measured depth of 3,820 feet down to the stratigraphic equivalent at a depth of 5,071 feet as encountered in the log run on the Federal Davis Oil Company Chaco Well No. 6 (API No. 30-045-05082) located in Section 12, Township 23 North, Range 9 West, NMPM, San Juan County, New Mexico. *See* Order No. R-14051, at Ordering ¶ 4.

25. The vertical limits of the West Lybrook Unit Mancos Pool comprise the entire Mancos formation as defined at a depth of 3,820 feet down to the base of the Greenhorn Limestone formation at a measured depth of 5,593 feet as encountered in the log run on the Federal Davis Oil Company Chaco Well No. 6. *See* Order No. R-14051, at Ordering ¶ 8. The horizontal boundaries of the West Lybrook Unit Mancos Pool coincide with the boundaries of the West Lybrook Unit, as described in Paragraph 1, above. *See* Order No. R-14051, at Ordering ¶ 9.

26. Order No. R-14051 expressly provides that "The Division may expand or contract the horizontal boundaries of the West Lybrook Unit Mancos Pool if the boundaries of the Unit are altered." *See* Order No. R-14501, Ordering ¶ 10.

27. Separately, the Division issued Order No. R-14084 in Case No. 15375 approving formation of the Kimbeto Wash Unit. The Kimbeto Wash Unit is contiguous with the western boundary of the West Lybrook Unit.

28. The Unitized Interval of the Kimbeto Wash Unit includes all oil and gas from the top of the Mancos formation at a measured depth of 2,873 feet down to the stratigraphic equivalent at a depth of 4,680 feet as encountered in the BCO, Inc. Federal E Well No. 1 (API 30-045w20949) located in Section 17, Township 22 North, Range 9 West, NMPM, San Juan County, New Mexico. See Order No. R-14084, Ordering ¶ 3.

29. Horizontal wells drilled within the Kimbeto Wash Unit are to be dedicated to the Basin Mancos Gas Pool. See Order No. R-14084, Ordering ¶ 4. However, Order No. R-14084 expressly provides that “if a new pool for Mancos development is formed that encompasses the Kimbeto Wash Unit, the Basin Mancos Gas Pool will be contracted, and the wells in the Kimbeto Wash Unit shall be incorporated into the new Mancos pool.” See *id.*

30. Accordingly, at the time the Kimbeto Wash Unit and West Lybrook Units were created, the Division had already contemplated contracting the Basin Mancos Gas Pool outside of the unit boundaries and expanding the West Lybrook Unit Mancos Pool.

31. Enduring identified all interest owners in the Kimbeto Wash Unit and West Lybrook Unit and the proposed Greater Lybrook Unit, including Allotteeed Indian owners, working interest owners, and overriding royalty interest owners. In addition, Enduring identified all operators within a one-mile area of the exterior boundaries of the units that will be impacted by the requested pool contraction and expansion. I provided the law firm of Holland & Hart LLP a list of names and addresses for all parties identified, including the BLM.

32. In my opinion, the unitized interval for the proposed Greater Lybrook Unit can be efficiently and effectively developed under a common plan of development, and approval of this application is in the best interests of conservation, prevention of waste, and the protection of correlative rights.

33. Enduring Exhibits B-1 through B-5 were prepared by me or compiled under my direction from company business records.

Professional Experience and Accomplishments

- History of establishing and maintaining effective business relationships;
- Over 30 years of corporate experience in all aspects of petroleum land management;
- Skills include structuring, drafting and negotiating oil and gas farmouts, participation agreements and operating agreements;
- Managed unconventional resource projects and drilling programs in multiple basins, including the Rocky Mountains, Texas and Louisiana Gulf Coast, and the Appalachian Basin;
- Managed multimillion-dollar lease acquisition projects with time/budget constraints;
- Managed due diligence projects in multiple basins;
- Extensive supervision of office staffs and field personnel;
- Law Degree;
- Published "A treatise on Oil and Gas Contracts in the Williston Basin", in the North Dakota law review. The article is cited in the Williams and Myers manual of oil and gas terms.

Skills

- Focus on strategic vision, goals and achievement of measurable outcomes;
- Long term and short-term planning;
- Industry reputation as high level deal maker;
- Excellent written and verbal communications;
- Collaborative leadership style;
- Self-motivated;
- Project and personnel management.

Employment History

Enduring Resources, LLC

Senior Landman
February 2020 to present

New Ventures Mineral Management, LLC

July 2018 to February 2020
Petroleum land management consulting services.

BEFORE THE OIL CONSERVATION DIVISION

Santa Fe, New Mexico

Exhibit No. B1

Submitted by: Enduring Resources, LLC

Hearing Date: March 3, 2022

Case No. 22599

Cimarex Energy Co. (Now Coterra Energy, Inc.)

