

**STATE OF NEW MEXICO  
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT  
OIL CONSERVATION DIVISION**

**APPLICATION OF GOODNIGHT MIDSTREAM  
PERMIAN, LLC FOR APPROVAL OF A  
SALTWATER DISPOSAL WELL,  
LEA COUNTY, NEW MEXICO**

**Case No. 22626**

**VERIFIED RESPONSE TO MOTION TO COMPEL**

For its Response to Goodnight Midstream Permian, LLC's ("Goodnight") motion, Empire New Mexico, LLC ("Empire") states:

***A. Background.***

Goodnight's motion is nothing more than an attempt to blame Empire for a missing C-105 that changed the EMSU No. 462 from a water source well to a producing well in early 2012. At that time XTO Energy was the operator of the Eunice Monument South Unit. Now Goodnight raises the issue of a missing C-105 that should have been filed approximately ten years ago. It argues that a C-105 was not filed and approved, and therefore, the allowable for the well should be withheld. Empire acquired the EMSU Unit in mid-2021.

***B. Possible Scenarios.***

Empire's inability to produce the C-105 does not mean that the C-105 was not filed by XTO or approved by the Division. Certainly, the filings of XTO are remarkable and detailed as evidenced by the C-104 attached to Goodnight's motion to suspend allowable. We can draw the following theories from the filings that have been produced by Empire to Goodnight and those on file on the Division's Website:

- XTO filed the C-105 and was likely approved by the Division because the well was put into production, and the Division did not record the approved C-105 in its website or filing system;

- The approved C-105 was not sent to XTO by the Division;
- XTO did not file the C-105 for approval, which seems unlikely considering the detail of the approved C-101;
- The C-145 between XTO and Empire shows no discrepancy with respect to the well. (A copy of the C-145 is attached.)

Any notion that Empire has withheld the C-105 in its production of well files is not supported by the fact that the OCD website also does not contain the C-105. The fact that the well was converted to a producing well is presumptive that the C-105 was approved. Until now no one has challenged that the well was recompleted to a producing well.

The EMSU No. 462 is in a large waterflood unit which is operated under a unit agreement that has vertical limits within which wells may be recompleted to conform to unit operations. As contrasted with a single well spacing unit, the EMSU unit is quite different in that the unit and pretty much stands on its own. In other words, operating procedures may conform to the unit operating procedures differently than how the Division may approach approval of single well procedures. We do not know how the District Office of the Division may have proceeded in this case.

It would appear, in any event, that Goodnight should have subpoenaed records of the Division as well. It is possible for records to be misplaced in the Division's files at both the district level and the Santa Fe level, especially when transitions from paper files to electronic files which could have been occurring in that timeframe. Theoretically, in a single well situation, Rule 19.15.7.16 would have a stronger mandate than a unit well that already is within the vertical limits of the producing interval of the unit.

Goodnight brings its motion is in the nature of discovery and wants a certainty by way of a sworn statement that the wells files produced by Empire are the entire file records. The Division's order also requires a sworn statement that Empire has produced to Goodnight all of its well file on the No. 462 well. This is unprecedented considering the passage of time especially since XTO Energy was the operator of the unit from before the well was recompleted and has been an oil producing well from 2012 to 2021 when Empire acquired the EMSU Unit. Empire is the operator in the Eunice Monument Unit and has been since 2021. Goodnight is a party that has no financial interest at stake in EMSU and is using aggression to disrupt Empire's daily operations.

The New Mexico Rules of Civil Procedure shed light on this issue in that if a party in a civil lawsuit is requested to produce documents, the party on whom the request is served can only produce documents "which are the possession, custody, or control of the party on whom the request is served..."<sup>1</sup> This is not a case where Empire is withholding the requested well file. It has already produced its entire well file for the EMSU No. 462.

Empire has produced that which it had in its possession, custody and control. It cannot produce what it does not have.

### ***C. Conclusion.***

For the foregoing reasons, Goodnight's motion should be dismissed. The requested C-105 is not available from Empire's files which it acquired from XTO nor is it available from the Division's website.

