STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT **OIL CONSERVATION DIVISION**

APPLICATION OF MRC PERMIAN COMPANY FOR APPROVAL OF AN OVERLAPPING HORIZONAL WELL SPACING UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO.

CASE NO. 23742

APPLICATION

MRC Permian Company ("MRC" or "Applicant"), through undersigned attorneys, files

this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, §

70-2-17, for an order (a) approving a standard 320-acre, more or less, overlapping horizontal well

spacing unit in the Bone Spring formation underlying the Lots 1-4 (W2W2 equivalent) of irregular

Sections 7 and 18, Township 25 South, Range 35 East, NMPM, Lea County, New Mexico, and

(b) pooling all uncommitted mineral interests in this overlapping horizontal well spacing unit. In

support of its application, MRC states:

1. Applicant is a working interest owner in the proposed horizontal well spacing unit

and has the right to drill thereon.

2. Applicant seeks to designate Matador Production Company (OGRID No. 228937)

as the operator of the proposed horizontal spacing unit.

3. Applicant seeks to initially dedicate the above-referenced horizontal well spacing

unit to the proposed Biggers 18&7 Fed Com 111H and the Biggers 18&7 Fed Com 121H wells

to be horizontally drilled from Lot 4 (SW4SW4 equivalent) of Section 18 to a bottom hole location

in Lot 1 (NWNW4 equivalent) of Section 7.

4. This proposed horizontal well spacing unit will overlap a horizontal spacing unit in

the WC-025 G-09 S243532M; Wolfbone Pool (98098), an interval and pool different from that

BEFORE THE OIL CONSERVATION DIVISION

targeted by the proposed wells, comprised of the W2 equivalent of irregular Sections 6 and 7 of Township 25 South, Range 35 East, dedicated to the following wells:

COG Stove Pipe Fed Com 601H (30-025-46556) COG Stove Pipe Fed Com 603H (30-025-46500) COG Stove Pipe Fed Com 702H (30-025-46557) COG Stove Pipe Fed Com 706H (30-025-46503) COG Stove Pipe Fed Com 707H (30-025-46504)

- 5. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all interest owners in the subject spacing unit.
- 6. Approval of this overlapping horizontal well spacing unit the pooling of interests will allow Applicant to obtain a just and fair share of the oil and gas underlying the subject lands, avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on September 7, 2023, and, after notice and hearing as required by law, the Division enter an order:

- A. Approving this overlapping horizontal well spacing unit and pooling all uncommitted interests therein;
- B. Designating Matador Production Company as operator of this horizontal well spacing unit and the wells to be drilled thereon;
- C. Authorizing Applicant to recover its costs of drilling, completing, and equipping the wells;
- D. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

E. Imposing a 200% penalty for the risk assumed by Applicant in drilling and completing the wells against any working interest owner who does not voluntarily participate in the drilling of the wells.

Respectfully submitted,

ATTORNEYS FOR MRC PERMIAN COMPANY

CASE :

Application of MRC Permian Company for Approval of an Overlapping Horizontal Well Spacing Unit and Compulsory Pooling, Lea County, New Mexico. Applicant in the above-styled cause seeks an order (a) approving an overlapping 320-acre, more or less, standard horizontal well spacing unit in the Bone Spring formation underlying the Lots 1-4 (W2W2 equivalent) of irregular Sections 7 and 18, Township 25 South, Range 35 East, NMPM, Lea County, New Mexico, and (b) pooling all uncommitted mineral interests in this overlapping horizontal well spacing unit. Said unit will be initially dedicated to the proposed Biggers 18&7 Fed Com 111H and the Biggers 18&7 Fed Com 121H wells to be horizontally drilled from Lot 4 (SW4SW4 equivalent) of Section 18 to a bottom hole location in Lot 1 (NWNW4 equivalent) of Section 7. This proposed horizontal well spacing unit will overlap a horizontal spacing unit in the WC-025 G-09 S243532M; Wolfbone Pool (98098), an interval and pool different from by that targeted by the proposed wells, comprised of the W2 equivalent of irregular Sections 6 and 7 of Township 25 South, Range 35 East, dedicated to the following wells:

COG Stove Pipe Fed Com 601H (30-025-46556)

COG Stove Pipe Fed Com 603H (30-025-46500)

COG Stove Pipe Fed Com 702H (30-025-46557)

COG Stove Pipe Fed Com 706H (30-025-46503)

COG Stove Pipe Fed Com 707H (30-025-46504)

Also, to be considered will be the cost of drilling and completing the wells and the allocation of the cost thereof, actual operating costs and charges for supervision, designation of Matador Production Company as operator of the wells, and a 200% charge for risk involved in drilling said wells. Said area is located approximately 12 miles west of Jal, New Mexico.

STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATIONS OF MRC PERMIAN COMPANY FOR APPROVAL OF AN OVERLAPPING HORIZONTAL WELL SPACING UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO.

CASE NOS. 23742

SELF-AFFIRMED STATEMENT OF ISAAC EVANS

Isaac Evans, of lawful age and being first duly sworn, declares as follows:

1. My name is Isaac Evans. I work for MRC Energy Company, an affiliate of Matador

Production Company ("Matador"), as a Landman.

2. I have previously testified before the New Mexico Oil Conservation Division as an

expert witness in petroleum land matters. My credentials as a petroleum landman have been

accepted by the Division and made a matter of public record.

3. I am familiar with the application filed by Matador in this case, and I am familiar

with the status of the lands in the subject area.

4. In this case, Matador is seeking an order pooling all uncommitted interests in the

Bone Spring formation in the standard 320-acre, more or less, horizontal well spacing unit

comprised of Lots 1-4 (W/2 W/2 equivalent) of Sections 7 and 18, Township 25 South,

Range 35 East, NMPM, Lea County, New Mexico, and initially dedicate this Bone Spring

spacing unit to the proposed Biggers 18&7 Fed Com 111H and the Biggers 18&7 Fed

Com 121H wells to be horizontally drilled from Lot 4 (SW/4 SW/4 equivalent) of Section

18 to a bottom hole location in Lot 1 (NW/4 NW/4 equivalent) of Section 7.

BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. C

- 5. Matador understands this well will be placed in the WC-025 G-08 S2535240; Bone Spring (97088) pool.
- 6. This 320-acre horizontal well spacing unit will overlap a horizontal spacing unit in the WC-025 G-09 S243532M; Wolfbone Pool (98098), an interval and pool different from by that targeted by the proposed wells, comprised of the W2 equivalent of irregular Sections 6 and 7 of Township 25 South, Range 35 East, dedicated to the following wells: COG Stove Pipe Fed Com 601H (30-025-46556), COG Stove Pipe Fed Com 603H (30-025-46500), COG Stove Pipe Fed Com 702H (30-025-46557), COG Stove Pipe Fed Com 706H (30-025-46503) and COG Stove Pipe Fed Com 707H (30-025-46504).
- 7. A map showing each of the above-referenced overlapping spacing units is attached as Matador Exhibit C-1.
- 8. Matador previously provided Holland and Hart with a list of the working interest owners in both Matador's proposed spacing unit in this case as well as the working interest owners in the COG Stove Pipe Fed Com 601H (30-025-46556), COG Stove Pipe Fed Com 603H (30-025-46500), COG Stove Pipe Fed Com 702H (30-025-46557), COG Stove Pipe Fed Com 706H (30-025-46503) and COG Stove Pipe Fed Com 707H (30-025-46504) wells, along with the Bureau of Land Management, and requested that they be provided with notice of this hearing.
 - 9. **Matador Exhibit C-2** contains the Form C-102 for each of the proposed wells.
- 10. The completed intervals for the proposed well will remain within the standard setbacks required by the statewide rules set forth in 19.15.16.15 NMAC.

