James Parrot, attorney in fact and authorized representative of Legacy Reserves Operating LP, the Applicant herein, being first duly sworn, upon oath, states and provides notice that the evidentiary record as created by the submitted "Exhibit Packet" to the above-referenced Applications is being resubmitted. This resubmitted Exhibit Packet contains modifications consisting of minor changes to the geology and engineering exhibits, which includes updates to Exhibit D-3 Ruby Stratigraphic Cross Section and the inclusion of Exhibit D-4 Geology Conclusions, and other updates to relevant dates, pagination, and to include relevant signatures. Additionally, the Chronology of Events and various lands exhibits, Exhibits C-3 and C-4, were updated to reflect the latest updates to WI ownership due to executions of elections, JOAs, and lease assignments, which occurred since the last packet was filed. The changes were necessitated by the Division's decision to continue the applications over Legacy's objection.

ENERGY, MINERALS, AND NATURAL RESOURCES DEPARTMENT  
OIL CONSERVATION DIVISION**

**APPLICATION OF LEGACY RESERVES  
OPERATING LP FOR A HORIZONTAL SPACING  
UNIT AND COMPULSORY POOLING, LEA  
COUNTY, NEW MEXICO**

Case No. 22230

**APPLICATION**

Legacy Reserves Operating LP (“Legacy”) OGRID No. 294281 through its undersigned attorneys, hereby files this Application with the Oil Conservation Division (“Division”) pursuant to the provisions of NMSA 1978, Section 70-2-17, for an order (1) creating a standard 320-acre, more or less, spacing and proration unit comprised of the W $\frac{1}{2}$ E $\frac{1}{2}$  of Section 15 and W $\frac{1}{2}$ E $\frac{1}{2}$  of Section 22, Township 19 South, Range 33 East, N.M.P.M, Lea County, New Mexico, and (2) pooling all uncommitted mineral interests in the Bone Spring formation, designated as an oil pool, underlying said unit.

In support of its Application, Legacy states the following:

1. Legacy is a working interest owner in the proposed horizontal spacing and proration unit (“HSU”) and has a right to drill a well thereon.
2. Legacy proposes and dedicates the Ruby Fed Com 501H Well as an initial well to the HSU.
3. Legacy proposes the Ruby Fed Com 501H Well, an oil well, to be horizontally drilled from a surface location in the NE $\frac{1}{4}$ NE $\frac{1}{4}$  of Section 15, Township 19 South, Range 33 East, N.M.P.M, to a bottom hole location in the SW $\frac{1}{4}$ SE $\frac{1}{4}$  of Section 22, Township 19 South, Range 33 East, N.M.P.M.

4. The well is orthodox in its location, and its take points and lateral comply with Statewide Rules for setbacks.

5. Legacy has sought in good faith, but has been unable to obtain, voluntary agreement from all interest owners to participate in the drilling of the well or in the commitment of their interests to the well for its development within the proposed HSU.

6. The pooling of all interests in the Bone Spring formation within the proposed HSU, and creation of the spacing unit, will avoid the drilling of unnecessary wells, prevent waste and protect correlative rights. In order to provide for its just and fair share of the oil and gas underlying the subject lands, Legacy requests that all uncommitted interests in this HSU be pooled and that Legacy be designated the operator of the proposed horizontal well and HSU.

WHEREFORE, Legacy requests that this Application be set for hearing on October 23, 2021, before an Examiner of the Oil Conservation Division, and after notice and hearing as required by law, the Division enter an order:

A. Approving the creation of a standard 320-acre, more or less, spacing and proration unit comprised of the W $\frac{1}{2}$ E $\frac{1}{2}$  of Section 15 and the W $\frac{1}{2}$ E $\frac{1}{2}$  of Section 22, Township 19 South, Range 33 East, Lea County, New Mexico;

B. Pooling all uncommitted mineral interests in the Bone Spring formation underlying the proposed HSU.

C. Approving the Ruby Fed Com 501H Well as the well for the HSU.

D. Designating Legacy as operator of this HSU and the horizontal well to be drilled thereon;

E. Authorizing Legacy to recover its costs of drilling, equipping, and completing the well;

F. Approving actual operating charges and costs of supervision, to the maximum extent allowable, while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

G. Setting a 200% charge for the risk assumed by Legacy in drilling and completing the well in the event a working interest owner elects not to participate in the well.