Land Manager - New Ventures

July 2011 to July 2018

Responsible for developing new unconventional resource projects in conjunction with a multidisciplinary exploration team, land reconnaissance, managing acquisition of leasehold, drafting and negotiating agreements, assembled 150,000-acre position in emerging resource play with a \$40 MM budget.

Noble Energy, Inc. (now Chevron)

Land Negotiator Advisor / Wattenberg Title Supervisor

December 2010 to July 2011

Developed and managed title procedures, policies and workflow necessary for 600+ vertical and horizontal wells scheduled for the 2011 Wattenberg Niobrara drilling program; trained and supervised a title staff of 17; managed brokers and title attorneys

Cornerstone Natural Resources, LLC

Vice President / Land

March 2010 to December 2010

Responsible for managing Williston Basin leasehold, including new lease acquisitions, contract negotiations, and pooling, unitization and regulatory process for horizontal drilling program.

Cimarex Energy Co. (Now Coterra Energy, Inc.)

Senior Landman / Gulf Coast Region

April 2005 to March 2010

As a member of a multi-disciplinary exploration team, responsible for lease acquisitions, drafting and negotiating partner agreements, managing unitization process and bringing over 50 exploration prospects to drill ready status in South Louisiana and Texas Gulf Coast.

Aspect Resources LLC / Aspect Energy, LLC

District Land Manager

March 2001 to March 2005

Responsible for lease acquisitions, drafting and negotiating partner agreements, managing unitization process, 3-D seismic projects; and bringing drilling prospects to drill-ready status. Actively involved in the conceptualization, negotiations and implementation of a major joint venture agreement between Aspect and a multi-billion-dollar company.

HS Resources, Inc., Denver, Colorado (now Occidental Petroleum)

Gulf Coast District Land Supervisor

October 1995 to February 2001

Senior Landman, Corporate Development

July 1994 – October 1995

Handled corporate land due diligence, negotiation, drafting and closing of land agreements, purchase and sale agreements, and special projects. Successfully developed a joint venture in the Gulf Coast region and became manager of the operated Gulf Coast land acquisition and drilling program. Supervised, hired and trained a 7-person Gulf Coast land administration team. Managed acquisition of seismic permits, leases and lease options in 8 proprietary 3-D seismic data projects with budgets in the \$5-\$10 MM range. Responsible for bringing 50-60 exploratory test wells to drill-ready status.

PetroGulf Corporation, Denver, Colorado

Landman

March 1993 to July 1994

Handled title reviews; lease acquisition, due diligence, land negotiations, drafting and closing of legal; managed the land and legal aspects of a coal-bed methane drilling program in the San Juan Basin of Colorado.

Kempe Children's Foundation, Denver, Colorado

Executive Director

July 1987 – December 1992

Volunteer management and fundraising for non-profit arm of C. Henry Kempe National Center for the Prevention and Treatment of Child abuse and Neglect, CU Medical School.

Union Pacific Resources, Englewood, Colorado (formerly Champlin Petroleum, now Occidental Petroleum)

Landman

June 1985 – June 1987

Responsible for lease acquisitions; title curative; land negotiations.

Phillips Petroleum Company, Englewood, Colorado (now ConocoPhillips)

Staff Landman, Mid-Continent Region

July 1982 – May 1985

Responsible for lease acquisitions and deal negotiations.

Landman, Contracts Dept.
December 1980 – June 1982
Responsible for drafting all land agreements for region.

First Judicial District of North Dakota, Grand Forks, North Dakota

Referee of the Juvenile Court
September 1977 – May 1979

Education

Juris Doctorate, May 1977
University of North Dakota School of Law
Grand Forks, North Dakota

