OBJECTIVE: Convert WSW to Grayburg Oil Producer.

**Eunice Monument South Unit #462 WSW
Convert Well from WSW to Oil Producer in Grayburg
Lea County, New Mexico
December 1, 2011**

RECOMMENDED PROCEDURE

*(Verify that anchors have been set and tested per NMOCD and OSHA guidelines)
This is a STATE well.*

1. MIRU PU. MI and rack 4300' 2-7/8" 6.5ppf, N-80, EUE, 8rd work string.
2. ND WH. NU BOP with 2-7/8" rams.
3. RU wireline company. RIH with gauge ring to 4280'. POOH and LD gauge ring.
4. RIH with 8-5/8" CIBP on wireline and **set CIBP at 4260'**. POOH and RD wireline.
5. RIH with 8-5/8" packer on 2-7/8" WS and **set packer at 4250'**.
6. Load tubing and test CIBP with brine water to 1000 psig. POOH with 2-7/8" tubing and LD 8-5/8" packer.
7. MI and rack 4400' of 5-1/2" 17ppf, J-55, LTC casing. ND BOP with 2-7/8" rams. RU welder. Weld on new 5-1/2" casing bowl to WH. NU BOP with 5-1/2" rams.
8. RIH with 5-1/2" float shoe, 1jt of 5-1/2" 17ppf casing, float collar, 5-1/2" 17ppf casing to CIBP at 4260'. Space 5-1/2" centralizers from 4260' to 3600'.
9. RU cement company. Establish circulation out 8-5/8" x 5-1/2" annulus with 20 bbls fresh water with the following mixture:

Lead Slurry: Mix and circulate 275 sx EconoCem-HLC (Halliburton) cement at 12.4ppg.

Tail Slurry: Mix and circulate 260 sx VersaCem-C (Halliburton) cement at 14.4ppg

Circulate out 8-5/8 x 5-1/2" annulus at surface. Drop wiper plug and displace with ~~brine~~ ^{fresh} water. RD cement company. WOC over night.

10. Set 5-1/2" casing slips. ND BOP with 5-1/2" rams. Cut off excess 5-1/2" 17ppf casing and weld on WH. NU BOP with 2-7/8" rams.
11. RIH with 4-3/4" bit on 2-7/8" WS and CO to 4210'. POOH with 2-7/8" WS and LD 4-3/4" bit.

**Eunice Monument South Unit #462 WSW
Convert Well from WSW to Oil Producer in Grayburg
Lea County, New Mexico
December 1, 2011**

12. Load and test 5-1/2" 17ppf casing with brine water to 500 psig.
Fresh?

13. RU wireline company. RIH with 3-1/8" casing gun on wireline loaded with premium charges and perforate 2 SPF the following intervals:

Top	Bottom	Length	Type	Formation	SPF	Shots	Date	Comments
3794	3797	3	Perf	Grayburg	2	6	2011	
3811	3814	3	Perf	Grayburg	2	6	2011	
3818	3821	3	Perf	Grayburg	2	6	2011	
3826	3828	2	Perf	Grayburg	2	4	2011	
3835	3842	7	Perf	Grayburg	2	14	2011	
3859	3862	3	Perf	Grayburg	2	6	2011	
3873	3887	14	Perf	Grayburg	2	28	2011	
3890	3893	3	Perf	Grayburg	2	6	2011	
3898	3900	2	Perf	Grayburg	2	4	2011	
Total =						80		

14. RIH with 5-1/2" treating packer on 2-7/8" WS. **Set packer at 3730'.**

15. MIRU acid company. Test lines to 4000 psig. Load and test TCA with brine to 500 psig and monitor during job. Acidize Grayburg perforations from 3794' – 3900' with **3650 gal of 20% 90/10 acid** while spacing **120 - 1.3 SG ball sealers** at 5 BPM and a maximum pressure of 3000 psig with the following schedule.

- a. Load tubing with brine.
- b. Spot 150 gal acid across perforations and let sit 30 minutes.
- c. Establish injection rate with brine water.
- d. Pump 500 gal acid.
- e. Pump 3000 gal acid while dropping 120 - 1.3 SG ball sealers evenly throughout stage.
- f. Flush to bottom perf with brine.

Note: Record ISIP and 5-10-15 minute pressures.

16. RDMO acid company. Shut well in for two hours for acid to spend. Release packer. RIH with 5-1/2" packer to 3900' to knock balls off of perforations. PUH with 5-1/2" packer and set at 3730'.

17. RU swab and swab back acid load. Determine flow rate and oil cut. Report results to Midland. POOH and LD 5-1/2" packer and 2-7/8" WS.

**STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION**

**APPLICATION OF GOODNIGHT MIDSTREAM
PERMIAN, LLC FOR APPROVAL OF A
SALTWATER DISPOSAL WELL,
LEA COUNTY, NEW MEXICO**

Case No. 22626

VERIFIED RESPONSE TO MOTION TO COMPEL

For its Response to Goodnight Midstream Permian, LLC's ("Goodnight") motion, Empire New Mexico, LLC ("Empire") states:

A. Background.

Goodnight's motion is nothing more than an attempt to blame Empire for a missing C-105 that changed the EMSU No. 462 from a water source well to a producing well in early 2012. At that time XTO Energy was the operator of the Eunice Monument South Unit. Now Goodnight raises the issue of a missing C-105 that should have been filed approximately ten years ago. It argues that a C-105 was not filed and approved, and therefore, the allowable for the well should be withheld. Empire acquired the EMSU Unit in mid-2021.

B. Possible Scenarios.

Empire's inability to produce the C-105 does not mean that the C-105 was not filed by XTO or approved by the Division. Certainly, the filings of XTO are remarkable and detailed as evidenced by the C-104 attached to Goodnight's motion to suspend allowable. We can draw the following theories from the filings that have been produced by Empire to Goodnight and those on file on the Division's Website:

- XTO filed the C-105 and was likely approved by the Division because the well was put into production, and the Division did not record the approved C-105 in its website or filing system;

**BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico**

Exhibit No. 2

Submitted by: Goodnight Midstream Permian, LLC

Hearing Date: March 2, 2023

Case No. 23339

- The approved C-105 was not sent to XTO by the Division;
- XTO did not file the C-105 for approval, which seems unlikely considering the detail of the approved C-101;
- The C-145 between XTO and Empire shows no discrepancy with respect to the well. (A copy of the C-145 is attached.)

Any notion that Empire has withheld the C-105 in its production of well files is not supported by the fact that the OCD website also does not contain the C-105. The fact that the well was converted to a producing well is presumptive that the C-105 was approved. Until now no one has challenged that the well was recompleted to a producing well.

The EMSU No. 462 is in a large waterflood unit which is operated under a unit agreement that has vertical limits within which wells may be recompleted to conform to unit operations. As contrasted with a single well spacing unit, the EMSU unit is quite different in that the unit and pretty much stands on its own. In other words, operating procedures may conform to the unit operating procedures differently than how the Division may approach approval of single well procedures. We do not know how the District Office of the Division may have proceeded in this case.

It would appear, in any event, that Goodnight should have subpoenaed records of the Division as well. It is possible for records to be misplaced in the Division's files at both the district level and the Santa Fe level, especially when transitions from paper files to electronic files which could have been occurring in that timeframe. Theoretically, in a single well situation, Rule 19.15.7.16 would have a stronger mandate than a unit well that already is within the vertical limits of the producing interval of the unit.

Goodnight brings its motion is in the nature of discovery and wants a certainty by way of a sworn statement that the wells files produced by Empire are the entire file records. The Division's order also requires a sworn statement that Empire has produced to Goodnight all of its well file on the No. 462 well. This is unprecedented considering the passage of time especially since XTO Energy was the operator of the unit from before the well was recompleted and has been an oil producing well from 2012 to 2021 when Empire acquired the EMSU Unit. Empire is the operator in the Eunice Monument Unit and has been since 2021. Goodnight is a party that has no financial interest at stake in EMSU and is using aggression to disrupt Empire's daily operations.

The New Mexico Rules of Civil Procedure shed light on this issue in that if a party in a civil lawsuit is requested to produce documents, the party on whom the request is served can only produce documents "which are the possession, custody, or control of the party on whom the request is served..."¹ This is not a case where Empire is withholding the requested well file. It has already produced its entire well file for the EMSU No. 462.

Empire has produced that which it had in its possession, custody and control. It cannot produce what it does not have.

C. Conclusion.

For the foregoing reasons, Goodnight's motion should be dismissed. The requested C-105 is not available from Empire's files which it acquired from XTO nor is it available from the Division's website.

¹ **A. Scope.** Any party may serve on any other party a request:

(1) to produce and permit the party making the request, or someone acting on the requestor's behalf, to inspect, copy, test, or sample any designated documents, electronically stored information, or any tangible things, which constitute or contain matters within the scope of Rule 1-026 NMRA, and which are in the possession, custody, or control of the party on whom the request is served; or ... (emphasis added).