Respectfully submitted

**Case No. 22230 – 22231**

**AFFIDAVIT OF BRETT WILLIS**

Brett Willis, being first duly sworn upon oath, deposes and states as follows:

1. My name is Brett Willis, and I am employed by Legacy Reserves Operating LP (“Legacy”) as a Senior Landman.

2. I have not previously testified before the New Mexico Oil Conservation Division (“Division”). I have several years of experience in petroleum land matters, and I have worked directly or in a supervisory role with the properties that are the subject of these matters. I ask that the Division accept my credentials as those of an expert witness in petroleum land matters and made a matter of record.

a. I have a Bachelor of Arts Degree in Marketing from Oral Roberts University and a Master of Business Administration in Oil and Gas Management from the Aberdeen Business School of Robert Gordon University.

b. I have a Certified Professional Landman (CPL) certification from the American Association of Professional Landmen (AAPL).

c. I have worked in petroleum land matters since April 2011, which includes experience in the Permian Basin.

3. I am submitting this affidavit in support of Legacy's applications in the above-referenced cases pursuant to 19.15.4.12.(A)(1) NMAC.

4. I am familiar with the applications filed by Legacy in these consolidated cases and the status of the lands in the subject area.

5. The uncommitted mineral owners subject to the requested relief of these cases have not indicated any objection to the presentation of these applications by affidavit, and I do not anticipate any objection at the hearing.

6. Under these consolidated cases, Legacy seeks orders from the Division (1) creating standard 320-acre, more or less, spacing and proration units comprised of lands in Sections 15 and 22, Township 19 South, Range 33 East, N.M.P.M., Lea County, New Mexico, and (2) pooling all uncommitted mineral interests in the Bone Spring formation as follows:

a. In **Case No. 22230**, Legacy seeks to create a spacing and proration unit and pool all uncommitted mineral interest owners underlying a standard 320-acre horizontal unit comprised of the W $\frac{1}{2}$ E $\frac{1}{2}$  of Section 15 and W $\frac{1}{2}$ E $\frac{1}{2}$  of Section 22, and to dedicate the **Ruby Fed Com 501H Well** (API No. Pending) as an initial well to the unit, to be horizontally drilled from a surface location in the NE $\frac{1}{4}$ NE $\frac{1}{4}$  of Section 15, to a bottom hole location in the SW $\frac{1}{4}$ SE $\frac{1}{4}$  of Section 22.

b. In **Case No. 22231**, Legacy seeks to create a spacing and proration unit and pool all uncommitted mineral interest owners underlying a standard 320-acre horizontal unit comprised of the E $\frac{1}{2}$ E $\frac{1}{2}$  of Section 15 and E $\frac{1}{2}$ E $\frac{1}{2}$  of Section 22, and to dedicate the **Ruby Fed Com 502H Well** (API No. Pending) as an initial well to the unit, to be horizontally drilled from a surface location in the NW $\frac{1}{4}$ NE $\frac{1}{4}$  of Section 15, to a bottom hole location in the SE $\frac{1}{4}$ SE $\frac{1}{4}$  of Section 22.

7. **Legacy Exhibit C-1** is a general location map showing the proposed Bone Spring formation spacing units. The acreage subject to the applications are federal lands.

8. **Legacy Exhibit C-2** contains the Form C-102s for the proposed Bone Spring wells to be drilled and completed in the subject units. The location of each well is orthodox and meets the Division's offset requirements.

9. A review of the Bone Spring Formation underlying the subject lands indicated that there are no overlapping spacing units in the Bone Spring Formation.

10. **Legacy Exhibit C-3** outlines the proposed Bone Spring units and tracts therein.

11. **Legacy Exhibit C-4** sets forth the parties being pooled, the nature of their interests, and their last known address. The exhibit identifies the tract number, tract percentage interest, and spacing unit percentage interest for each mineral owner. In compiling these addresses, I conducted a diligent search of the public records in Lea County, New Mexico, where the well(s) is located, and of phone directories and did computer searches to locate the contact information for parties entitled to notification. All working interest owners and overriding royalty interest owners were locatable and noticed, and there are no unleased mineral interest owners. Legacy caused notice to be published in the Albuquerque Journal and in the Current-Argus, newspapers of general circulation in Lea County, New Mexico. I provided the law firm of Beatty & Wozniak, P.C. with the names and addresses for these mineral owners and instructed that each owner be provided notice of the hearing in these matters.

12. **Legacy Exhibits C-5** contains the well proposal letter(s) sent in July 2021 to each mineral interest owner.

13. **Legacy Exhibit C-6** contains the AFE for each proposed well. The estimated costs of the wells set forth in the AFEs is fair, reasonable, and comparable to the costs of other wells of similar depths and lengths drilled in this area of New Mexico.

14. **Legacy Exhibit C-7** sets forth a chronology of the contacts with owners. Legacy has made a good faith effort to obtain voluntary joinder of the working interest owners in the proposed wells.

15. The interest owners being pooled have been contacted regarding the proposed wells but have failed or refused to voluntarily commit their interests in the wells. However, Legacy remains in discussions with some of the interest owners to voluntarily enter into a Joint Operating Agreement. If a mutually agreeable Joint Operating Agreement is reached between Legacy and another interest owner or owners, Legacy requests that the voluntary agreement become operative and supersede the Division's order for said parties, except to the extent the Division deems it necessary to maintain spacing criteria for the purpose of conservation, the prevention of waste, and the protection of correlative rights.

