3. Operator proposes the supervision and risk charges for the Well(s) described in Exhibit A.
4. Operator identified the owners of uncommitted interests in oil and gas minerals in the Unit and provided evidence that notice was given.
5. The Application was heard by the Hearing Examiner on the date specified above, during which Operator presented evidence through affidavits in support of the Application. No other party presented evidence at the hearing.

**CONCLUSIONS OF LAW**

6. OCD has jurisdiction to issue this Order pursuant to NMSA 1978, Section 70-2-17.
7. Operator is the owner of an oil and gas working interest within the Unit.

10. Operator has the right to drill the Well(s) to a common source of supply at the depth(s) and location(s) in the Unit described in Exhibit A.
11. The Unit contains separately owned uncommitted interests in oil and gas minerals.
12. Some of the owners of the uncommitted interests have not agreed to commit their interests to the Unit.
13. The pooling of uncommitted interests in the Unit will prevent waste and protect correlative rights, including the drilling of unnecessary wells.
14. This Order affords to the owner of an uncommitted interest the opportunity to produce his just and equitable share of the oil or gas in the pool.

**ORDER**

15. The uncommitted interests in the Unit are pooled as set forth in Exhibit A.
16. The Unit shall be dedicated to the Well(s) set forth in Exhibit A.
17. Operator is designated as operator of the Unit and the Well(s).
18. If the location of a well will be unorthodox under the spacing rules in effect at the time of completion, Operator shall obtain the OCD's approval for a non-standard location in accordance with 19.15.16.15(C) NMAC.

26. No later than sixty (60) days after the expiration of the period to file a written objection to the Actual Well Costs or OCD's order determining the Reasonable Well Costs, whichever is later, each owner of a Pooled Working Interest who paid its share of the Estimated Well Costs shall pay to Operator its share of the Reasonable Well Costs that exceed the Estimated Well Costs, or Operator shall pay to each owner of a Pooled Working Interest who paid its share of the Estimated Well Costs its share of the Estimated Well Costs that exceed the Reasonable Well Costs.
27. The reasonable charges for supervision to drill and produce a well ("Supervision Charges") shall not exceed the rates specified in Exhibit A, provided however that the rates shall be adjusted annually pursuant to the COPAS form entitled "Accounting Procedure-Joint Operations."

**ORDER**

The Director of the New Mexico Oil Conservation Division (“OCD”), having heard this matter through a Hearing Examiner on June 3, 2021, and after considering the testimony, evidence, and recommendation of the Hearing Examiner, issues the following Order.

**FINDINGS OF FACT**

1. Matador Production Company (“Operator”) submitted an application (“Application”) requesting an extension to commence drilling the subject well as required by Order R-21272.
2. Operator identified the owners of uncommitted interests in oil and gas minerals in the Unit and provided evidence that notice of the Application was given.
3. The Application was heard by the Hearing Examiner, during which Operator presented evidence through affidavits in support of the Application. No other party presented evidence at the hearing.

**CONCLUSIONS OF LAW**

4. OCD has jurisdiction to issue this Order pursuant to NMSA 1978, Section 70-2-17.
5. Operator satisfied the notice requirements for the Application and the hearing as required by 19.15.4.12 NMAC.
6. OCD satisfied the notice requirements for the hearing as required by 19.15.4.9 NMAC.

**ORDER**

7. The period to commence drilling and/or completing the subject well is extended until April 30, 2022.
8. This Order shall terminate automatically if Operator fails to comply with Paragraph 7 unless prior to termination Operator applies, and OCD grants, to amend Order R-21272 for good cause shown.

