#### APPLICATION OF REDWOOD OPERATING LLC FOR COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO.

#### CASE NO. 23186

#### **APPLICATION**

Redwood Operating LLC ("Applicant" or "Redwood") (OGRID No. 330211), through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted interests in the Yeso formation underlying a standard 160-acre, more or less, horizontal spacing unit comprised of the N/2 N/2 of Section 17, Township 18 South, Range 27 East, NMPM, Eddy County, New Mexico. In support of its application, Redwood states:

1. Applicant is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.

2. Applicant seeks to dedicate the above-referenced horizontal spacing unit to the proposed initial **Sparkplug 17 Federal Com #1H, Sparkplug 17 Federal Com #2H,** and **Sparkplug 17 Federal Com #3H** wells to be horizontally drilled from a surface location in the SW/4 SW/4 (Unit M) of Section 9, to a bottom hole location in the NW/4 NW/4 (Unit D) of Section 17.

3. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all the interest owners in the subject spacing unit.

BEFORE THE OIL CONSERVATION DIVISION Santa Fe, New Mexico Exhibit No. B Submitted by: Redwood Operating LLC Hearing Date: December 1, 2022 Case No. 23186

1

4. The pooling of interests will allow Applicant to obtain a just and fair share of the oil and gas underlying the subject lands, avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on December 1, 2022, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the horizontal spacing unit;
- B. Designating Applicant operator of this horizontal spacing unit and the horizontal wells to be drilled thereon;
- C. Authorizing Applicant to recover its costs of drilling, equipping, and completing the wells;
- D. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- E. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the wells against any working interest owner who does not voluntarily participate in the drilling of the wells.

Respectfully submitted,

#### SELF-AFFIRMED STATEMENT OF DERIK SMITH

1. My name is Derik Smith, and I work for Redwood Operating LLC, ("Redwood") as a Landman. I am familiar with the application filed in this case and have personal knowledge of the information provided in this self-affirmed statement.

2. Redwood is the contract operator for Pecos Oil & Gas, LLC, which is a working interest owner in the proposed horizontal spacing unit in this case. However, Pecos Oil & Gas, LLC is not an operator of oil and gas wells or other oil and gas facilities in New Mexico. Therefore, Pecos Oil & Gas, LLC has contracted with Redwood Operating LLC to propose wells, operate wells, operate Pecos Oil & Gas, LLC's working interests, and generally act on behalf of Pecos Oil & Gas, LLC to manage its leasehold interests in New Mexico. **Redwood Exhibit C-1** is a Self-Affirmed Statement from Pecos Oil & Gas, LLC's co-managing member, J.W. Sikora, describing and affirming the nature of this relationship.

3. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters. My credentials as a petroleum landman have been accepted by the Division and made a matter of record.

4. None of the interest owners to be pooled have opposed this case proceeding by selfaffirmed statement, so I do not expect any opposition at the hearing.

> BEFORE THE OIL CONSERVATION DIVISION Santa Fe, New Mexico Exhibit No. C Submitted by: Redwood Operating LLC Hearing Date: December 1, 2022 Case No. 23186

5. In **Case No. 23186**, Redwood seeks an order pooling all uncommitted mineral interests in a 160-acre, more or less, horizontal well spacing unit in the Yeso formation comprised of the N/2 N/2 of Section 17, Township 18 South, Range 27 East, NMPM, Eddy County, New Mexico.

6. Redwood intends to dedicate this standard horizontal spacing unit to the proposed initial **Sparkplug 17 Federal Com #1H, Sparkplug 17 Federal Com #2H,** and **Sparkplug 17 Federal Com #3H** wells, all to be horizontally drilled from a surface location in the SW/4 SW/4 (Unit M) of Section 9, to a bottom hole location in the NW/4 NW/4 (Unit D) of Section 17. The completed interval of the wells will comply with statewide setbacks for oil wells.

7. **Redwood Exhibit C-2** contains the C-102s for the proposed wells. The exhibit shows that these wells will be assigned to the Red Lake; Glorieta-Yeso (Pool code 51120).

8. **Redwood Exhibit C-3** identifies ownership interests by tract and on a unit basis within the proposed spacing unit and also includes a breakdown of ownership interests. Redwood seeks to pool the interest owners identified in the exhibit. The subject acreage is comprised of federal lands.

9. No depth severances exist within the Yeso formation underlying this acreage.

10. **Redwood Exhibit C-4** contains a sample of the well proposal letters and AFEs sent to owners with a working interest. The costs reflected in the AFEs are consistent with what Redwood and other operators have incurred for drilling similar horizontal wells in the Yeso formation in this area.