16. Legacy requests overhead and administrative rates of \$8,000/month for drilling each well and \$800/month for producing each well. These rates are fair and comparable to the rates charged by other operators for wells of this type in this area of southeastern New Mexico. Legacy requests that these rates be adjusted periodically as provided in the COPAS Accounting Procedure.

17. Legacy requests the maximum cost, plus 200% risk charge be assessed against nonconsenting working interest owners.

18. Legacy requests that it be designated operator of the units and wells.

19. **Exhibit C-1** through **Exhibit C-7** were either prepared by me or compiled from Legacy's company business records under my direct supervision.

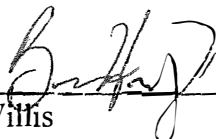

20. The granting of these applications is in the best interest of conservation, the prevention of waste, and the protection of correlative rights, and will avoid the drilling of unnecessary wells.

APPLICATIONS OF LEGACY RESERVES  
OPERATING LP FOR A HORIZONTAL SPACING  
UNIT AND COMPULSORY POOLING, LEA  
COUNTY, NEW MEXICO

Case No. 22230 – 22231

AFFIDAVIT OF JOHN STEWART

John Stewart, being first duly sworn upon oath, deposes and states as follows:

1. My name is John Stewart, and I am employed by Legacy Reserves Operating LP (“Legacy”) as a Senior Geologist.
2. I have not previously testified before the New Mexico Oil Conservation Division (“Division”). I have fifteen plus years of experience in petroleum geological matters, and I am familiar with the subject applications and the geology involved. I ask that the Division accept my credentials as those of an expert witness in petroleum geological matters and made a matter of record.
  - a. I have a Bachelor of Science Degree in Geology from The University of Texas of the Permian Basin and a Master of Science Degree in Geology from The University of Texas of the Permian Basin.
  - b. I have worked in matters of petroleum geology since 2006, which includes experience in the Permian Basin.
3. I am submitting this affidavit in support of Legacy’s applications in the above-referenced cases pursuant to 19.15.4.12.(A)(1) NMAC.

4. **Legacy Exhibit D-1** is a base map of the lands showing the proposed Bone Spring formation spacing units and wells.

5. **Legacy Exhibit D-2** is a structure map showing the depth (subsea) to the top of the 2<sup>nd</sup> Bone Spring formation, a marker that defines the top of the target interval for the proposed well(s). Contour interval of 25'. The units being pooled are outlined in bold, and the proposed wells are identified. The structure map shows regional down-dip to the southeast. I do not observe any faulting, pinchouts, or other geologic impediments to developing this target interval.

6. **Legacy Exhibit D-3** is a stratigraphic cross-section flattened on the top of the 2<sup>nd</sup> Bone Spring formation. Each well in the cross-section contains a gamma ray, resistivity, and porosity log. The cross-section demonstrates continuity and consistent thickness across the target zone, and the well logs on the cross-section give a representative sample of the 2<sup>nd</sup> Bone Spring Sand. The landing zone is highlighted on the exhibit.

7. Based on the attached exhibits, I hereby conclude as follows:
- a. The target formation is present and continuous throughout the lands subject to the applications.
  - b. The horizontal spacing and proration unit is justified from a geologic standpoint.
  - c. There are no structural impediments or faulting that will interfere with horizontal development.
  - d. Each quarter-quarter section in the unit will contribute more or less equally to production, and I can confirm each quarter section along the lateral will also contribute more or less equally to production.

e. To best accommodate our development, a North-South well orientation was chosen. The wells will run sub-perpendicular to the inferred orientation of the maximum horizontal stress.

8. **Exhibit D-1** through **Exhibit D-3** were either prepared by me or compiled from Legacy's company business records under my direct supervision.

9. The granting of these applications is in the best interest of conservation, the prevention of waste, and the protection of correlative rights, and will avoid the drilling of unnecessary wells.

10. I hereby swear that to the best of my knowledge and belief, all of the matters set forth herein and in the exhibits are true, correct, and accurate.

Re: Application of Legacy Reserves Operating LP for horizontal spacing and compulsory pooling, Lea County, New Mexico  
Ruby Fed Com 501H Well (Case No. 22230)

Dear Interest Owners:

This letter is to advise you that Legacy Reserves Operating LP (“Legacy”) has filed the enclosed application, Case Nos. 22230, with the New Mexico Oil Conservation Division for creating a standard horizontal spacing unit and the compulsory pooling of the Bone Spring formation involving the Ruby Fed Com 501H Well.