---

<sup>1</sup> **A. Scope.** Any party may serve on any other party a request:

(1) to produce and permit the party making the request, or someone acting on the requestor's behalf, to inspect, copy, test, or sample any designated documents, electronically stored information, or any tangible things, which constitute or contain matters within the scope of Rule 1-026 NMRA, and which are in the possession, custody, or control of the party on whom the request is served; or ... (emphasis added).

NMRA, Rule 1-034

Respectfully submitted,

**Change of Operator**

**Previous Operator Information**

**New Operator Information**

Effective Date:	Effective on the date of approval by the OCD
OGRID: 5380	OGRID: 330679
Name: XTO ENERGY, INC	Name: Empire New Mexico LLC
Address: 6401 Holiday Hill Road	Address: 2200 S. Utica Place
Building #5	Suite 150
City, State, Zip: Midland, TX 79707	City, State, Zip: Tulsa, OK 74114

I hereby certify that the rules of the Oil Conservation Division ("OCD") have been complied with and that the information on this form and the certified list of wells is true to the best of my knowledge and belief.

Additionally, by signing below, Empire New Mexico LLC certifies that it has read and understands the following synopsis of applicable rules.

PREVIOUS OPERATOR certifies that all below-grade tanks constructed and installed prior to June 16, 2008 associated with the selected wells being transferred are either (1) in compliance with 19.15.17 NMAC, (2) have been closed pursuant to 19.15.17.13 NMAC or (3) have been retrofitted to comply with Paragraphs 1 through 4 of 19.15.17.11(I) NMAC.

**Empire New Mexico LLC understands that the OCD's approval of this operator change:**

1. constitutes approval of the transfer of the permit for any permitted pit, below-grade tank or closed-loop system associated with the selected wells; and
2. constitutes approval of the transfer of any below-grade tanks constructed and installed prior to June 16, 2008 associated with the selected wells, regardless of whether the transferor has disclosed the existence of those below-grade tanks to the transferee or to the OCD, and regardless of whether the below-grade tanks are in compliance with 19.15.17 NMAC.