NMRA, Rule 1-034

Change of Operator

Previous Operator Information

New Operator Information

Effective Date:	Effective on the date of approval by the OCD	
OGRID:	<u>5380</u>	OGRID: <u>330679</u>
Name:	<u>XTO ENERGY, INC</u>	Name: <u>Empire New Mexico LLC</u>
Address:	<u>6401 Holiday Hill Road</u>	Address: <u>2200 S. Utica Place</u>
	<u>Building #5</u>	<u>Suite 150</u>
City, State, Zip:	<u>Midland, TX 79707</u>	City, State, Zip: <u>Tulsa, OK 74114</u>

I hereby certify that the rules of the Oil Conservation Division ("OCD") have been complied with and that the information on this form and the certified list of wells is true to the best of my knowledge and belief.

Additionally, by signing below, Empire New Mexico LLC certifies that it has read and understands the following synopsis of applicable rules.

PREVIOUS OPERATOR certifies that all below-grade tanks constructed and installed prior to June 16, 2008 associated with the selected wells being transferred are either (1) in compliance with 19.15.17 NMAC, (2) have been closed pursuant to 19.15.17.13 NMAC or (3) have been retrofitted to comply with Paragraphs 1 through 4 of 19.15.17.11(I) NMAC.

Empire New Mexico LLC understands that the OCD's approval of this operator change:

1. constitutes approval of the transfer of the permit for any permitted pit, below-grade tank or closed-loop system associated with the selected wells; and
2. constitutes approval of the transfer of any below-grade tanks constructed and installed prior to June 16, 2008 associated with the selected wells, regardless of whether the transferor has disclosed the existence of those below-grade tanks to the transferee or to the OCD, and regardless of whether the below-grade tanks are in compliance with 19.15.17 NMAC.

As the operator of record of wells in New Mexico, Empire New Mexico LLC agrees to the following statements:

1. Initials TP I am responsible for ensuring that the wells and related facilities comply with applicable statutes and rules, and am responsible for all regulatory filings with the OCD. I am responsible for knowing all applicable statutes and rules, not just the rules referenced in this list. I understand that the OCD's rules are available on the OCD website under "Rules," and that the Water Quality Control Commission rules are available on the OCD website on the "Publications" page.
2. Initials TP I understand that if I acquire wells from another operator, the OCD must approve the operator change before I begin operating those wells. See Subsection B of 19.15.9.9 NMAC. I understand that if I acquire wells or facilities subject to a compliance order addressing inactive wells or environmental cleanup, before the OCD will approve the operator change it may require me to enter into an enforceable agreement to return those wells to compliance. See Paragraph (2) of Subsection C of 19.15.9.9 NMAC.
3. Initials TP I must file a monthly C-115 report showing production for each non-plugged well completion for which the OCD has approved an allowable and authorization to transport, and injection for each injection well. See 19.15.7.24 NMAC. I understand that the OCD may cancel my authority to transport from or inject into all the wells I operate if I fail to file C-115 reports. See Subsection C of 19.15.7.24 NMAC.
4. Initials TP I understand that New Mexico requires wells that have been inactive for certain time periods to be plugged or placed in approved temporary abandonment. See 19.15.25.8 NMAC. I understand the requirements for plugging and approved temporary abandonment in 19.15.25 NMAC. I understand that I can check my compliance with the basic requirements of 19.15.25.9 NMAC by using the "Inactive Well List" on OCD's website.
5. Initials TP I must keep current with financial assurances for well plugging. I understand that New Mexico requires each state or fee well that has been inactive for more than two years and has not been plugged and released to be covered by a single-well financial assurance or a "blanket plugging financial assurance for wells in temporarily abandoned statuses", even if the well is also covered by a blanket financial assurance and even if the well is on approved temporary abandonment status. See Subsection C of 19.15.8.9 NMAC. I understand that I can check my compliance with the financial assurance requirement by using the "Inactive Well Additional Financial Assurance Report" on the OCD's website.
6. Initials TP I am responsible for reporting and remediating releases pursuant to 19.15.29 NMAC. I understand the OCD will look to me as the operator of record to take corrective action for releases at my wells and related facilities, including releases that occurred before I became operator of record. I am responsible for conducting my own due diligence for any releases that have occurred prior to becoming operator of my wells and related facilities and am responsible for any open releases or unreported releases.
7. Initials TP I have read 19.15.5.9 NMAC, commonly known as "Part 5.9," and understand that to be in compliance with its requirements I must have the appropriate financial assurances in place, comply with orders requiring corrective action, pay penalties assessed by the courts or agreed to by me in a settlement agreement, and not have too many wells out of compliance with the inactive well rule (19.15.25.8 NMAC). If I am in violation of Part 5.9, I may not be allowed to drill, acquire or produce any additional wells, and will not be able to obtain any new injection permits. See 19.15.16.19 NMAC, 19.15.26.8 NMAC, 19.15.9.9 NMAC and 19.15.14.10 NMAC. If I am in violation of Part 5.9 the OCD may, after notice and hearing, revoke my existing injection permits and seek other relief. See 19.15.26.8 NMAC and 19.15.5.10 NMAC.
8. Initials TP For injection wells, I understand that I must report injection on my monthly C-115 report and must operate my wells in compliance with 19.15.26 NMAC and the terms of my injection permit. I understand that I must conduct mechanical integrity tests on my injection wells at least once every five years. See 19.15.26.11 NMAC. I understand that when there is a continuous one-year period of non-injection into all wells in an injection or storage project or into a saltwater disposal well or special purpose injection well, authority for that injection automatically terminates. See 19.15.26.12 NMAC. I understand that if I transfer operation of an injection well to another operator, the OCD must approve the transfer of authority to inject, and the OCD may require me to demonstrate the well's mechanical integrity prior to approving that transfer. See 19.15.26.15 NMAC.
9. Initials TP I am responsible for providing the OCD with my current address of record and emergency contact information, and I am responsible for updating that information when it changes. See Subsection C of 19.15.9.8 NMAC. I understand that I can update that information on the OCD's website under "Electronic Permitting."
10. Initials TP If I transfer well operations to another operator, the OCD must approve the change before the new operator can begin operations. See Subsection B of 19.15.9.9 NMAC. I remain responsible for the wells and related facilities and all related regulatory filings until the OCD approves the operator change. I understand that the transfer will not relieve me of responsibility or liability for any act or omission which occurred while I operated the wells and related facilities.
11. Initials TP No person with an interest exceeding 25% in the undersigned company is, or was within the last 5 years, an officer, director, partner or person with a 25% or greater interest in another entity that is not currently in compliance with Subsection A of 19.15.5.9 NMAC.
12. Initials TP NMOCD Rule Subsection E and F of 19.15.16.8 NMAC: An operator shall have 90 days from the effective date of an operator name change to change the operator name on the well sign unless the division grants an extension time, for good cause shown, along with a schedule for making the changes. Each sign shall show the (1) well number, (2) property name, (3) operator's name, (4) location by footage, quarter-quarter section, township and range (or unit letter can be substituted for the quarter-quarter section), and (5) API number.