- 11. **Matador Exhibit C-3** identifies the tracts of land comprising the proposed horizontal spacing units. The land in the proposed spacing unit is comprised of fee and federal lands.
- 12. **Matador Exhibit C-4** identifies for the working interest owners that Matador is seeking to pool along with their respective ownership interest in the proposed horizontal spacing unit. **Matador Exhibit C-4** also identifies the record title owners that Matador seeks to pool in this case.
- 13. **Matador Exhibit C-5** identifies the overriding royalty owners that Matador seeks to pool in this case.
 - 14. There are no depth severances within the Bone Spring formation for this acreage.
- 15. While Matador was working to put this unit together, Matador proposed the above well to each of the working interest parties it seeks to pool. **Matador Exhibit C-6** contains a sample well proposal letter that was sent to those parties, along with the AFE sent to working interest owners for each well. The costs reflected in the AFE are consistent with what other operators have incurred for drilling similar horizontal wells in the area.
- 16. In addition to sending well proposal letters and AFEs, I have called or emailed each of the working interest owners Matador seeks to pool, to the extent we had contact information. As indicated in **Matador Exhibit C-7**, we have been able to contact and have discussions with all of the working interest owners we seek to pool.
- 17. **Matador Exhibit C-7** contains a summary chronology of Matador's contacts and attempted contacts with the uncommitted working interest owners. In my opinion, Matador has undertaken good faith efforts to reach an agreement with the uncommitted mineral owners that Matador seeks to pool in this case.

- 18. Matador has made an estimate of overhead and administrative costs for drilling and producing the proposed well. It is \$8,000/month while drilling, and \$800/month while producing. These costs are consistent with what other operators are charging in this area for these types of wells. Matador respectfully requests that these administrative and overhead costs be incorporated into any order entered by the Division in this case.
- 19. I provided Matador's outside counsel, Holland & Hart, a list of names and addresses for the parties that Matador is seeking to pool. In compiling this notice list, Matador conducted a diligent search of all public records in the county where the proposed wells are located and of phone directories, including computer searches.
- 20. **Matador Exhibits C-1 through C-7** were either prepared by me or compiled under my direction and supervision.
- 21. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature below.

Biggers 18&7 Fed Com #111H, #112H, #121H, #122H, #221H & #222H (the "Wells")

Participation Proposal

Lots 1 - 4 (W/2W/2), E/2NW/4, E/2SW/4 of Section 7 & Lots 1 - 4 (W/2W/2), E/2W/2 of Section 18,

Township 25 South, Range 35 East, Lea County, New Mexico

Dear Sir/Madam:

MRC Permian Company hereby rescinds the well proposals dated June 24, 2021 related to the Biggers 18&7 Fed Com #111H, Biggers 18&7 Fed Com #121H & Biggers 18&7 Fed Com #122H wells, located in the W/2 of Sections 18 and 7, Township 25 South, Range 35 East, Lea County, New Mexico.

To provide further clarification and details, MRC Permian Company ("MRC") now proposes the drilling of Matador Production Company's Biggers 18&7 Fed Com #111H, Biggers 18&7 Fed Com #121H & Biggers 18&7 Fed Com #122H wells, located in Lots 1 – 4 (W/2W/2), E/2NW/4, E/2SW/4 of Section 7 & Lots 1 – 4 (W/2W/2), E/2W/2 of Section 18, Township 25 South, Range 35 East, Lea County, New Mexico.

MRC also proposes the drilling of Matador Production Company's Biggers 18&7 Fed Com #221H & Biggers 18&7 Fed Com #222H wells, located in Lots 1 – 4 (W/2W/2), E/2NW/4, E/2SW/4 of Section 7 & Lots 1 – 4 (W/2W/2), E/2W/2 of Section 18, Township 25 South, Range 35 East, Lea County, New Mexico.

In connection with the above, please note the following:

- The estimated cost of drilling, testing, completing, and equipping of the Biggers 18&7 Fed Com #111H, Biggers 18&7 Fed Com #12H, Biggers 18&7 Fed Com #12H & Biggers 18&7 Fed Com #122H is itemized on the four (4) enclosed Authority for Expenditures ("AFE") dated February 23, 2023.
- The estimated cost of drilling, testing, completing, and equipping of the Biggers 18&7 Fed Com #221H &
 Biggers 18&7 Fed Com #222H is itemized on the two (2) enclosed Authority for Expenditures ("AFE")
 dated May 25, 2023.
- Biggers 18&7 Fed Com #111H: to be drilled from a legal location with a proposed surface hole location in Lot 4 (SW/4SW/4) of Section 18-25S-35E, a proposed first take point located at 100' FSL and 990' FWL of Section 18-25S-35E, and a proposed last take point located at 100' FNL and 990' FWL of Section 7-25S-35E. The Well will have a targeted interval within the Bone Spring formation and will be drilled horizontally in the Bone Spring (~10,550' TVD) to a Measured Depth of approximately 20,717'.