B. A. Journalism/Communication, Magna Cum Laude, May 1973
University of North Dakota
Grand Forks, North Dakota

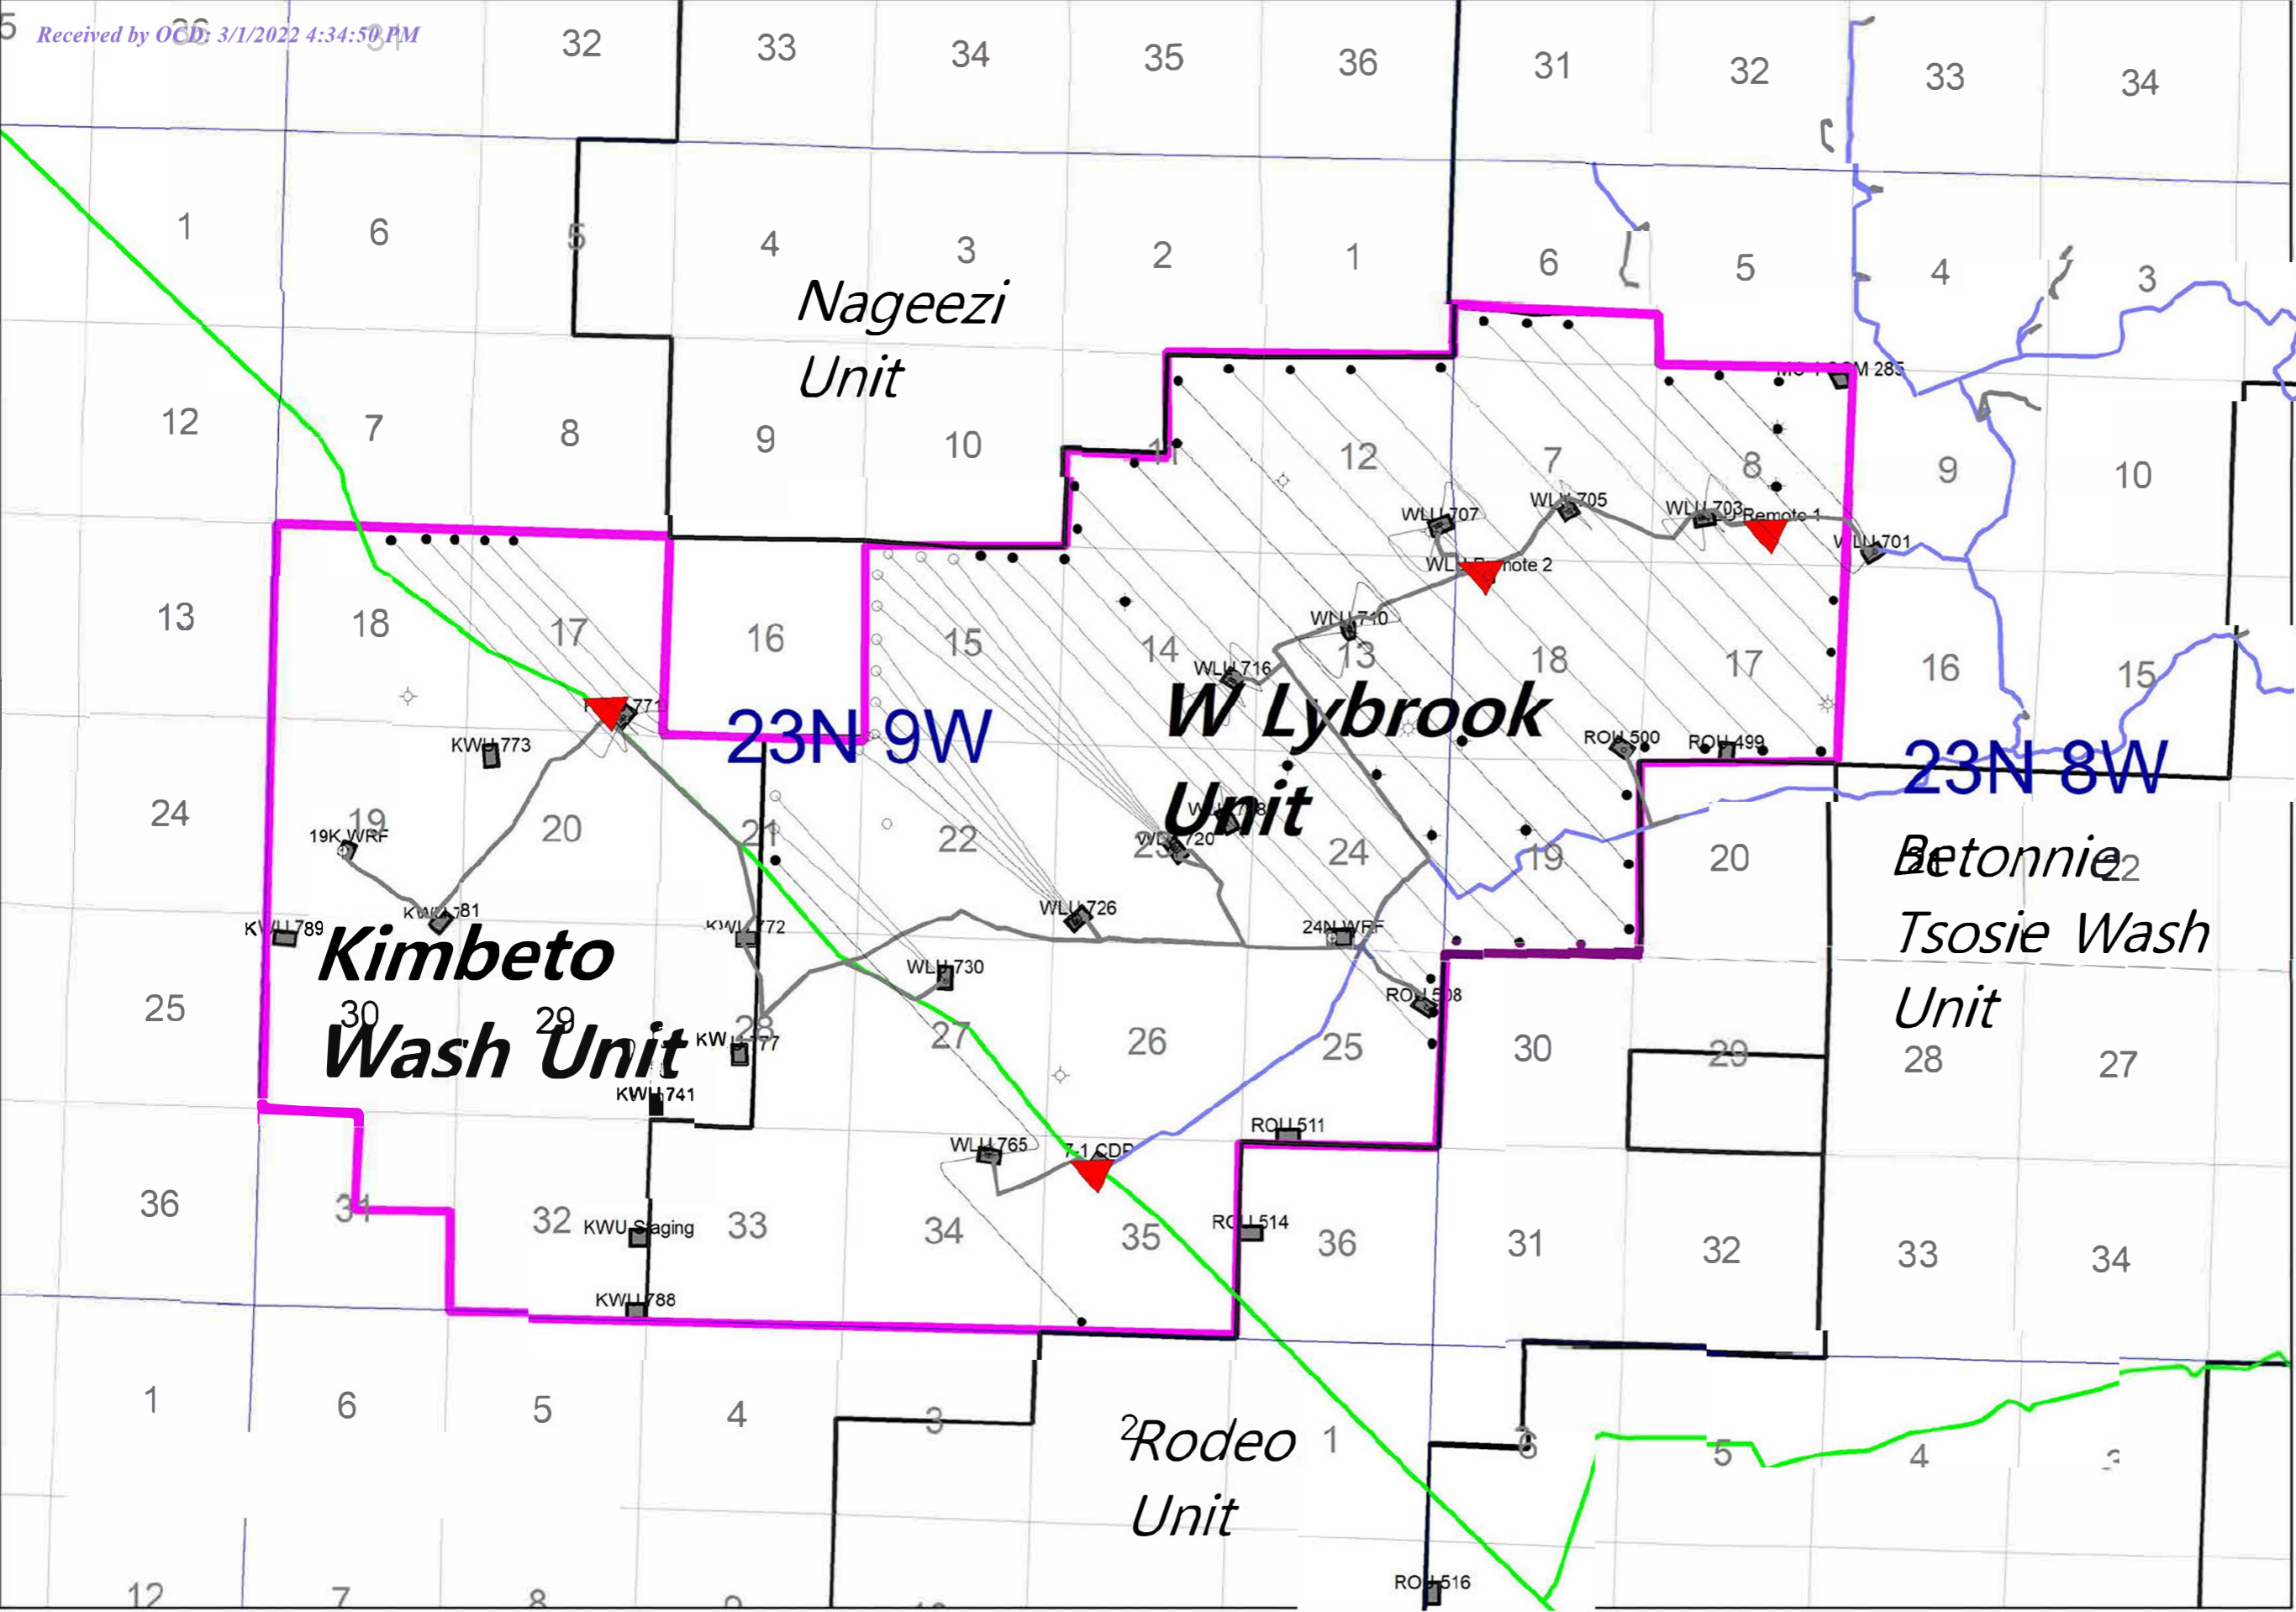

Professional Memberships

AAPL American Association of Petroleum Landmen
IPAA Independent Petroleum Association of America
Foundation for Natural Resources and Energy Law

Application and Request for Designation
Greater Lybrook Unit
Amendments to West Lybrook Unit
and Kimbeto Wash Unit Agreements

Enduring Resources
Attn: Alex B. Campbell
6300 South Syracuse Way, Suite 525
Centennial, CO 80111

Gentlemen:

Your application of February 10, 2022, filed with the Bureau of Land Management (BLM) Reservoir Management Group Santa Fe Office, requests the designation of the Greater Lybrook Unit Area, embracing 18,086.44 acres, more or less, in San Juan County, New Mexico, as logically subject to exploration and development under the unitization provisions of the Mineral Leasing Act, as amended.

Pursuant to public interest requirements and unit plan regulations 43 CFR 3180, the land requested as outlined on your plat marked Exhibit "A" and Exhibit "B", the Greater Lybrook Unit Area, San Juan County, New Mexico, is hereby designated as a logical unit area and has been assigned a pending agreement number NMNM144419X. This designation is for all oil and gas formations from the stratigraphic equivalent of the top of the Mancos Shale found at a measured depth of 3,933 feet beneath the surface