11. **Redwood Exhibit C-5** contains a summary chronology of the contacts with the interest owners that Redwood seeks to pool. In my opinion, Redwood has made a good faith effort to obtain voluntary joinder of the uncommitted interest owners.

2

12. Redwood requests overhead and administrative rates of \$8,000 per month for drilling and \$800 per month for a producing well. These rates are consistent with the rates charged by Redwood and other operators for wells of this type in this area of southeastern New Mexico.

13. I have provided the law firm of Holland and Hart, LLP, with the names and addresses of the uncommitted interest owners that Redwood seeks to pool in **Case No. 23186**. In providing names and addresses, Redwood has examined the county records, conducted computer searches and engaged in other good faith efforts to locate the most recent addresses for all of the interest owners that it seeks to pool.

14. **Redwood Exhibits C-1 through C-5** were prepared by me or compiled under my direction from Redwood's company business records.

15. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature below.

#### SELF-AFFIRMED STATEMENT OF J.W. SIKORA

My name is J.W. Sikora. I am the co-managing member of Pecos Oil & Gas, LLC. 1. I am familiar with the application filed in this case and have personal knowledge of the information provided in this self-affirmed statement.

2. Pecos Oil & Gas, LLC is a foreign limited liability company registered in Delaware with a principal place of business at 1455 West Loop South, Suite 230, Houston, Texas. It is registered to do business in New Mexico through the New Mexico Secretary of State and is in good standing.

3. Pecos Oil & Gas, LLC is a working interest owner in each of the tracts that comprise the proposed horizontal spacing unit in this case. As a working interest owner, Pecos Oil & Gas, LLC has a right to drill wells in the subject acreage.

4. However, Pecos Oil & Gas, LLC is not an operator of oil and gas wells or other oil and gas facilities in New Mexico. Therefore, it does not have an OGRID number and is not a

bonded or registered operator through the New Mexico Oil Conservation Division.
 Pecos Oil & Gas, LLC has therefore contracted with Redwood Operating LLC to propose wells, operate wells, operate Pecos Oil & Gas, LLC's working interests, and generally act on behalf of Pecos Oil & Gas, LLC to manage its leasehold interests in New Mexico.
 Redwood Operating LLC is a domestic limited liability company with a principal place of business at 11344 Lovington Highway, Artesia, New Mexico Exhibit No. C-1 Submitted by: Redwood Operating LLC Hearing Date: December 1, 2022 Case No. 23186

Case No. 23186

7. As part of its contractual agreement with Redwood Operating LLC, Pecos Oil & Gas, LLC authorized Redwood Operating LLC to propose the wells and to file the application that is the subject of this compulsory pooling proceeding on its behalf. Redwood Operating LLC is also authorized to manage Pecos Oil & Gas, LLC's leasehold interests that are the subject of this case.

8. Accordingly, Redwood Operating LLC has a right to propose, drill, and operate wells on the subject acreage, as well as to file compulsory pooling applications to force pool uncommitted owners, on behalf of Pecos Oil & Gas, LLC.

9. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature

#### STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

#### APPLICATION OF REDWOOD OPERATING LLC FOR COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO.

#### CASE NO. 23186

#### SELF-AFFIRMED STATEMENT OF CHARLES SADLER

1. My name is Charles Sadler, and I work for Redwood Operating LLC, ("Redwood"), as a geologist. I am familiar with the application filed in this case and have personal knowledge of the information provided in this self-affirmed statement.

2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology matters and my credentials as an expert petroleum geologist have been accepted by the Division and been made a matter of record.

3. **Redwood Exhibit D-1** is a locator map identifying the proposed horizontal well spacing unit in this case with a red box within the Permian Basin.

4. **Redwood Exhibit D-2** is a zoomed in project locator map identifying Redwood's proposed Sparkplug well spacing unit outlined in yellow.

5. **Redwood Exhibit D-3** is a subsea structure map with a type log for the Kaiser #1. The proposed spacing unit acreage is identified with a yellow outline. The contour interval is 10 feet. The structure map shows that the Yeso formation gently dips to the south in this area. I do not observe any faulting, pinch outs, or other geologic impediments to developing the targeted intervals with horizontal wells in this area.

6. Redwood Exhibit D-4 identifies the four wells penetrating the targeted intervals that I used to construct a structural cross-section from A to A' across the acreage. I used these well logs

BEFORE THE OIL CONSERVATION DIVISION Santa Fe, New Mexico Exhibit No. D Submitted by: Redwood Operating LLC Hearing Date: December 1, 2022 Case No. 23186

because they penetrate the targeted intervals and are of good quality. In my opinion, these well logs are representative of the geology in the area.

