STATEMENT OF THE CASE

Applicant in the above-styled cause seeks an order from the Oil Conservation Division pooling all uncommitted mineral interests in the Wolfcamp formation ([87760] Winchester; Wolfcamp (Gas)) in a standard 640-acre, more or less, horizontal spacing and proration unit (“HSU”) comprised of the S/2 of Section 27 and Section 28, T19S-R28E, in Eddy County, New Mexico. Applicant proposes to drill the following 2-mile wells in the HSU: (1) **Big Burro 27 State Com # 203H** well, to be horizontally drilled from an approximate surface hole location 173’ FEL and 1190’ FSL of Section 27, T19S-R28E, to an approximate bottom hole location 100’ FWL and 2415’ FSL of Section 28, T19S-R28E; and (2) **Big Burro 27 State Com # 204H** well, to be horizontally drilled from an approximate surface hole location 173’ FEL and 1160’ FSL of Section 27, T19S-R28E, to an approximate bottom hole location 100’ FWL and 1095’ FSL of Section 28, T19S-R28E. The completed interval and first and last take points will meet the setback requirements set forth in the statewide rules for horizontal oil wells. Additional considerations will be the cost of drilling and completing the wells and allocation of such costs, the designation of Applicant as operator of the HSU and wells to be drilled thereon, and a 200% charge for the risk involved in drilling and completing the wells. The wells and lands are located approximately 12 miles North of Carlsbad, New Mexico.

CERTIFICATE OF SERVICE

I hereby certify that a true and correct copy of the foregoing pleading was served on counsel of record via email on September 28, 2023, as follows:
