APPLICATION OF V-F PETROLEUM, INC, FOR COMPULSORY POOLING, LEA COUNTY, NEW MEXICO

Case No. 23102

#### SELF-AFFIRMED STATEMENT OF RYAN CURRY

- 1. I am a Landman with V-F Petroleum ("V-F Petroleum"). I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have not previously testified before the New Mexico Oil Conservation Division ("Division"). I have an Energy Commerce degree from Texas Tech University and have worked in the petroleum industry for approximately 2 years. A copy of my resume is attached as **Exhibit A-1**.
- 2. I am familiar with the land matters involved in the above-referenced case. Copies of V-F Petroleum's Application and proposed hearing notice are attached as **Exhibit A-2**.
- 3. None of the parties proposed to be pooled in this case indicated opposition to this matter proceeding by affidavit. Therefore, I do not expect any opposition at hearing.
- 4. V-F Petroleum applies for an order pooling all uncommitted interests within the Bone Spring formation underlying a 240-acre, more or less, standard horizontal spacing unit comprised of the E/2 SE/4 of Section 29 and the E/2 E/2 of Section 32, Township 21 South, Range 35 East, Lea County, New Mexico ("Unit").
- The Unit will be dedicated to the following wells, which will be completed in the
   WC-025 G-07 S223505N; Bone Spring Formation [98136] Pool

V-F Petroleum, Inc. Case No. 23102 Exhibit A

- Cache River 29 32 State Com #104H well, which will be horizontally drilled from
  a surface hole location in the NE/4 SE/4 (Unit I) of Section 29, Township 21 South,
  Range 35 East, to a bottom hole location in the SE/4 SE/4 (Unit P) of Section 32,
  Township 21 South, Range 35 East;
- Cache River 29 32 State Com #204H well, which will be horizontally drilled from a surface hole location in the NE/4 SE/4 (Unit I) of Section 29, Township 21 South, Range 35 East, to a bottom hole location in the SE/4 SE/4 (Unit P) of Section 32, Township 21 South, Range 35 East; and
- Cache River 29 32 State Com #304H well, which will be horizontally drilled from
  a surface hole location in the NE/4 SE/4 (Unit I) of Section 29, Township 21 South,
  Range 35 East, to a bottom hole location in the SE/4 SE/4 (Unit P) of Section 32,
  Township 21 South, Range 35 East.
- 6. The completed intervals of the Wells will be orthodox.
- 7. **Exhibit A-3** contains the C-102s for the Wells.
- 8. **Exhibit A-4** contains a plat that identifies ownership by tract in the Unit. This exhibit also includes any applicable lease numbers, a unit recapitulation, and the interests V-F Petroleum seeks to pool highlighted in yellow. All parties are locatable.
- 9. **Exhibit A-5** contains a sample well proposal letter and AFEs sent to the working interest owners for the Wells. The estimated costs reflected on the AFEs are fair and reasonable and comparable to the cost of other wells of similar depth and length drilled in the subject formation in the area.
- 10. V-F Petroleum has conducted a diligent search of all county public records including phone directories and computer databases.

11. In my opinion, V-F Petroleum made a good-faith effort to reach voluntary joinder

of uncommitted interests in the Wells as indicated by the chronology of contact described in

Exhibit A-6.

12. V-F Petroleum requests overhead and administrative rates of \$8,000.00 per month

while the Wells are being drilled and \$800.00 per month while the Wells are producing. These

rates are fair and are comparable to the rates charged by V-F Petroleum and other operators in the

vicinity.

13. The attached exhibits were either prepared by me or under my supervision or were

compiled from company business records.

14. In my opinion, the granting of V-F Petroleum's application would serve the

interests of conservation, the protection of correlative rights, and the prevention of waste.

15. I understand this Self-Affirmed Statement will be used as written testimony in the

subject cases. I affirm that my testimony above is true and correct and is made under penalty of

perjury under the laws of the State of New Mexico. My testimony is made as of the date

handwritten next to my signature below.

V-F Petroleum, Inc. Case No. 23102 Exhibit A-6 STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION

APPLICATION OF V-F PETROLEUM, INC. FOR COMPULSORY POOLING, LEA COUNTY, NEW MEXICO.

**CASE NO. 23102** 

## SELF-AFFIRMED STATEMENT OF MICHAEL BURKE

- 1. I am a geologist with V-F Petroleum, Inc. ("V-F Petroleum"). I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have previously testified before the New Mexico Oil Conservation Division ("Division"), and my credentials as an expert in petroleum geology matters were accepted and made a matter of record.
  - 2. I am familiar with the geological matters that pertain to the above-referenced case.
- 3. **Exhibit B-1** is a location map of the proposed horizontal spacing unit ("Unit"). The approximate wellbore paths for the proposed **Cache River 29 32 State Com #104H**, **Cache River 29 32 State Com #204H**, and the **Cache River 29 32 State Com #304H** Wells are represented by dashed lines. Existing producing Wells in the targeted interval are represented by solid lines.
- 4. **Exhibit B-2** is a subsea structure map for that is representative of the 1<sup>st</sup> Bone Spring Sand target interval. The data points are indicated by red X-marks along with their corresponding subsea values posted above in blue. The approximate wellbore paths are depicted by dashed lines. The map demonstrates the formation is gently dipping to the southwest in this area. I do not observe any faulting, pinch-outs, or geologic impediments to developing the targeted intervals with horizontal Wells.
- 5. **Exhibit B-3** is a subsea structure map for that is representative of the 2<sup>nd</sup> Bone Spring Sand target interval. The data points are indicated by red X-marks along with their