7. Redwood Exhibit D-4 also includes a stratigraphic cross-section of the Yeso formation using the four representative wells. It contains a gamma ray, resistivity, and porosity logs for each well where available. The target interval for the Sparkplug 17 Federal Com #1H is identified in green shading as the Upper Paddock. The target interval for the Sparkplug 17 Federal Com #2H is identified in light blue shading as the Middle Blinebry. The target interval for the Sparkplug 17 Federal Com #3H is identified in purple shading as the Middle Paddock. The stratigraphic cross-section demonstrates that the targeted intervals within the Yeso formation extend across the proposed spacing unit.

8. In my opinion, laydown orientation of the wells is the preferred orientation for horizontal well development in this area and is appropriate to develop the subject acreage efficiently and effectively.

9. Based on my geologic study, the targeted intervals within the Yeso formation underlying the subject area is suitable for development by horizontal wells and the acreage comprising the proposed spacing unit will contribute more-or-less equally to the production from the wellbores. I have not identified any geologic impediments to drilling horizontal wells in the area of the spacing unit proposed.

10. **Redwood Exhibits D-1 through D-4** were either prepared by me or compiled under my direction and supervision.

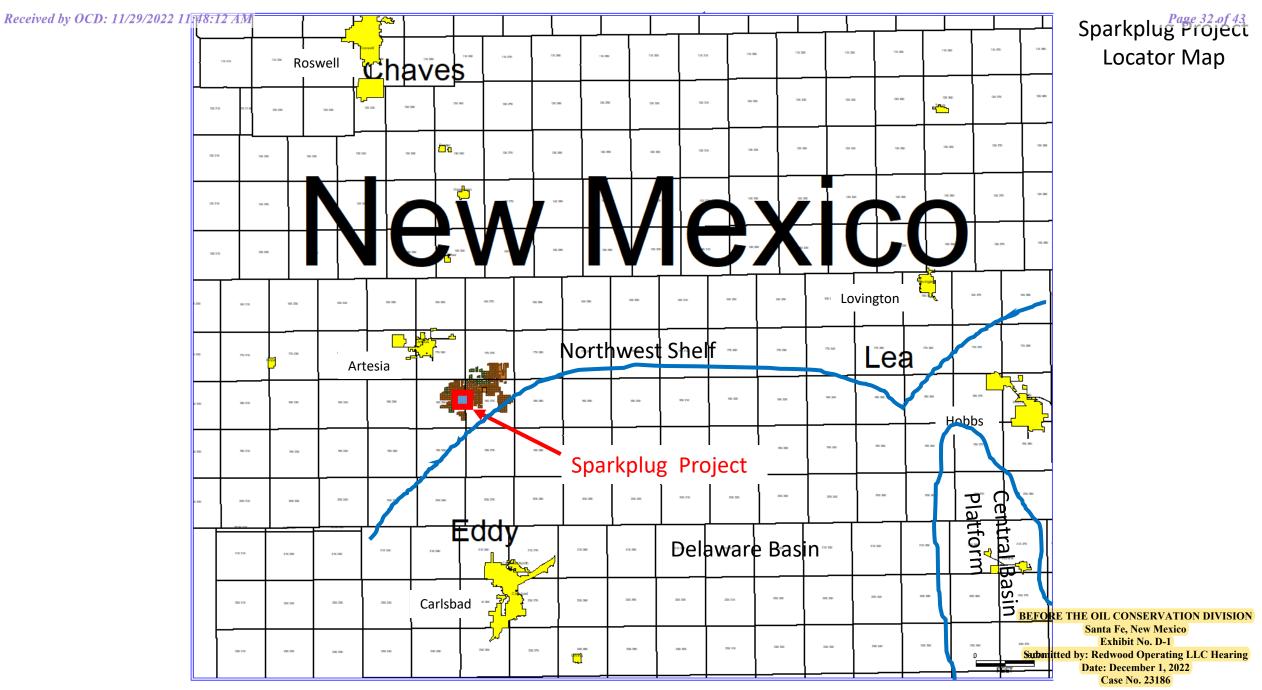

11. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature below.

Ladies & Gentlemen:

This letter is to advise you that Redwood Operating LLC has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on December 1, 2022, and the status of the hearing can be monitored through the Division's website at <u>https://www.emnrd.nm.gov/ocd/</u>.

During the COVID-19 Public Health Emergency, state buildings are closed to the public and hearings will be conducted remotely beginning at 8:15 a.m. To participate in the electronic hearing, see the instructions posted on the OCD Hearings website: https://www.emnrd.nm.gov/ocd/hearing-info/.

You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date. Parties appearing in cases are required to file a Pre-hearing Statement four business days in advance of a scheduled hearing that complies with the provisions of NMAC 19.15.4.13.B.

If you have any questions about this matter, please contact Derik Smith at (575) 748-1288, or <u>deriks@mec.com</u>.