- Biggers 18&7 Fed Com #112H: to be drilled from a legal location with a proposed surface hole location in the SE/4SW/4 of Section 18-25S-35E, a proposed first take point located at 100' FSL and 2,305' FWL of Section 18-25S-35E, and a proposed last take point located at 100' FNL and 2,310' FWL of Section 7-25S-35E. The Well will have a targeted interval within the Bone Spring formation and will be drilled horizontally in the Bone Spring (~10,515' TVD) to a Measured Depth of approximately 20,682'.
- Biggers 18&7 Fed Com #121H: to be drilled from a legal location with a proposed surface hole location in Lot 4 (SW/4SW/4) of Section 18-25S-35E, a proposed first take point located at 100' FSL and 335' FWL of Section 18-25S-35E, and a proposed last take point located at 100' FNL and 335' FWL of Section 7-25S-35E. The Well will have a targeted interval within the Bone Spring formation and will be drilled horizontally in the Bone Spring (~11,110' TVD) to a Measured Depth of approximately 21,277'.
- Biggers 18&7 Fed Com #122H: to be drilled from a legal location with a proposed surface hole location in the SE/4SW/4 of Section 18-25S-35E, a proposed first take point located at 100' FSL and 1,650' FWL of Section 18-25S-35E, and a proposed last take point located at 100' FNL and 1,650' FWL of Section 7-25S-35E. The Well will have a targeted interval within the Bone Spring formation and will be drilled horizontally in the Bone Spring (~11,110' TVD) to a Measured Depth of approximately 20,976'.
- Biggers 18&7 Fed Com #221H: to be drilled from a legal location with a proposed surface hole location in Lot 4 (SW/4SW/4) of Section 18-25S-35E, a proposed first take point located at 100' FSL and 660' FWL of Section 18-25S-35E, and a proposed last take point located at 100' FNL and 660' FWL of Section 7-25S-35E. The Well will have a targeted interval within the Wolfcamp formation and will be drilled horizontally in the Wolfcamp (~13,010' TVD) to a Measured Depth of approximately 23,277'.
- Biggers 18&7 Fed Com #222H: to be drilled from a legal location with a proposed surface hole location in the SE/4SW/4 of Section 18-25S-35E, a proposed first take point located at 100' FSL and 1,980' FWL of Section 18-25S-35E, and a proposed last take point located at 100' FNL and 1,980' FWL of Section 7-25S-35E. The Well will have a targeted interval within the Wolfcamp formation and will be drilled horizontally in the Wolfcamp (~13,000' TVD) to a Measured Depth of approximately 23,267'.

MRC reserves the right to modify the locations and drilling plans described above in order to address topography, cultural or environmental concerns, among other reasons. MRC will advise you of any such modifications.

MRC requests that you indicate your election to participate in the drilling and completion of the Wells in the space provided below, sign and return one (1) copy of this letter to the undersigned.

MRC is proposing to drill the Wells under the terms of the modified 1989 AAPL form of Operating Agreement, which is enclosed for your review. The proposed Operating Agreement is dated January 1, 2023, by and between Matador Production Company, as Operator and MRC Permian Company, et al as Non-Operators, covers certain depths in Lots 1 – 4 (W/2W/2), E/2NW/4, E/2SW/4 of Section 7 & Lots 1 – 4 (W/2W/2), E/2W/2 of Section 18, Township 25 South, Range 35 East, Lea County, New Mexico, and has the following general provisions:

- 100/300/300 Non-consenting penalty
- \$8,000/\$800 Drilling and Producing rate
- Matador Production Company named as Operator

If your election is to participate in the drilling and completion of the Wells, please sign and return a copy of the enclosed AFEs within thirty (30) days of receipt of this notice. Please be aware that the enclosed AFEs are only an estimate of costs to be incurred and by electing to participate in the Wells, each working interest owner shall be responsible for its proportionate share of all costs incurred.

Thank you for your consideration of this proposal. Please contact me if you have any questions.