**As the operator of record of wells in New Mexico, Empire New Mexico LLC agrees to the following statements:**

1. Initials TP I am responsible for ensuring that the wells and related facilities comply with applicable statutes and rules, and am responsible for all regulatory filings with the OCD. I am responsible for knowing all applicable statutes and rules, not just the rules referenced in this list. I understand that the OCD's rules are available on the OCD website under "Rules," and that the Water Quality Control Commission rules are available on the OCD website on the "Publications" page.
2. Initials TP I understand that if I acquire wells from another operator, the OCD must approve the operator change before I begin operating those wells. See Subsection B of 19.15.9.9 NMAC. I understand that if I acquire wells or facilities subject to a compliance order addressing inactive wells or environmental cleanup, before the OCD will approve the operator change it may require me to enter into an enforceable agreement to return those wells to compliance. See Paragraph (2) of Subsection C of 19.15.9.9 NMAC.
3. Initials TP I must file a monthly C-115 report showing production for each non-plugged well completion for which the OCD has approved an allowable and authorization to transport, and injection for each injection well. See 19.15.7.24 NMAC. I understand that the OCD may cancel my authority to transport from or inject into all the wells I operate if I fail to file C-115 reports. See Subsection C of 19.15.7.24 NMAC.
4. Initials TP I understand that New Mexico requires wells that have been inactive for certain time periods to be plugged or placed in approved temporary abandonment. See 19.15.25.8 NMAC. I understand the requirements for plugging and approved temporary abandonment in 19.15.25 NMAC. I understand that I can check my compliance with the basic requirements of 19.15.25.9 NMAC by using the "Inactive Well List" on OCD's website.
5. Initials TP I must keep current with financial assurances for well plugging. I understand that New Mexico requires each state or fee well that has been inactive for more than two years and has not been plugged and released to be covered by a single-well financial assurance or a "blanket plugging financial assurance for wells in temporarily abandoned statuses", even if the well is also covered by a blanket financial assurance and even if the well is on approved temporary abandonment status. See Subsection C of 19.15.8.9 NMAC. I understand that I can check my compliance with the financial assurance requirement by using the "Inactive Well Additional Financial Assurance Report" on the OCD's website.
6. Initials TP I am responsible for reporting and remediating releases pursuant to 19.15.29 NMAC. I understand the OCD will look to me as the operator of record to take corrective action for releases at my wells and related facilities, including releases that occurred before I became operator of record. I am responsible for conducting my own due diligence for any releases that have occurred prior to becoming operator of my wells and related facilities and am responsible for any open releases or unreported releases.
7. Initials TP I have read 19.15.5.9 NMAC, commonly known as "Part 5.9," and understand that to be in compliance with its requirements I must have the appropriate financial assurances in place, comply with orders requiring corrective action, pay penalties assessed by the courts or agreed to by me in a settlement agreement, and not have too many wells out of compliance with the inactive well rule (19.15.25.8 NMAC). If I am in violation of Part 5.9, I may not be allowed to drill, acquire or produce any additional wells, and will not be able to obtain any new injection permits. See 19.15.16.19 NMAC, 19.15.26.8 NMAC, 19.15.9.9 NMAC and 19.15.14.10 NMAC. If I am in violation of Part 5.9 the OCD may, after notice and hearing, revoke my existing injection permits and seek other relief. See 19.15.26.8 NMAC and 19.15.5.10 NMAC.
8. Initials TP For injection wells, I understand that I must report injection on my monthly C-115 report and must operate my wells in compliance with 19.15.26 NMAC and the terms of my injection permit. I understand that I must conduct mechanical integrity tests on my injection wells at least once every five years. See 19.15.26.11 NMAC. I understand that when there is a continuous one-year period of non-injection into all wells in an injection or storage project or into a saltwater disposal well or special purpose injection well, authority for that injection automatically terminates. See 19.15.26.12 NMAC. I understand that if I transfer operation of an injection well to another operator, the OCD must approve the transfer of authority to inject, and the OCD may require me to demonstrate the well's mechanical integrity prior to approving that transfer. See 19.15.26.15 NMAC.
9. Initials TP I am responsible for providing the OCD with my current address of record and emergency contact information, and I am responsible for updating that information when it changes. See Subsection C of 19.15.9.8 NMAC. I understand that I can update that information on the OCD's website under "Electronic Permitting."
10. Initials TP If I transfer well operations to another operator, the OCD must approve the change before the new operator can begin operations. See Subsection B of 19.15.9.9 NMAC. I remain responsible for the wells and related facilities and all related regulatory filings until the OCD approves the operator change. I understand that the transfer will not relieve me of responsibility or liability for any act or omission which occurred while I operated the wells and related facilities.
11. Initials TP No person with an interest exceeding 25% in the undersigned company is, or was within the last 5 years, an officer, director, partner or person with a 25% or greater interest in another entity that is not currently in compliance with Subsection A of 19.15.5.9 NMAC.
12. Initials TP NMOCD Rule Subsection E and F of 19.15.16.8 NMAC: An operator shall have 90 days from the effective date of an operator name change to change the operator name on the well sign unless the division grants an extension time, for good cause shown, along with a schedule for making the changes. Each sign shall show the (1) well number, (2) property name, (3) operator's name, (4) location by footage, quarter-quarter section, township and range (or unit letter can be substituted for the quarter-quarter section), and (5) API number.

I hereby certify I understand the above. The statements I have made are true and correct and a condition precedent to the Oil Conservation Division accepting this Change of Operator.

emathes	There are 19 non-compliant wells included in this transfer. These wells will need to be removed and the remaining compliant wells may be transferred together. The other non compliant wells will need to be transferred individually. There is \$642,806.00 Single Well Bonds or TA blanket bonding required for these non compliant wells. The bonding must be in place prior to the resubmittals of the remaining individual transfers for non-compliant wells.	6/17/2021
emathes	All non compliant wells must be removed API number 30-025-35419 Has not produced since: 02/17 A single well bond of \$32776 is required	7/6/2021
