POOLING, EDDY COUNTY, NEW MEXICO**

Case No. 23046

**SELF-AFFIRMED STATEMENT
OF RETT DALTON**

1. I am a Senior Landman with Spur Energy Partners, LLC (“Spur”). I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have previously testified before the New Mexico Oil Conservation Division (“Division”) and my credentials as an expert in petroleum land matters were accepted and made a matter of record.

2. I am familiar with the land matters involved in the above-referenced case. Copies of Spur’s Application and proposed hearing notice are attached as **Exhibit A-1**.

3. None of the parties proposed to be pooled in this case indicated opposition to this matter proceeding by affidavit, therefore I do not expect any opposition at hearing.

4. Spur applies for an order pooling all uncommitted interests within the Yeso formation underlying a 320-acre, more or less, standard horizontal spacing unit comprised of the S/2 N/2 and N/2 S/2 of Section 21, Township 19 South, Range 25 East, Eddy County, New Mexico (“Unit”).

5. The Unit will be dedicated to the following wells, which will be completed in the N. Seven Rivers; Glorieta-Yeso Pool (Code 97565):

- **Alto Amm 21 #10H well**, which will be horizontally drilled from a surface hole location in the SW/4 NW/4 (Unit E) of Section 22, Township 19 South, Range 25

East, to a bottom hole location in the SW/4 NW/4 (Unit E) of Section 21, Township 19 South, Range 25 East;

- **Alto Amm 21 #11H well**, which will be horizontally drilled from a surface hole location in the NW/4 SW/4 (Unit L) of Section 22, Township 19 South, Range 25 East, to a bottom hole location in the NW/4 SW/4 (Unit L) of Section 21, Township 19 South, Range 25 East;
- **Alto Amm 21 #20H well**, which will be horizontally drilled from a surface hole location in the SW/4 NW/4 (Unit E) of Section 22, Township 19 South, Range 25 East, to a bottom hole location in the SW/4 NW/4 (Unit E) of Section 21, Township 19 South, Range 25 East;
- **Alto Amm 21 #50H well**, which will be horizontally drilled from a surface hole location in the NW/4 SW/4 (Unit L) of Section 22, Township 19 South, Range 25 East, to a bottom hole location in the NW/4 SW/4 (Unit L) of Section 21, Township 19 South, Range 25 East;
- **Alto Amm 21 #60H well**, which will be horizontally drilled from a surface hole location in the SW/4 NW/4 (Unit E) of Section 22, Township 19 South, Range 25 East, to a bottom hole location in the SW/4 NW/4 (Unit E) of Section 21, Township 19 South, Range 25 East; and
- **Alto Amm 21 #70H well**, which will be horizontally drilled from a surface hole location in the NW/4 SW/4 (Unit L) of Section 22, Township 19 South, Range 25 East, to a bottom hole location in the NW/4 SW/4 (Unit L) of Section 21, Township 19 South, Range 25 East.

6. The completed intervals of the Wells will be orthodox.

7. The completed interval of the Alto Amm 21 #20H well will be located within 330' of the quarter-quarter section line separating the S/2 N/2 and N/2 S/2 of Section 22 to allow for the creation of a 320-acre standard horizontal spacing unit.

8. **Exhibit A-2** contains the C-102s for the Wells.

9. **Exhibit A-3** contains a plat that identifies ownership by tract in the Unit. This exhibit also includes any applicable lease numbers, a unit recapitulation, and the interests Spur seeks to pool highlighted in yellow.

10. **Exhibit A-4** contains a sample well proposal letter and AFEs sent to the working interest owners for the Wells. The estimated costs reflected on the AFEs are fair and reasonable and comparable to the cost of other wells of similar depth and length drilled in the subject formation in the area.

11. All of the interests Spur seeks to pool are locatable in that we believe we have valid addresses for the interest owners. In several cases, we sent proposals to parties at multiple addresses to ensure they would be received. If we were not able to establish that a proposal was received, we performed research using websites that included Google, various county appraisal districts, obituary notices, Enverus Courthouse and LexisNexis.

12. Spur has conducted a diligent search of all county public records including phone directories and computer databases.

13. In my opinion, Spur made a good-faith effort to reach voluntary joinder of uncommitted interests in the Well as indicated by the chronology of contact described in **Exhibit A-5**.

14. Spur requests overhead and administrative rates of \$8,000.00 per month while the Wells are being drilled and \$800.00 per month while the Wells are producing. These rates are fair and are comparable to the rates charged by Spur and other operators in the vicinity.