Sincerely,

MRC PERMIAN COMPANY

Isaac C. Evans

Participate for its proportionate share of the costs detailed in the enclosed AFE associated with Matador Production Company's Biggers 18&7 Fed Com #111H well.

APPLICATIONS OF MRC PERMIAN COMPANY FOR APPROVAL OF AN OVERLAPPING HORIZONTAL WELL SPACING UNIT AND FOR COMPULSORY POOLING, LEA COUNTY, NEW MEXICO.

CASE NOS. 23742, 23743, 23744 and 23745

<u>AFFIDAVIT OF LIZ OLSON</u>

Liz Olson, of lawful age and being first duly sworn, declares as follows:

- 1. My name is Liz Olson and I am employed by MRC Energy Company, an affiliate of Matador Production Company ("Matador"), as a Senior Geologist.
- 2. I graduated from Washington and Lee University in 2014 with a bachelor's degree in geology. Following graduation, I worked for Advanced Resources International, an energy research and consulting firm, for about one year before attending Louisiana State University where I earned a master's degree in geology and geophysics and a graduate certificate in Applied Depositional Systems in 2017. During the Summer of 2016, I worked as a geoscience intern for Indigo Natural Resources. After receiving my master's degree, I interned with Anadarko Petroleum Corporation during the Summer of 2018 and then started as an employee of Anadarko following my internship in January 2019. While at Anadarko, I worked as a geologist in the Delaware Basin. I left Anadarko (then Occidental Petroleum) in December 2019 and started working for Matador in February 2020 as a geologist. Since I have been at Matador, I have been working as a geologist in the Delaware Basin, including in Eddy and Lea Counties, New Mexico. As part of my employment for Matador, I am also required to complete at least 40 hours of

BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico

Submitted by: Matador Production Company
Hearing Date: September 7, 2023
Case No. 23742

continuing education each year. I am also a member of the American Association of Petroleum Geologists and the West Texas Geological Society.

- 3. I am familiar with the applications filed by Matador in these cases and have conducted a geologic study of the lands in the subject area.
- 4. **Matador Exhibit D-1** is a locator map outlining the horizontal spacing units with a black box shaded in yellow, with the larger area identified in a red box.
- The target intervals for the initial wells in these proposed spacing units are the First
 Bone Spring and Second Bone Spring of the Bone Spring formation.
- 6. **Matador Exhibit D-2** is a subsea structure map that I prepared for the top of the Bone Spring formation. The contour interval is 50 feet. The structure map shows the Bone Spring formation gently dipping to the west/southwest. The structure appears consistent across the proposed spacing units, and I do not observe any faulting, pinch outs, or other geologic impediments to horizontal drilling.
 - 7. Also included on Matador Exhibit D-2 is a line of cross section from A to A'.
- 8. **Matador Exhibit D-3** is a structural cross-section that I prepared displaying openhole logs run over the Bone Spring formation from the three representative wells denoted from A to A'. For each well in the cross-section, the following logs are included, when available: gamma ray, caliper, resistivity, and porosity. The proposed target interval of each of the respective proposed wells is labeled and marked with a yellow shaded area. The logs in the cross-section demonstrate that the targeted intervals, within the Bone Spring formation, are consistent in thickness across the entirety of the proposed spacing units.

- 9. Based on my geologic study of the area, I have not identified any geologic impediments to drilling horizontal wells within the Bone Spring formation in the area of the spacing units proposed in these cases.
- 10. In my opinion, each quarter-quarter section will be productive and contribute moreor-less equally to production from these horizontal spacing units.
- 11. In my opinion, horizontal drilling will be the most efficient method to develop this acreage, to prevent the drilling of unnecessary wells, and to result in the greatest ultimate recovery.
- 12. In my opinion, the standup orientation is the preferred orientation for development in this area for the target intervals of these wells because the maximum horizontal stress is approximately east-west in this area.
- 13. Approving Matador's applications will be in the best interest of conservation, the prevention of waste, and protection of correlative rights.
- 14. **Matador Exhibits D-1 through 3** were either prepared by me or compiled under my direction and supervision.