down to the stratigraphic equivalent of a depth of 5,226 feet as encountered in the WPX Energy Nageezi Federal #1 well in Section 19, Township 23 North, Range 8 West, N.M.P.M. (API #30-045-263030000), and applies to horizontal and multi-lateral wells only and valid for a period of one year from the date of this letter.

For the purpose of the exploration and development unit agreement the following wells

- WLU #757H – 30-045-38263 Sec. 23-T23N-R9W NWSE
- WLU #758H – 30-045-38264 Sec. 23-T23N-R9W NWSE
- WLU #756H – 30-045-38262 Sec. 23-T23N-R9W NWSE
- WLU #720H – 30-045-38260 Sec. 23-T23N-R9W NWSE

BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. B5
Submitted by: Enduring Resources, LLC
Hearing Date: March 3, 2022
Case No. 22599

WLU #724H – 30-045-38261 Sec. 23-T23N-R9W NWSE

shall hereby be designated as the initial obligation wells drilled under section 9 of Unit agreement. All Units wells will be required to have the Unit name such as “Greater Lybrook Unit No. 1H” with consecutive well numbers.

As stated in paragraph 3 in the of your proposed unit agreement, unitized substances are as follows:

“All oil and gas in the interval from the stratigraphic equivalent of the top of the Mancos Shale found at a measured depth of 3,933 feet beneath the surface down to the stratigraphic equivalent of a depth of 5,226 feet as encountered in the WPX Energy Nageezi Federal #1 well in Section 19, Township 23 North, Range 8 West, N.M.P.M. (API #30-045-263030000), are unitized under the terms of this agreement and herein are called “unitized substances” (see type log attached as Exhibit “C”).”

Upon receiving an application by the unit operator with sufficient economic and technical justification and subsequent approval of the AO, an initial participating area shall be established for the Mancos formation encompassing all the unitized lands.

Any producible wells that exist in the unit area prior to unitization will not be considered for recognition as unit wells until after establishment of an initial participating area based on the aforementioned obligation wells. Any existing wells shall be handled per section 32 of the proposed Unit Agreement.

Your proposed use of an exploration and development Unit Agreement which is a modification of the Model onshore unit agreement for unproven areas in 43 CFR 3186.1 and submitted with your request to the BLM Reservoir Management Group Santa Fe Office is accepted. It is recognized that modifications to include Indian Lands and references to Federal Indian Minerals Office (FIMO) in the language of this agreement have been submitted voluntarily by the operator and that such language shall not adversely affect Federal lands or limit or alter the exclusive jurisdiction and responsibilities of the BLM Authorized Officer established by the Mineral Leasing Act of 1920, as amended, and regulations promulgated at 43 CFR 3180.