15. The attached exhibits were either prepared by me or under my supervision or were compiled from company business records.

16. In my opinion, the granting of Spur's application would serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

17. I understand this Self-Affirmed Statement will be used as written testimony in the subject cases. I affirm that my testimony above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date handwritten next to my signature below.

- c. The **Alto Amm 21 #20H well**, to be drilled from a surface hole location in the SW/4 NW/4 (Unit E) of Section 22, Township 19 South, Range 25 East, to a bottom hole location in the SW/4 NW/4 (Unit E) of Section 21, Township 19 South, Range 25 East;
 - d. The **Alto Amm 21 #50H well**, to be drilled from a surface hole location in the NW/4 SW/4 (Unit L) of Section 22, Township 19 South, Range 25 East, to a bottom hole location in the NW/4 SW/4 (Unit L) of Section 21, Township 19 South, Range 25 East;
 - e. The **Alto Amm 21 #60H well**, to be drilled from a surface hole location in the SW/4 NW/4 (Unit E) of Section 22, Township 19 South, Range 25 East, to a bottom hole location in the SW/4 NW/4 (Unit E) of Section 21, Township 19 South, Range 25 East; and
 - f. The **Alto Amm 21 #70H well**, to be drilled from a surface hole location in the NW/4 SW/4 (Unit L) of Section 22, Township 19 South, Range 25 East, to a bottom hole location in the NW/4 SW/4 (Unit L) of Section 21, Township 19 South, Range 25 East.
3. The completed intervals of the wells will be orthodox.
 4. The completed interval of the Alto Amm 21 #20H well will be located within 330' of the quarter-quarter section line separating the S/2 N/2 and N/2 S/2 of Section 22 to allow for the creation of a 320-acre standard horizontal spacing unit.
 5. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all interest owners in the Unit.

6. The pooling of uncommitted interests will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

7. In order to permit Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in the Unit should be pooled and Applicant should be designated the operator of the proposed horizontal wells and the Unit.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on October 6, 2022, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the Unit;
- B. Approving the initial wells in the Unit;
- C. Designating Applicant as the operator of the Unit and the horizontal wells to be drilled thereon;
- D. Authorizing Applicant to recover its costs of drilling, equipping, and completing the wells;
- E. Approving the actual operating charges and costs of supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- F. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the wells against any working interest owner who does not voluntarily participate in the drilling of the wells.

Respectfully submitted,

Well Proposal**Alto Amm 21 # 10H, 11H, 20H, 50H, 60H, and 70H****S/2N/2 and N/2S/2 of Section 21, T19S-R25E****Eddy County, New Mexico****July 13, 2022****Page 2**

SPUR proposes to form a Drilling Spacing Unit (“DSU”) covering the S/2N/2 and N/2S/2 of Section 21, T19S-R25E, Eddy County, New Mexico, containing 320 acres of land, more or less, from the top of the Yeso formation to the base of the Yeso formation. Portions of these lands may be governed by existing Joint Operating Agreements (“JOAs”) which also cover the Yeso formation, and which may govern operations for vertical wells. For the mutually exclusive development of horizontal wells, and any concept wells (i.e. micro seismic wells, pilot hole wells) within the DSU, SPUR proposes creating a new joint operating agreement dated August 1, 2022, (“NJOA”) to govern proposals and operations within the DSU. The NJOA shall supersede any existing operations under any JOAs, expressly limited however, to horizontal well development, concept wells and operations within the DSU. The NJOA has the following general provisions:

- Effective Date of August 1, 2022
- Contract Area consisting of the S/2N/2 and N/2S/2 of Section 21, T19S-R25E, Eddy County, NM
- Limited in depth from the top of the Yeso to the base of the Yeso formation
- 100%/300%/300% non-consenting penalty
- \$8,000/\$800 drilling and producing monthly overhead rate
- Spur Energy Partners LLC named as Operator

The enclosed AFEs reflect the total estimated drilling and completion costs for each well. The AFEs are an estimate only and those parties electing to participate in the Subject Wells shall be responsible for their share of actual well costs, whether more or less than those shown on the enclosed AFEs. Your estimated working interest in the proposed 320 acre DSU is shown on Exhibit “A” enclosed herewith.

SPUR respectfully requests that you select one of the following three options with regard to your interest in the proposed wells:

Option 1: Participate in the drilling and completion of the proposed well and agree to enter into the NJOA with the terms specified above.

