APPLICATIONS OF CIMAREX ENERGY CO. OF
COLORADO FOR A HORIZONTAL SPACING UNIT
AND COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO

Case No. 22773

SELF-AFFIRMED STATEMENT OF RILEY MORRIS

STATE OF TEXAS)
) ss.
COUNTY OF MIDLAND)

I, being duly sworn on oath, state the following:

1. I am over the age of eighteen years and have the capacity to execute this Affidavit, which is based on my personal knowledge.

2. I am employed as a Landman with Cimarex Energy Co. ("Cimarex"), and I am familiar with the subject application and the lands involved.

3. I graduated in 2010 from Texas Tech University with a bachelor's degree in Business Administration with an emphasis on Energy Commerce. I have worked at Cimarex for approximately 4 years, and I have been working in New Mexico for 4 years. My credentials as a petroleum landman have been accepted by the New Mexico Oil Conservation Division ("Division") and made a matter of record.

4. This affidavit is submitted in connection with the filing by Cimarex of the above-referenced spacing and compulsory pooling applications pursuant to 19.15.4.12.A(1).

5. Cimarex seeks an order pooling all uncommitted mineral interest in the Wolfcamp formation (Purpose Sage; Wolfcamp, Gas; Pool Code: 98220) underlying a standard 640-acre,

Revised
EXHIBIT *A*

more or less, horizontal spacing and proration unit comprised of the W/2 of Sections 29 and 32, Township 25 South, Range 27 East, NMPM, Eddy County, New Mexico.

6. Under Case No. 22773:

a. Cimarex seeks to dedicate the **Southern Hills 32-29 State Fed Com 3H Well** (API 30-015-49514) as an initial well, horizontally drilled from a surface location in SE/4 SW/4 (Unit N) of Section 32 to a bottom hole location in the NW/4 NW/4 (Unit D) of Section 29; approximate TVD of 8,830'; approximate TMD of 18,830'; FTP in Section 32: 100' FSL, 330' FWL; LTP in Section 29: 100' FNL, 330' FWL.

b. Cimarex seeks to dedicate the **Southern Hills 32-29 State Fed Com 4H Well** (API 30-015-49516) as an initial well, horizontally drilled from a surface location in SE/4 SW/4 (Unit N) of Section 32 to a bottom hole location in the NE/4 NW/4 (Unit C) of Section 29; approximate TVD of ~~8,830'~~^{9083'}; approximate TMD of ~~18,830'~~^{19803'}; FTP in Section 32: 100' FSL, 2,315' FWL; LTP in Section 29: 100' FNL, 2,315' FWL.

7. The wells will be unorthodox in location, and the 100' setback of the take points do not comply with the special field rules for the Purple Sage, Wolfcamp, pursuant to Order No. R-14262; Cimarex will be applying administratively to the NMOCD for approval of the non-standard locations.

8. Cimarex has a horizontal well, the Cottonwood Hills 32 State Com 1H (API No. 30-015-39967), in the W/2 of Section 32, in the Wolfcamp formation. The proposed HSU will overlap

this 320-acre unit in the W/2, and Cimarex respectfully requests approval, to the extent necessary, for the overlapping units.

9. The proposed C-102 for each well is attached as **Exhibit A-1**.

10. A general location plat and a plat outlining the unit being pooled is attached hereto as **Exhibit A-2**, which show the location of the proposed well within the unit.

11. The parties being pooled, the nature of their interests, and their last known addresses are listed on **Exhibit A-2** attached hereto. **Exhibit A-2** includes information regarding working interest owners and overriding royalty interest owner.

12. There are no depth severances in the Wolfcamp formation in this acreage.

13. I provided the law firm of James Bruce a list of names and addresses for the uncommitted working interest owners shown on **Exhibit A-2**. In compiling these addresses, I conducted a diligent search of the public records in Eddy County, New Mexico, where the wells are located, and of phone directories and did computer searches to locate the contact information for parties entitled to notification. All working interest owners were locatable and noticed; there were zero unlocatable parties who were overriding interest owners. Cimarex published notice in the Carlsbad Current Argus, a newspaper of general circulation in Eddy County, New Mexico, to account for any unlocatable parties and cover any contingencies regarding notice.

14. Cimarex has made a good faith effort to negotiate with the interest owners, but has been unable to obtain, voluntary agreement from all interest owners to participate in the drilling of the well or in the commitment of their interests to the well for its development within the proposed horizontal spacing unit. **Exhibit A-4** provides a chronology and history of contacts with the owners.

15. The working interest owners being pooled have been contacted regarding the proposed wells but have failed or refused to voluntarily commit their interest in the wells. However, Cimarex has been in ongoing discussions with some of the interest owners to voluntarily enter into a Joint Operating Agreement. If a mutually agreeable Joint Operating Agreement is reached between Cimarex and another interest owner or owners, Cimarex requests that the voluntary agreement become operative and supersede the Division's order for said parties, except to the extent the Division deems it necessary to maintain spacing criteria for the purpose of conservation, the prevention of waste, and protection of correlative rights.

16. **Exhibit A-3** is a sample proposal letter and the AFEs for each proposed well. The estimated cost of the wells set forth in the AFEs is fair, reasonable, and comparable to the costs of other wells of similar depths and lengths drilled in this area of New Mexico.

17. Cimarex requests overhead and administrative rates of \$8,000/month for drilling each well and \$800/month for producing each well. These rates are fair and comparable to the rates charged by other operators for wells of this type in this area of southeastern New Mexico. Cimarex requests that these rates be adjusted periodically as provided in the COPAS Accounting Procedure.

18. Cimarex requests the maximum cost, plus 200% risk charge be assessed against non-consenting working interest owners.

19. Cimarex requests that it be designated operator of the unit and wells drilled therein.

20. The Exhibits to this Affidavit were prepared by me or compiled from Cimarex's company business records under my direct supervision.

21. The granting of this Application is in the best interests of conservation, the prevention of waste, and the protection of correlative rights, and will avoid the drilling of unnecessary wells.

22. The foregoing is correct and complete to the best of my knowledge and belief.

[Signature page follows]

I understand that this Self-Affirmed Statement will be used as written testimony in these cases. I affirm that my testimony in paragraphs 1 through 22 above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date handwritten next to my signature below.

CASE NOS. 22773

STATUS OF CERTIFIED NOTICE

<u>INTEREST OWNER</u>	<u>MAILING DATE</u>	<u>RECEIPT DATE</u>	<u>CARD RETURNED</u>
Chevron U.S.A. Inc.	June 16, 2022	June 27, 2022	Yes
OXY Y-1 Company	“	June 28, 2022	“

NOTE 1: Attached as page 2 of this checklist is Exhibit A-2 from the hearing, setting forth the working interest owners and their interests in the wells. Also attached, as page 3 of this checklist, is Exhibit A-3 from the hearing which shows that Abo Petroleum, Inc. has executed a JOA. Therefore, it is not being pooled.

NOTE 2: Additional persons were also notified for the following reasons:

The Commissioner of Public Lands was cc'd on the notice letter simply because the Land Office likes to be kept informed of Division hearings involving State land.

The notice letter submitted at hearing also gave notice of the pooling of two Bone Spring pooling cases. COG Operating LLC is the operator of overlapping well units in those cases and was given notice for that reason only. It does not own any interest, or operate any well, in the Wolfcamp formation in the lands covered by Case No. 22773.

MRC Permian Company and MRC Permian LKE, LLC were notified in error. They own no working interest in the wells at issue in this case.