I hereby certify I understand the above. The statements I have made are true and correct and a condition precedent to the Oil Conservation Division accepting this Change of Operator.

emathes	There are 19 non-compliant wells included in this transfer. These wells will need to be removed and the remaining compliant wells may be transferred together. The other non compliant wells will need to be transferred individually. There is \$642,806.00 Single Well Bonds or TA blanket bonding required for these non compliant wells. The bonding must be in place prior to the resubmittals of the remaining individual transfers for non-compliant wells.	6/17/2021
emathes	All non compliant wells must be removed API number 30-025-35419 Has not produced since: 02/17 A single well bond of \$32776 is required	7/6/2021

19.15.7.16 WELL COMPLETION OR RECOMPLETION REPORT AND LOG (Form C-105):

A. Within 45 days following the completion or recompletion of a well, the operator shall file form C-105 with the division accompanied by a summary of special tests conducted on the well, including drill stem tests. In addition, the operator shall file a copy of electrical and radio-activity logs run on the well with form C-105. If the division does not receive form C-105 with attached logs and summaries within the specified 45-day period, the division shall withhold the allowable for the well or suspend injection authority, as appropriate, until the operator has complied with 19.15.7.16 NMAC.

B. In the case of a dry hole, a complete record of the well on form C-105 with the attachments listed in Subsection A of 19.15.7.16 NMAC shall accompany the notice of intention to plug the well, unless previously filed. The division shall not approve the plugging report or release the bond the operator has complied with 19.15.7.16 NMAC.

C. The division shall not keep form C-105 and accompanying attachments confidential unless the well's owner requests in writing that the division keep it confidential. Upon such request, the division shall keep these data confidential for 90 days from the date of the well's completion, provided, however, that the report, logs and other attached data may, when pertinent, be introduced in a public hearing before division examiners, the commission or in a court of law, regardless of the request that they be kept confidential.

Ernie,

Please see the attached copy of the application filed today on behalf of Goodnight. We are also providing notice to Empire by certified mail. We are happy to discuss as we get closer to the hearing date on this.

Best,
Adam