If conditions are such that further modification of said standard form is deemed necessary, two copies of the proposed modifications with appropriate justification must be re-submitted to this office for preliminary approval. In the absence of any type of land requiring special provisions or of any objections not now apparent, a duly executed agreement identical with said form, modified as outlined above, will be approved if submitted in approvable status within a reasonable period of time. However, notice is hereby given that the right is reserved to deny approval of any executed agreement submitted that, in our opinion, does not serve the public interest or does not have the full commitment of sufficient lands to afford effective control of operations in the unit area.

Please include the latest status of all acreage along with a separate recapitulation table of the latest commitment status of the interests in each tract when the executed agreement is submitted for final approval.

In preparing Exhibits “A” and “B”, the format of the sample exhibits of the model form shall be followed. A minimum of three copies of the executed agreement shall be submitted with your request for final approval.

Your application also contained a Unit Amendment for the Kimbeto Wash Unit (NMNM135255X) and a Unit Amendment for the West Lybrook Unit (NMNM135216X). The BLM approves the amendment language to timebound the existing units. This approval is subject to receiving like approval from FIMO.

Inasmuch as this unit area contains Indian leases, the unit operator must receive approval of this unit agreement from the FIMO before submitting to BLM for final approval.

As provided in 43 CFR 3165.3(b), you may request an administrative review of this decision before the State Director. Per 43 CFR 3165.4, you may appeal any instructions, orders, or decisions issued by the BLM New Mexico State Office directly to the Interior Board of Land Appeals pursuant to the regulations found at 43 CFR 4. A copy of Form 1842-1, *Information on Taking Appeals to the Interior Board of Land Appeals*, is enclosed.

Please contact Edward G. Fernandez, Petroleum Engineer, at efernand@blm.gov if you have any questions.

Sincerely,

**KYLE

APPLICATION OF ENDURING RESOURCES, LLC FOR (1) THE CREATION OF THE GREATER LYBROOK UNIT, EFFECTIVE OCTOBER 1, 2021; (2) TO AMEND ORDER NO. R-14051 TO FREEZE THE EXISTING WEST LYBROOK UNIT, EFFECTIVE OCTOBER 1, 2021; (3) TO AMEND ORDER NO. R-14084 TO FREEZE THE EXISTING KIMBETO WASH UNIT, EFFECTIVE OCTOBER 1, 2021; (4) TO EXPAND THE WEST LYBROOK; MANCOS POOL TO INCLUDE THE PROPOSED GREATER LYBROOK UNIT AND KIMBETO WASH UNIT AREAS; AND (5) TO CONTRACT THE BASIN MANCOS GAS POOL OUTSIDE THE PROPOSED GREATER LYBROOK UNIT AND KIMBETO WASH UNIT AREAS, SAN JUAN COUNTY, NEW MEXICO.

CASE NO. 22599

AFFIDAVIT OF RAFFAELLO SACERDOTI

Raffaello Sacerdoti, of lawful age and being first duly sworn, declares as follows:

1. My name is Raffaello Sacerdoti and I am employed by Enduring Resources, LLC. (“Enduring”) as a geologist. I am familiar with the application filed by Enduring in this case and have conducted a geologic study of the proposed unit area.

2. I have not previously testified before the Oil Conservation Division. My resume is attached as Enduring Exhibit C-1. I graduated from Colorado College in 2003 with a B.A. degree in Geology then received a master’s degree in Geology and Geological Engineering from the Colorado School of Mines in 2008. After graduating, I worked as a Geologist for Encana Oil and Gas in Denver from 2008 to 2013. In 2013, I joined Enduring as an Operations and Development Geologist where I have been responsible for completing complex geological assignments to optimize the ongoing development of company assets, assist in the valuation of acquisition targets, support Operations, Engineer and Land Departments. I am a member of the American Association of Petroleum Geologists and the Rocky Mountain Association of

Case No. 22599

Geologists. I believe that the foregoing education and work experience qualify me to testify as an expert in petroleum land matters.

3. The Unitized Interval will be defined as all oil and gas in the interval from the stratigraphic equivalent of the top of the Mancos Shale found at a measured depth of 3,933 feet beneath the surface down to the stratigraphic equivalent of a depth of 5,226 feet as encountered in the WPX Energy Nageezi Federal #1 well in Section 19, Township 23 North, Range 8 West, N.M.P.M. (API #30-045-26303). The proposed Unit Interval for the Greater Lybrook Unit matches the unitized interval for the existing West Lybrook Unit, but uses a new type log from the WPX Energy Nageezi Federal #1 because it has better modern, high-quality triple combination logs compared to the 1957 electric log from the Davis Oil Company Chaco #6 log that was used as the type log for the West Lybrook Unit.