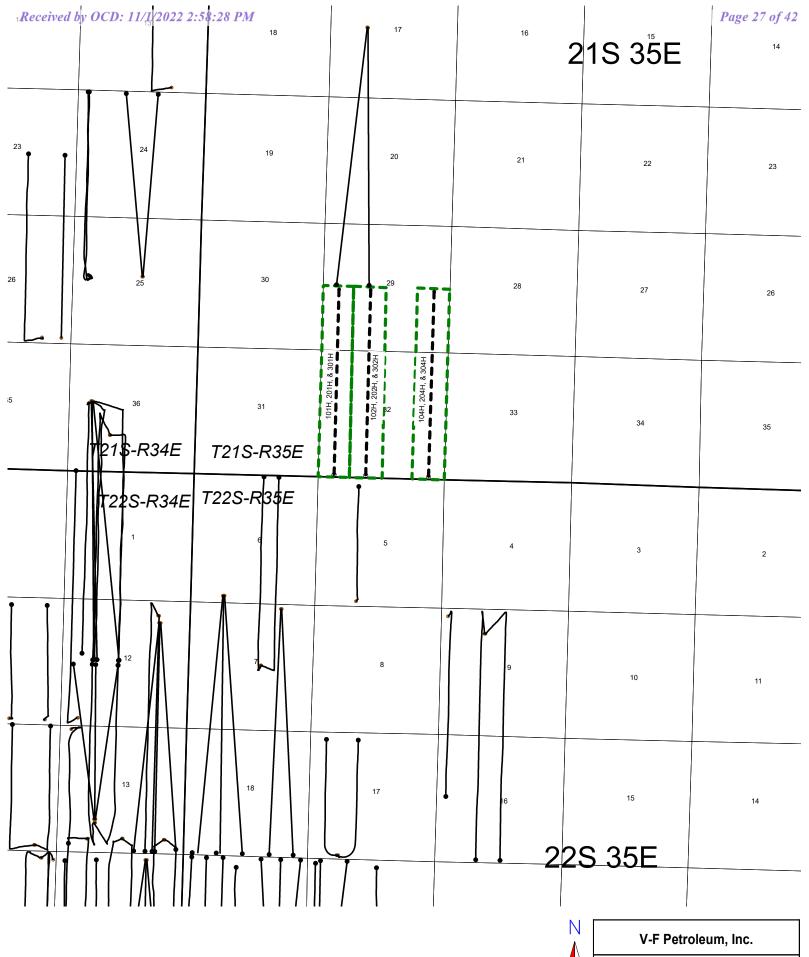

V-F Petroleum, Inc. Case No. 23102 Exhibit B corresponding subsea values posted above in blue. The approximate wellbore paths are depicted by dashed lines. The map demonstrates the formation is gently dipping to the southwest in this area. I do not observe any faulting, pinch-outs, or geologic impediments to developing the targeted intervals with horizontal Wells.

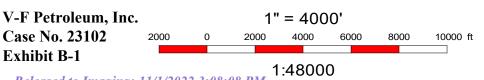

- 6. **Exhibit B-4** is a subsea structure map that is representative of the 3rd Bone Spring Sand target interval. The data points are indicated by red X-marks along with their corresponding subsea values posted above in blue. The approximate wellbore paths are depicted by a dashed line. The map demonstrates the formation is gently dipping to the southwest in this area. I do not observe any faulting, pinch-outs, or geologic impediments to developing the targeted interval with horizontal Wells.
- 7. **Exhibits B-2, B-3,** and **B-4** also identify three (3) Wells penetrating the targeted intervals used to construct a stratigraphic cross-section from A to A'. I used these well logs because they penetrate the targeted intervals, are of good quality, and are representative of the geology in the area.
- 8. **Exhibit B-5** is a stratigraphic cross-section using the representative Wells identified on **Exhibits B-2**, **B-3**, and **B-4**. It contains gamma ray, resistivity, and porosity logs. The proposed landing zones for the Wells are labeled on the exhibit. This cross-section demonstrates the target intervals are continuous across the Units.
- 9. In my opinion, a stand-up orientation for the Wells is appropriate to properly develop the subject acreage because of an established directional pattern and the known fracture orientation in this portion of the trend. Stand-up orientation is also supported by a study of the production of stand-up vs laydown orientation in the area, with stand-up well results being significantly better.

- 10. Based on my geologic study of the area, the targeted interval underlying the Unit is suitable for development by horizontal Wells and the tracts comprising the Unit will contribute more or less equally to the production of the Wells.
- 11. In my opinion, the granting of V-F Petroleum's application will serve the interests of conservation, the protection of correlative rights, and the prevention of waste.
- 12. The attached exhibits were either prepared by me or under my supervision or were compiled from company business records.
- I understand this Self-Affirmed Statement will be used as written testimony in this 13. case. I affirm my testimony above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date identified next to my signature below.