AFFIDAVIT OF SAM PRYOR

Sam Pryor, of lawful age and being first duly sworn, declares as follows:

1. My name is Sam Pryor. I work for MRC Energy Company, an affiliate of Matador Production Company (“Matador”), as a Vice President – Federal Lands.
2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters. My credentials as a petroleum landman have been accepted by the Division and made a matter of public record.
3. I am familiar with the application filed by Matador in this newly filed case and the status of the development efforts for the pooled spacing unit.
4. Under Case No. 20904, the Division entered Order R-21267 on April 28, 2020. This Order created a standard 320-acre horizontal well spacing unit in the Bone Spring formation (Getty; Bone Spring [27470]) underlying the N/2 N/2 of Sections 21 and 22, Township 20 South, Range 29 East, NMPM, Eddy County, New Mexico. The Order further dedicated the **Michael K&B 2122 Fed Com #121H** as the initial well in the spacing unit and required the commencement of drilling by April 28, 2021.
5. The deadline to commence drilling of this initial well was subsequently extended to April 28, 2022, pursuant to Order R-21267-A.

3

6. Matador is eager to develop this acreage and has previously filed its application for a federal APD for the initial well. Matador has been unable to drill the initial well yet because our federal APD has not been approved due to the pending resolution of competing Federal Development Areas over this acreage. The Development Area process with the BLM involved competing proposals/protests of at least three different operators and included discussions with the BLM and these other operators regarding the competing development plans. Matador has been negotiating with these protesting operators for over a year and has recently entered into agreements with both operators to resolve these issues. Matador now anticipates that our federal APD and Development Area will be approved in the relatively near future without further protest.

7. Once Matador's previously filed federal APD is approved, Matador intends to promptly drill the initial well under the order. Good cause therefore exists to extend the deadline to commence drilling under the order for a year, until April 28, 2023.

8. None of the working interest owners that remain subject to these pooling orders have been asked at this time to make an election on the applicable well, or to pay their estimated share of the costs to drill, complete and equip the applicable well.

9. The granting of this application will prevent waste and protect correlative rights.

STATE OF NEW MEXICO  
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES  
OIL CONSERVATION DIVISION

APPLICATION OF MATADOR PRODUCTION  
COMPANY TO AMEND ORDER NO. R-21271 and  
R-21271-A, EDDY COUNTY, NEW MEXICO.

CASE NO. 22710  
(Order R-21271 and 21271-A)

AFFIDAVIT OF SAM PRYOR

Sam Pryor, of lawful age and being first duly sworn, declares as follows:

1. My name is Sam Pryor. I work for MRC Energy Company, an affiliate of Matador Production Company (“Matador”), as a Vice President – Federal Lands.

2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters. My credentials as a petroleum landman have been accepted by the Division and made a matter of public record.

3. I am familiar with the application filed by Matador in this newly filed case and the status of the development efforts for the pooled spacing unit.

4. Under Case No. 20908, the Division entered Order R-21271 on April 30, 2020. This Order created a standard 320-acre horizontal well spacing unit in the Wolfcamp formation (Burton Flat; Wolfcamp, East (Oil) [98315]) underlying the N/2 N/2 of Sections 21 and 22, Township 20 South, Range 29 East, NMPM, Eddy County, New Mexico. The Order further dedicated the **Michael K&B 2122 Fed Com #201H** as the initial well in the spacing unit and required the commencement of drilling by April 30, 2021.

5. The deadline to commence drilling of this initial well was subsequently extended to April 30, 2022, pursuant to Order R-21271-A.

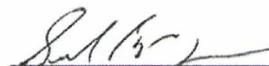

6. Matador is eager to develop this acreage and has previously filed its application for a federal APD for the initial well. Matador has been unable to drill the initial well yet because our federal APD has not been approved due to the pending resolution of competing Federal Development Areas over this acreage. The Development Area process with the BLM involved competing proposals/protests of at least three different operators and included discussions with the BLM and these other operators regarding the competing development plans. Matador has been negotiating with these protesting operators for over a year and has recently entered into agreements with both operators to resolve these issues. Matador now anticipates that our federal APD and Development Area will be approved in the relatively near future without further protest.

7. Once Matador's previously filed federal APD is approved, Matador intends to promptly drill the initial well under the order. Good cause therefore exists to extend the deadline to commence drilling under the order for a year, until April 28, 2023.

8. None of the working interest owners that remain subject to these pooling orders have been asked at this time to make an election on the applicable well, or to pay their estimated share of the costs to drill, complete and equip the applicable well.

9. The granting of this application will prevent waste and protect correlative rights.