4. The initial development objectives are the Gallup and Mancos silt members of the Mancos Formation.

5. **Enduring Exhibit C-2** is a type log for the Greater Lybrook Unit from the WPX Energy Nageezi Federal #1 well with the top of the Mancos Formations at approximately 3,933 feet measured depth and the base of the proposed unitized interval at 5,226 feet identified with a blue line and the initial target intervals identified with a green color shading over the Gallup and Mancos silt members.

6. **Enduring Exhibit C-3** is a subsea-level structure map that I prepared on the top of the Mancos Formation with the contour intervals at 50 feet and data points provided in red. This exhibit demonstrates that the structure gently dips to the north. I do not observe any faults, pinch outs, or other geologic impediments to efficiently and effectively developing this formation under the proposed unit area with a unitized plan of operation.

7. **Enduring Exhibit C-4** is a subsea-level structure map that I prepared on the base of the proposed unit interval as correlated into offset wells from the stratigraphic equivalent of 5,071 feet in the Davis Oil Company Chaco # 6 well. The contour intervals are at 50 feet with data points provided in red.

8. The proposed Greater Lybrook Unit is outlined in magenta and encompasses the Kimbeto Wash Unit and West Lybrook Unit areas on the maps. The locations for the type log wells (red and blue stars) and cross section lines are shown on these maps in addition to where existing horizontal and vertical wells are located.

9. I chose the wells used for the cross section because they contain good gamma ray, resistivity, and density porosity logs and are representative of the geology underlying the unit area.

10. **Enduring Exhibit C-5** is a north-south stratigraphic cross-section using the three wells depicted in Exhibits C-3 and C-4 from A to A'. I have identified on the cross section the top and bottom of the unitized interval, as well as the initial target intervals. This cross section demonstrates that the targeted intervals are continuous across the unitized area from a north to south direction and do not change between the Davis Oil Company Chaco # 6 type well and the Nageezi Federal #1 type well.

11. **Enduring Exhibit C-6** is a west-east stratigraphic cross-section using the five wells depicted in Exhibits C-3 and C-4 from B to B'. I have identified on the cross section the top and bottom of the unitized interval, as well as the initial target intervals. This cross section demonstrates that the targeted intervals are continuous across the unitized area from a west to east direction.

12. For the reasons stated in Anita Ashland's affidavit, it is my opinion that the unitized interval in the proposed Greater Lybrook Unit area can be more efficiently and effectively developed under a common development plan than if the acreage were developed separately under the existing Kimbeto Wash Unit and West Lybrook Unit.

13. It is also my opinion that the Basin Mancos Gas Pool should be contracted out of the proposed Greater Lybrook Unit area and the Kimbeto Wash Unit area in favor of expanding the West Lybrook Unit Mancos Pool.

14. In my opinion, the approval of this unit, and the contraction of the Basin Mancos Gas Pool and the expansion of the West Lybrook Unit Mancos Pool, as requested, are in the best interests of conservation, the prevention of waste and the protection of correlative rights.

15. Enduring Exhibits C-1 through C-6 were either prepared by me or compiled under my direction and supervision.

- Technical expertise in geologic mapping, petrophysics, geochemistry, and geomechanics
- Operations and development experience of large-scale horizontal drilling programs in unconventional plays
- Intimate knowledge of North American petroleum systems

WORK EXPERIENCE**Geologist, Enduring Resources, Denver, CO****9 Years (March 2013-Present)****Geologist, San Juan Basin, NM****4 Years (April 2018-Present)**

I am currently working as a geologist for Enduring Resources with a focus on the San Juan Basin and our Gallup Formation horizontal development program. Enduring bought this asset from WPX Energy in April of 2018 and to date I have planned the development and overseen the drilling of 33 new horizontal wells in the play. I have been the senior geologist on staff since April 2020 and am responsible for all the geologic work of the company which ranges from optimizing the ongoing development of company assets to assisting in evaluations of acquisition targets and providing support to the Operations, Engineering and Land Departments.

Exploration Geologist**3.5 Years (November 2014-April 2018)**

Between Enduring's sale of their Midland Basin assets to AEP in 2014 and their acquisition of the SJB project, I worked on data room evaluations of prospects across the Lower 48. I was intimately involved with evaluating and bidding on over 25 deals in 10 basins ranging in value from \$250MM to \$3B. My role during these evaluations was to review and corroborate presented geologic maps and models and build future development plans to determine the quality and quantity of all undeveloped well locations. As part of this process, I built geologic databases and maps for the DJ, Powder River, Delaware, Williston, Green River and San Juan Basins, integrating stratigraphic correlations, petrophysical log analysis, oil/gas-in-place mapping, production mapping, mapping of drilling activity, understanding of historic drilling and completions practices, and multivariate analysis, to predict the results of future wells drilled and completed with modern technology.