Re: Application of MRC Permian Company for Approval of an Overlapping Horizontal Well Spacing Unit and Compulsory Pooling, Lea County, New

Mexico: Biggers 18&7 Fed Com 111H and 121H wells

Ladies & Gentlemen:

This letter is to advise you that MRC Permian Company has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on September 7, 2023, and the status of the hearing can be monitored through the Division's website at https://www.emnrd.nm.gov/ocd/.

Due to the remodeling of the state building where the New Mexico Oil Conservation Division is located, hearings will be conducted remotely beginning at 8:15 a.m. To participate in the electronic hearing, see the instructions posted on the OCD Hearings website: https://www.emnrd.nm.gov/ocd/hearing-info/.

You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date. Parties appearing in cases are required to file a Pre-hearing Statement four business days in advance of a scheduled hearing that complies with the provisions of NMAC 19.15.4.13.B.

If you have any questions about this matter, please contact Isaac Evans at (972) 587-4628 or at Isaac.evans@matadorresources.com.

Sincerely,

Michael H. Feldewert

LEGAL NOTICE August 22, 2023

STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION
SANTA FE, NEW MEXICO

The State of New Mexico, Energy Minerals and Natural Resources Department, Oil Conservation Division ("Division") hereby gives notice that the Division will hold public hearings before a hearing examiner on the following case. The hearing will be conducted remotely on Thursday, September 7, 2023, beginning at 8:15 a.m. To participate in the electronic hearing, see the instructions posted below. The docket may be viewed at https://www.emnrd.nm.gov/ocd/hearing-info/ or obtained from Marlene Salvidrez, at Marlene.Salvidrez@emnrd.nm.gov. Documents filed in the case may be viewed at https://ocdimage.emnrd.nm.gov/lmaging/Default.aspx. If you are an individual with a disability who needs a reader, amplifier, qualified sign language interpreter, or other form of auxiliary aid or service to attend or participate in a hearing, contact Marlene Salvidrez at Marlene Salvidrez@emnrd.nm.gov, or the New Mexico Relay Network at 1-800-659*1779, no later than August 27, 2023.

Persons may view and participate in the hearings through the following link:

STATE OF NEW MEXICO TO: All named parties and persons having any right, title, interest or claim in the following case and notice to the public.

(NOTE: All land descriptions herein refer to the New Mexico Principal Meridian whether or not so stated.)

To: All affected interest owners, including: COG Operating, LLC; COG Production, LLC; Malaga Royalty, LLC; Malaga EF7, LLC; Mongoose Minerals, LLC; and The United States of America.

Case No. 23742: Application of MRC Permian Company for Approval of an Overlapping Horizontal Well Spacing Unit and Compulsory Pooling, Lea County, New Mexico. Applicant in the above-styled cause seeks an order (a) approving an overlapping 320-acre, more or less, standard horizontal well spacing unit in the Bone Spring formation underlying the Lots 1-4 (W2W2 equivalent) of irregular Sections 7 and 18, Township 25 South, Range 35 East, NMPM, Lea County, New Mexico, and (b) pooling all uncommitted mineral interests in this overlapping horizontal well spacing unit. Said unit will be initially dedicated to the proposed Biggers 18&7 Fed Com 111H and the Biggers 18&7 Fed Com 121H wells to be horizontally drilled from Lot 4 (SW4SW4 equivalent) of Section 18 to a bottom hole location in Lot 1 (NWNW4 equivalent) of Section 7. This proposed horizontal well spacing unit will overlap a horizontal spacing unit in the WC-025 G-09 S243532M; Wolfbone Pool (98098), an interval and pool different from by that targeted by the proposed wells, comprised of the W2 equivalent of irregular Sections 6 and 7 of Township 25 South, Range 35 East, dedicated to the following wells:

COG Stove Pipe Fed Com 601H (30-025-46556) COG Stove Pipe Fed Com 603H (30-025-46500) COG Stove Pipe Fed Com 702H (30-025-46557) COG Stove Pipe Fed Com 706H (30-025-46503) COG Stove Pipe Fed Com 707H (30-025-46504)

Also, to be considered will be the cost of drilling and completing the wells and the allocation of the cost thereof, actual operating costs and charges for supervision, designation of Matador Production Company as operator of the wells, and a 200% charge for risk involved in drilling said wells. Said area is located approximately 12 miles west of Jal, New Mexico.