Option 2: Not participate in the proposed well (an election of “Non-Consent”).

Option 3 – Term Assignment Option: Assign your leasehold working interest in the S/2N/2 and N/2S/2 of Section 21, T19S-R25E, exclusive of existing wellbores, to SPUR through a term assignment with a primary term of three (3) years and as long thereafter as production is obtained in paying quantities, for a bonus consideration of \$750 per net mineral acre, with you delivering no less than a 75% leasehold net revenue interest (limited to the Yeso formation).

Option 4 – Assignment Option: Assign your leasehold working interest in the S/2N/2 and N/2S/2 of Section 21, T19S-R25E, exclusive of existing wellbores, to SEP for a bonus consideration of \$1,500 per net mineral acre, delivering no less than a 75% leasehold net revenue interest (all rights owned).

Should you elect Option 1 or Option 2, SPUR will send the NJOA for your review and execution. If you prefer to review the NJOA prior to making an election, please request a copy by email and SPUR will supply you the NJOA. In the event you elect to assign your leasehold interest under the terms outlined above in the Option 3 – Term Assignment Option, or Option 4 – Assignment Option, please so indicate by signing and returning the enclosed Assignment Election page, and Spur shall provide you with an assignment form for your review and execution. (In the event you do not own all depths within the Yeso formation, the above-stated prices per net mineral acre for Options 3 and 4 shall be re-determined by SPUR.)

However, if an agreement cannot be reached within 30 days of the receipt date of this proposal, please be advised SPUR may apply to the New Mexico Oil Conservation Division for Compulsory Pooling of any uncommitted interest owners into a spacing unit for the proposed wells.

Please indicate your elections as to each of the Subject Wells in the spaces provided below and execute and return a copy of this letter (together with a signed copy of each AFE for any well(s) you elect to participate in) to the undersigned within 30 days of receipt of this proposal. Portions of these lands may be governed by existing Joint Operating Agreements (“JOAs”) which also cover the Yeso formation, and which may govern operations for vertical wells. For the mutually exclusive development of horizontal wells, and any concept wells (i.e. micro seismic wells, pilot hole wells) within the DSU, SPUR proposes creating a new joint operating agreement dated August 1, 2022, (“NJOA”) to govern proposals and operations within the DSU. The NJOA shall supersede any existing operations under any JOAs, expressly limited however, to horizontal well development, concept wells and operations within the DSU. The NJOA has the following general provisions:

- Effective Date of August 1, 2022
- Contract Area consisting of the S/2N/2 and N/2S/2 of Section 21, T19S-R25E, Eddy County, NM
- Limited in depth from the top of the Yeso to the base of the Yeso formation
- 100%/300%/300% non-consenting penalty
- \$8,000/\$800 drilling and producing monthly overhead rate
- Spur Energy Partners LLC named as Operator

The enclosed AFEs reflect the total estimated drilling and completion costs for each well. The AFEs are an estimate only and those parties electing to participate in the Subject Wells shall be responsible for their share of actual well costs, whether more or less than those shown on the enclosed AFEs. Your estimated working interest based upon your unleased mineral interest in the proposed 320 acre DSU is shown on Exhibit “A” enclosed herewith.

SPUR respectfully requests that you select one of the following three options with regard to your interest in the proposed wells:

Option 1: Participate in the drilling and completion of the proposed well and agree to enter into the NJOA with the terms specified above.

Option 2: Not participate in the proposed well (an election of “Non-Consent”).

Option 3 – Lease Option: Execute an Oil and Gas Lease (“OGL”) in favor of Spur based upon a bonus price of \$750 per net mineral acre, that provides for a 1/5th royalty and a three (3) year paid-up primary term, and as long thereafter as production is obtained in paying quantities, subject to Spur’s approval of your marketable and defensible title.

Should you elect Option 1 or Option 2, SPUR will send the NJOA for your review and execution. If you prefer to review the NJOA prior to making an election, please request a copy by email and SPUR will supply you the NJOA. In the event you elect to lease your minerals under the terms outlined above in Option 3 – Lease Option, please so indicate by signing and returning the enclosed Lease Election page, and Spur will submit an Oil and Gas Lease form to you for your review and execution. (In the event you do not own all depths within the Yeso formation, the above-stated price per net mineral acre for Options 3 shall be re-determined by SPUR.)