Operations and Development Geologist, Midland Basin, TX 1 Year 8 Months (March 2013-November 2014)

My first role at Enduring was as the operations and development geologist in the Wolfcamp shale play in the southern Midland Basin. In the beginning of 2013, the Wolfcamp was an emerging play and Enduring was at the forefront of proving-up the multiple stacked targets in the basin. I managed the geologic operations of our development program, ultimately planning for and overseeing the drilling of 85 horizontal Wolfcamp wells with up to 5 rigs simultaneously drilling. My responsibilities included working with petrophysical and geomechanical data to pick horizontal targets, building geo progs, geosteering, designing and implementing micro-seismic monitoring, coring, and logging programs. Core, log, and micro-seismic data were continuously evaluated, and new learnings were utilized in the optimization of our ongoing drilling and completion program.

Geologist, Encana Oil and Gas (USA) Inc., Denver, CO**4 Years 6 Months (Sept 2008-March 2013)****Piceance Basins, CO****2 Years (Feb 2011-March 2013)**

In my role as the operations and development geologist for Encana's Northern Piceance Basin asset I was responsible for all geologic evaluations and operations of their 100,000 plus acre Big Jimmy Unit. This area, located on the plateau north of Encana's North Parachute Ranch, is a tight-gas sand play targeting the Williams Fork and Iles formations which, at the time we exploited with multi-well-pad (28-42 wells/pad) directional drilling. Daily responsibilities included well planning, overseeing wireline logging jobs and collaborating on completions designs. Development projects included OGIP mapping, long term full-field development planning, well permitting, and production and spacing analysis. During this time, I worked together with a reservoir engineer to create a 30-yr development plan of the Big Jimmy Unit that was marketed to joint venture partners resulting in Encana closing a multi-billion dollar deal with Nucor for the future development of 4,000 drilling locations. In addition to the closing of the Nucor deal, key team accomplishments included proving up our high-volume slick-water completion design and our 32 wells per section, 2-column well spacing pattern.

Exhibit No. C1
Submitted by: Enduring Resources, LLC
Hearing Date: March 3, 2022
Case No. 22599

Jonah Field, Hoback Basin, WY**1 Year (Feb 2010-Feb 2011)**

On the Jonah team, I was the geologist responsible for the operations and play assessment of the Normally Pressured Lance (NPL) play adjacent to the Jonah Field. I was also tasked with the planning, drilling and completion of the Jonah Federal 45-08H, the first Encana operated horizontal well to be drilled in the Green River/Hoback Basin. This well was successfully drilled in July of 2010. My play assessment of the NPL consisted of OGIP mapping, production analysis and cost assessments for future development scenarios.

Wind River & Green River Basins, WY**1 Year 5 Months (Sept 2008-Feb 2010)**

My initial role at Encana was to oversee geologic operations and field assessment of the Wamsutter field in the Green River Basin, WY. I was responsible for making geologic prognosis, daily communications with field personnel, and working with completions engineers to optimize frac designs. Development projects included OGIP mapping of the Moxa Arch for the divestiture of Encana's acreage in the area and studying water production from the Ericson Formation to help optimize lower Almond Formation completions. I was then tasked with geologic operations and field assessment for the Frenchie Draw field in the Wind River basin which included providing geologic support for a Fort Union Formation drilling program. Development projects included generating OGIP maps, and mapping pressure and temperature gradients throughout the basin using DSTs and DFIT data to identify the top of the over-pressured gas cell in the Fort Union Formation.

RE: Application of Enduring Resources, LLC for (1) the creation of the Greater Lybrook Unit, effective October 1, 2021; (2) to amend Order No. R-14051 to freeze the existing West Lybrook Unit, effective October 1, 2021; (3) to amend Order No. R-14804 to freeze the existing Kimbeto Wash Unit, effective October 1, 2021; (4) to expand the West Lybrook; Mancos Pool to include the proposed Greater Lybrook Unit and Kimbeto Wash Unit Areas; and (5) to contract the Basin Mancos Gas Pool outside the proposed Greater Lybrook Unit and Kimbeto Wash Unit Areas, San Juan County, New Mexico.

Ladies and Gentlemen:

This letter is to advise you that Enduring Resources, LLC has filed the enclosed application with the New Mexico Oil Conservation Division.

During the COVID-19 Public Health Emergency, state buildings are closed to the public and hearings will be conducted remotely. The hearing will be conducted on March 3, 2022 beginning at 8:15 a.m. To participate in the electronic hearing, see the instructions posted on the OCD Hearings website: <https://www.emnrd.nm.gov/ocd/hearing-info/>.

You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date. Parties appearing in cases are required by Division Rule 19.15.4.13.B to file a Pre-hearing Statement four business days in advance of a scheduled hearing. This statement must be filed online or in person at the Division's Santa Fe office and should include: the names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this matter, please contact Anita Ashland at (303) 350-5116 or aashland@enduringresources.com.

Sincerely,

A handwritten signature in blue ink, appearing to read "Adam G. Rankin".