In Case No. 22230, Legacy plans to space and pool the W½E½ of Section 15 and W½E½ of Section 22, Township 19 South, Range 33 East, N.M.P.M., Lea County, New Mexico, a standard unit encompassing 320 acres, more or less, dedicated to the Ruby Fed Com 501H Well.

A hearing has been requested before a Division Examiner on November 4, 2021, and the status of the hearing can be monitored through the Division’s website. Division hearings will commence at 8:15 a.m., traditionally in Porter Hall at the Oil Conservation Division’s Santa Fe Offices located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. However, under the COVID-19 Public Health Emergency, the hearing will be conducted remotely. For information about remote access, you can visit the Division’s website at: <https://www.emnrd.nm.gov/ocd/hearing-info/> or call (505) 476-3441.

You are being notified as an interest owner and are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases are required by Division Rule 19.15.4.13.B NMAC to file a Prehearing Statement at least four business days in advance of a scheduled hearing, but in no event later than 5 p.m. mountain time on the Thursday preceding the scheduled hearing date.

This statement must be filed at the Division's Santa Fe office at the above specified address and should include: The names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this matter, please contact Brett Willis at (720) 943-5248 or at [bwillis@legacyreserves.com](mailto:bwillis@legacyreserves.com).

Sincerely,

RETURN RECEIPT REQUESTED

TO: ALL INTEREST OWNERS SUBJECT TO SPACING AND POOLING PROCEEDING

Re: Application of Legacy Reserves Operating LP for horizontal spacing and compulsory pooling, Lea County, New Mexico  
Ruby Fed Com 502H Well (Case No. 22231)

Dear Interest Owners:

This letter is to advise you that Legacy Reserves Operating LP (“Legacy”) has filed the enclosed application, Case Nos. 22231, with the New Mexico Oil Conservation Division for creating a standard horizontal spacing unit and the compulsory pooling of the Bone Spring formation involving the Ruby Fed Com 502H Well.

In Case No. 22231, Legacy plans to space and pool E½E½ of Section 15 and E½E½ of Section 22, Township 19 South, Range 33 East, N.M.P.M., Lea County, New Mexico, a standard unit encompassing 320 acres, more or less, dedicated to the Ruby Fed Com 502H Well.

A hearing has been requested before a Division Examiner on November 4, 2021, and the status of the hearing can be monitored through the Division’s website. Division hearings will commence at 8:15 a.m., traditionally in Porter Hall at the Oil Conservation Division’s Santa Fe Offices located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. However, under the COVID-19 Public Health Emergency, the hearing will be conducted remotely. For information about remote access, you can visit the Division’s website at: <https://www.emnrd.nm.gov/ocd/hearing-info/> or call (505) 476-3441.

You are being notified as an interest owner and are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases are required by Division Rule 19.15.4.13.B NMAC to file a Prehearing Statement at least four business days in advance of a scheduled hearing, but in no event later than 5 p.m. mountain time on the Thursday preceding the scheduled hearing date.

This statement must be filed at the Division's Santa Fe office at the above specified address and should include: The names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this matter, please contact Brett Willis at (720) 943-5248 or at [bwillis@legacyreserves.com](mailto:bwillis@legacyreserves.com).

Sincerely,

  
Jobediah Rittenhouse

Attorney for Legacy Reserves Operating LP

RETURN RECEIPT REQUESTED

TO: ALL INTEREST OWNERS SUBJECT TO SPACING AND POOLING PROCEEDING

Re: **Supplemental Information Letter**  
Application of Legacy Reserves Operating LP for horizontal spacing and compulsory pooling, Lea County, New Mexico  
Ruby Fed Com 502H Well (Case No. 22231)

Dear Interest Owners:

Reference is made to that certain letter dated October 8, 2011 ("Letter"), regarding the subject Application of Legacy Reserves Operating LP ("Legacy") filed in Case No. 22231 with the New Mexico Oil Conservation Division to create a standard horizontal spacing unit and the compulsory pooling of the Bone Spring formation involving the Ruby Fed Com 502H Well. A copy of the Application was enclosed with Letter.

The Application incorrectly identified the Surface Hole Location ("SHL") for the Ruby Fed Com 502H Well. For clarification purposes, Legacy submits the following supplemental information for the subject Application, which accurately sets forth the SHL for the Ruby Fed Com 502H Well. This information is for notice purposes only and requires no action on your part.

	<b>Tw</b>	<b>Rng</b>	<b>Sec.</b>
<b>Surface Hole Location</b>	19 South	33 East	15 (NE $\frac{1}{4}$ NE $\frac{1}{4}$ )

If you have any questions regarding this supplemental information, please contact Brett Willis at (720) 943-5248 or at [bwillis@legacyreserves.com](mailto:bwillis@legacyreserves.com).

Sincerely,

  
\_\_\_\_\_  
Jobediah Rittenhouse