However, if an agreement cannot be reached within 30 days of the receipt date of this proposal, please be advised SPUR may apply to the New Mexico Oil Conservation Division for Compulsory Pooling of any uncommitted interest owners into a spacing unit for the proposed wells.

Please indicate your elections as to each of the Subject Wells in the spaces provided below and execute and return a copy of this letter (together with a signed copy of each AFE for any well(s) you elect to participate in) to the undersigned within 30 days of receipt of this proposal. Should you have any questions regarding this proposal, please contact Kristi Zissa at 832-982-1079 or kzissa@spurenergy.com or the undersigned via email at rdalton@spurenergy.com. **APPLICATION OF SPUR ENERGY
PARTNERS LLC FOR COMPULSORY
POOLING, EDDY COUNTY, NEW MEXICO**

Case No. 23046

**SELF-AFFIRMED STATEMENT
OF MATTHEW VAN WIE**

1. I am a geologist with Spur Energy Partners, LLC (“Spur”). I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have previously testified before the New Mexico Oil Conservation Division (“Division”), and my credentials as an expert in petroleum geology matters were accepted and made a matter of record.

2. I am familiar with the application filed by Spur in this case, and I have conducted a geologic study of the lands.

3. In this case, Spur is targeting the Yeso formation.

4. **Exhibit B-1** is a location map of the proposed horizontal spacing unit (“Unit”). Spur’s acreage is shown in yellow and the approximate wellbore paths for the proposed **Alto Amm #10H, Alto Amm #11H, Alto Amm #20H, Alto Amm #50H, Alto Amm #60H, and Alto Amm #70H** wells (“Wells”) are represented by solid black lines. Nearby wells producing in the target formation are also identified. The exhibit also identifies five wells penetrating the targeted interval that I used to construct a structural cross-section from A to A’. I used these well logs because they penetrate the targeted intervals, are of good quality, and are representative of the geology in the area.

Spur Energy Partners, LLC
Case No. 23046
Exhibit B

5. **Exhibit B-2** is a subsea structure map that I prepared for the top of the Glorieta (just above the top of the Yeso formation) with a contour interval of 25 feet. The structure map demonstrates the formation is gently dipping to the east in this area. The formation appears consistent across the proposed spacing unit and has been extensively developed in offsetting sections. I do not observe any faulting, pinch-outs, or geologic impediments to developing the targeted intervals with horizontal wells. This map also shows a line bisecting the proposed spacing unit from B to B' which is depicted in a gun barrel diagram in a later exhibit.

6. **Exhibit B-3** is a structural cross-section that I prepared displaying open-hole logs run over the target Yeso formation from the representative wells denoted from A to A' (Exhibit B-1). For each well in the cross-section, the exhibit shows the following logs where available: gamma ray, resistivity, and porosity. The targeted zone for each well is labeled and marked on the cross-section. The logs in the cross-section demonstrate that the targeted intervals are continuous and consistent along trend.

7. **Exhibit B-4** is a gun barrel diagram from B to B' reflecting Spur's intended development in the Yeso formation in this acreage and identifies each initial proposed well relative to the different intervals within the Yeso formation.

8. There is no identified preferred orientation for exploitation in this portion of the Northwest shelf based on stress orientation or production data.

9. The majority of the development in the Dagger Draw area is Spur-operated production. Accordingly, we analyzed 30 wells with modern completion designs in the vicinity of the proposed Alto Amm project with similar targeting as Alto Amm (lower Paddock) and found no observable difference in performance between a laydown or standup orientation of wells. The

findings are attached as **Exhibit B-5**. Average cumulative oil production (normalized to 5000') after 18 months is 154 MBO for both orientations.

10. The laydown orientation is also appropriate to develop this acreage using 1-mile laterals in a manner that is consistent with Spur's ownership interest, and it will not interfere with the standup wells in surrounding tracts.

11. Additionally, the stand-up wells observed in the Alto Amm DSU are legacy Upper Pennsylvanian – Canyon Formation (~7750' TVD) wells operated by EOG Resources.

12. In my opinion, a laydown orientation for the Wells is appropriate to properly develop the subject acreage.

13. Based on my geologic study of the area, the targeted interval underlying the Unit is suitable for development by horizontal wells and the tracts comprising the Unit will contribute more or less equally to the production of the Wells.

14. In my opinion, the granting of Spur's application will serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

15. The attached exhibits were either prepared by me or under my supervision or were compiled from company business records.

16. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm my testimony above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date identified next to my signature below.
